## **APPENDIX**

## IN RELATION TO PARAGRAPH 3 OF ARTICLE 2.6 (TARIFF DIFFERENTIALS)

- 1. For the purposes of this Appendix:
  - (a) **additional requirement** means the requirement that an exporting Party of an originating good is the Party where no less than 20 per cent of the total value of the originating good has been added in the production of that originating good, as calculated, *mutatis mutandis*, under Article 3.5 (Calculation of Regional Value Content)<sup>1</sup>; and
  - (b) **period** means the period of time during which China imposes the additional requirement. Such imposition shall be limited to the period during which the originating good is subject to a tariff differential by China.
- 2. For greater certainty, the eight-digit codes of the tariff classification number of China and their product descriptions referred to in the table in this Appendix correspond respectively to those referred to in the Schedule of Tariff Commitments of China.
