## “My Proposal – Our Future ASEAN-Japan Relations on the 50th Year of ASEAN-Japan Friendship and Cooperation”

The year 2023 marks the 50th commemorative year of ASEAN-Japan friendship and cooperation. ASEAN-Japan relations have made remarkable progress since the start of their dialogues in 1973.

Over the past half century, Japan and ASEAN have been working together not only as close business partners, but also as true friends with “heart to heart relations,” and cooperated hand in hand for peace, stability, and prosperity of the region, even in times of difficulty.

The international community is at a history’s turning point. In an era in which cooperation and division are intricately intertwined, what kind of ASEAN-Japan relationship should we aim for and what kind of initiatives should we take in the future on the occasion of the 50th Year of ASEAN-Japan Friendship and Cooperation? We look forward insightful policy proposals based on flexible thinking of those of you who will lead the next generation.
