Humanitarian Relief Measures for the Typhoon Maysak Damages

On April 7, the Government of Japan decided to extend emergency relief goods in equivalent to 11 million yen (Water Purifier, Portable Jerry Can) to the Federated States of Micronesia through the Japan International Cooperation Agency (JICA) in response to the request from the Government of the Federated States of Micronesia following serious damage caused by the Typhoon Maysak.

Japanese words used in the Federated States of Micronesia (FSM) such as “bento”, “sensei”, and “jidosha” had their origin in Japanese Administration Period between 1914 and 1945 when students studied Japanese language in schools. With this historical relationship as a backdrop, Japan has been extending Development Cooperation Assistance to the FSM people based upon KIZUNA (Strong Bonds) between us.
Development Cooperation
In Various Sectors

- Infrastructure
  - Circular Road
  - Excavator

- Transportation
  - Pohnpei International Airport
  - Airport Terminal

- Education
  - Caroline Voyager & Micronesian Navigators
  - Multi-Purpose Center
- Provision of Equipment & Advice by J-PRISM Experts -

- **Energy**
  - Solar Power

- **Health**
  - Medical Equipment

- **Environment (Waste Management Projects)**
  - Garbage Compacting Truck
  - Semi-Aerobic Landfill System to promote the decomposition of solid waste
Since 1989, Japanese Volunteers have been actively involved in a variety of areas of works through human to human relationships with FSM friends.
