

## **Joint Press Release on the Japan-U.S. - ROK Trilateral Dialogue on Space Security**

Japan, the United States, and the Republic of Korea (ROK) held a trilateral dialogue on space security in Seoul on November 8, 2023. In accordance with the Leaders' Joint Statement released on August 18, 2023, the dialogue focused on issues related to space security, particularly regarding threats in the space domain, national space strategies, and the responsible use of space.

Representatives from the three countries engaged in discussions aimed at promoting safe, secure and sustainable use of outer space and enhancing the resilience of space systems.

The three countries intend to continue such engagements to fulfill the leaders' vision to enhance space security trilaterally.
