

Development Goals: By strengthening the law enforcement system and promoting reconstruction of Cabo Delgado Province, this initiative aims to stabilize the province, ensure the stable operation of the LNG project, and improve access to international markets including Japan, thereby supporting Mozambique's fair and sustainable development and high-quality growth.

Development Scenario: By supporting the Mozambican government's efforts to enhance its law enforcement capabilities, we aim to contribute to the early resumption then stable operation of LNG projects involving Japanese companies and public institutions. In addition, by providing humanitarian and development assistance to help internally displaced persons rebuild their lives, we will contribute to poverty reduction, which is a root cause of terrorism. Through these efforts, we aim to establish an approach that bridges security, humanitarian affairs, and development cooperation to the strengthening of supply chains, extending this approach to other African countries and regions facing similar issues..

Proposal of Cooperation:

1. Humanitarian and Recovery Assistance

- Grant Aid "The Project for the Rehabilitation of Infrastructure for the Stabilization of Cabo Delgado Province (through UNDP)"
- Humanitarian Assistance through FY 2024 Supplementary Budget (FAO, IOM, UNHCR)
- Food Assistance (through World Food Programme)
- Grant Aid "Economic and Social Development Programme" (Provision of Water Trucks and Fishing Boats)
- Grant Assistance for Japanese NGO Projects "Community-Led Sanitation Improvement Support Project in Cabo Delgado Province" (Good Neighbors Japan)
- Grant Aid "Economic and Social Development Programme" (Provision of Maternal and Child Health Care Equipment)
- Grant Aid "The Project for Human Resource Development Scholarship"
- Survey for Peacebuilding, Recovery, and Resettlement for Internally Displaced Persons in Northern region
- Dispatch of Experts for Recovery, Reconstruction, and Peacebuilding in Northern Region

2. Support for Improvement of Security

- Grant Aid "Economic and Social Development Programme" (Provision of maritime rescue-related equipment, patrol boats, border management equipment, and police vehicles)
- Grant Aid "The Project for the Enhancement of Counter-terrorism Capacity in Cabo Delgado Province (through UNODC)"
- Grant Aid "The Project for Strengthening Community Policing Activities and Border Security System (through IOM)"

3. LNG Development

- Financial support for LNG Project [NEXI, JBIC and JOGMEC]
- LNG Engineer and Manager Training (2013–) [JOGMEC]
- Human resource development program in the field of mineral resources called "Kizuna Program" (Regional Long-Term Training)
