# Purpose of new coronavirus measures (basic concept)

# Hospitalization and discharge

[Domestic cases]

As of 18:00, Mar. 15

| PCR tested positive |   |                       |         |
|---------------------|---|-----------------------|---------|
|                     | Already discharged from hospital          | Currently in hospital | Death   |
| 8 0 9 (+32)         | 164 (+7)                                  | 6 2 1 (+23)           | 24 (+2) |
|                     | From severe to moderate/mild symptoms 1 3 |                       | 27 (12) |

[Cases at the Cruise ship]

| PCR tested positive    |   |                       |       |
|------------------------|---|-----------------------|-------|
| (in hospital in Japan) | Already discharged from hospital          | Currently in hospital | Death |
| 6 7 2                  | 4 5 8                                     | 2 0 7                 | 7     |
|                        | From severe to moderate/mild symptoms 2 8 |                       | ,     |

**Total** 

| PCR tested positive    |   |                       |          |
|------------------------|---|-----------------------|----------|
| (in hospital in Japan) | Already discharged from hospital          | Currently in hospital | Death    |
| 1 4 8 1 (+32)          | 6 2 2 (+7)                                | 8 2 8 (+23)           | 3 1 (+2) |
|                        | From severe to moderate/mild symptoms 4 1 |                       | 3 1 (12) |

The number in parentheses indicates the change from the previous day.

## Coronavirus Disease 2019 (COVID-19)Situation in Japan

(As of 6PM, Mar.15, 2020)

[Note1] The number of patients on charter flights and cruise ship is not included.

[Note2]Data before matching with medical institutions.

#### Confirmed Cases in each day

#### Confirmed Cases in each week

## Coronavirus Disease 2019 (COVID-19)Situation in Japan

As of 6PM, Mar. 15, 2020

### Coronavirus Disease 2019 (COVID-19)Situation in Japan

As of 6PM, Mar. 15, 2020

#### COVID-19 Clusters in Japan as of March 17, 2020 Hokkaido (2) ≥5人 Cases related to a club with live music ≥10人 and an exhibition Chiba Prefecture (1) Cases related to a sports gym Niigata Prefecture (1) Cases related to a table-tennis club Aichi Prefecture (2) Tokyo (1) Cases related to a sports gym and a welfare Cases related to a Kanagawa Prefecture (2) Yakatabune boat facility Cases related to a medical institution and a welfare facility Hyogo Prefecture (3) Cases related to a medical institution and welfare facilities Osaka Prefecture (1) Cases related to a club with live music

Note 1: Clusters were defined by Prof. Oshitani, Tohoku Univ. and Prof. Nishiura, Hokkaido Univ., et al ,based on information from local governments.

Note 2: At this moment, as a guide, clusters are defined as the place where more than 5 histories of contact by infected patients were found. Secondary infections (e.g. infection to the families) and infection between family members are not reflected in this map. This map may not reflect the latest situation of the infection, or number of cases in each prefecture.

#### PCR Testing system for novel corona virus covered by medical insurance

- Olf a public health center decides that a patient is out of the scope of administrative testing, doctors can request the test directly to testing institutes with their own decision.
- OFor the purpose of preventing in-hospital infection and ensuring the accuracy of the testing, the test is required to be conducted at outpatient facilities for Japanese Returnees and Potential Contacts.
- OMoreover, efforts will be made to expand the number of tests to be conducted with insurance coverage, taking into account future improvement in the preparedness of the private sectors.

## Novel Corona Virus Test: Capacity and the number of cases tested

- O Capacity to conduct PCR tests for novel corona virus has been increasing.
- O As of now, more PCR test capacity is secured than the actual number of conducted tests.

Pursuant to Article 5, paragraph 1, item 14 of the Immigration Control and Refugee Recognition Act, foreign nationals who fall into one of the following categories are to be denied their landing to Japan, unless they have exceptional circumstances:
