

- Japan has been providing COVID-19 vaccine-related support in cooperation with the COVAX Facility and other international frameworks to ensure **equitable access to safe, effective, and quality-assured vaccines** in all countries and regions in order to globally overcome COVID-19.
- The government of Japan announced its intention “to provide **around 30 million doses** of vaccines, including **through the COVAX Facility**, to other countries and regions”, at the COVAX AMC Summit held in June 2021. In September 2021, at the occasion of the General Debate of the UN General Assembly, it was announced that Japan will provide **up to around 60 million doses in total**.
- Japan has been promoting dose-sharing, based on domestic manufacturing and inoculation capacity, requests from the international community, and the situation of COVID-19 infections in each country or region. Japan is also providing “**Last One Mile Support**” which supports the delivery of vaccines to vaccination sites.

1. Financial support to the COVAX Facility

- Japan has disbursed US\$ 200M so far to the COVAX AMC.
- Japan co-hosted the COVAX AMC Summit on 2 June 2021, and announced an additional contribution of US\$ 800M, which brings the **total contribution of US\$ 1 billion** to the COVAX AMC.
- Japan, as a co-host of the Summit, called for further commitments from other donors, and the Summit succeeded in securing US\$ 9.6 billion, which is well beyond the target of US\$ 8.3 billion to secure 1.8 billion vaccine doses to cover 30% of the population in AMC-eligible economies by the end of 2021.

Philippine President Duterte attended the handover ceremony upon vaccine arrival from Japan. (8 July)

Bangladeshi Foreign Minister Momen attended the handover ceremony upon vaccine arrival from Japan. (31 July)
