Section 1

Notes for Schedule of Bangladesh

1. The eight-digit codes of the tariff classification number in the Schedule of Bangladesh in Section 2 (hereinafter referred to in this Part as "Schedule of Bangladesh") are based on the national nomenclature of Bangladesh (*Bangladesh Customs Tariff (First Schedule of Customs Act)* as of July 1, 2025). For greater certainty, they are subject to change in accordance with the laws, regulations or public notifications of Bangladesh, and shall be referred to together with the correlation tables published in the case of any change of the national nomenclature of Bangladesh.

2. For the purposes of Article 2.4, the following categories indicated in Column 4 of the Schedule of Bangladesh shall apply:

(a) customs duties on originating goods classified under the tariff lines indicated with "A" shall be eliminated entirely, and such goods shall be duty free on the date of entry into force of this Agreement;

(b) customs duties on originating goods classified under the tariff lines indicated with "B5" shall be eliminated, from the Base Rate to free, in six equal annual installments beginning on the date of entry into force of this Agreement;

(c) customs duties on originating goods classified under the tariff lines indicated with "B8" shall be eliminated, from the Base Rate to free, in nine equal annual installments beginning on the date of entry into force of this Agreement;

(d) customs duties on originating goods classified under the tariff lines indicated with "B10" shall be eliminated, from the Base Rate to free, in 11 equal annual installments beginning on the date of entry into force of this Agreement;

(f) customs duties on originating goods classified under the tariff lines indicated with "B15" shall be eliminated, from the Base Rate to free, in 16 equal annual installments beginning on the date of entry into force of this Agreement;

(g) customs duties on originating goods classified under the tariff lines indicated with "B18" shall be eliminated, from the Base Rate to free, in 19 equal annual installments beginning on the date of entry into force of this Agreement;

(h) customs duties on originating goods classified under the tariff lines indicated with "E-MFN" shall be the lesser of:

(i) the most-favored-nation applied rate of customs duty on goods classified under the same tariff line as those originating goods; or

(ii) the lowest rate of custom duty based on the preferential tariff treatment applied by Bangladesh on goods classified under the same tariff line as those originating goods pursuant to any international agreement to which a Bangladesh is a party; and

Note: If Bangladesh establishes a tariff rate quota under any international agreement and the in-quota rate of customs duty on a particular good, which is under the same tariff line as the tariff line indicated with "E-MFN" in Column 4 of the Schedule of Bangladesh, becomes lower than the rates of customs duties specified in subparagraphs (i) and (ii), Bangladesh shall apply the lowest in-quota rate of customs duty on originating goods of Japan classified under that tariff line, regardless of the quota quantity for that particular good under the international agreement mentioned above.

(i) originating goods classified under the tariff lines indicated with “X” shall be excluded from any tariff commitment referred to in subparagraphs (a) through (h).

Section 1

Notes for Schedule of Japan

1. The nine-digit codes of the tariff classification number in the Schedule of Japan in Section 3 (hereinafter referred to in this Part as "Schedule of Japan") are based on the national nomenclature of Japan (*Statistical Code List for Imports* as of April 1, 2025). For greater certainty, they are subject to change in accordance with the laws, regulations or public notifications of Japan, and shall be referred to together with the correlation tables published in the case of any change of the national nomenclature of Japan.

2. For the purposes of Article 2.4, the following categories indicated in Column 4 of the Schedule of Japan shall apply:

(a) customs duties on originating goods classified under the tariff lines indicated with "A" shall be eliminated entirely, and such goods shall be duty free on the date of entry into force of this Agreement;

(b) customs duties on originating goods classified under the tariff lines indicated with "B3" shall be eliminated, from the Base Rate to free, in four equal annual installments beginning on the date of entry into force of this Agreement;

(c) customs duties on originating goods classified under the tariff lines indicated with "B5" shall be eliminated, from the Base Rate to free, in six equal annual installments beginning on the date of entry into force of this Agreement;

(d) customs duties on originating goods classified under the tariff lines indicated with "B7" shall be eliminated, from the Base Rate to free, in eight equal annual installments beginning on the date of entry into force of this Agreement;

(f) customs duties on originating goods classified under the tariff lines indicated with "B15" shall be eliminated, from the Base Rate to free, in 16 equal annual installments beginning on the date of entry into force of this Agreement;

(g) customs duties on originating goods classified under the tariff lines indicated with "TRQ" shall be as provided for in the terms and conditions set out in Section 2;

(h) originating goods classified under the tariff lines indicated with "R" shall be subject to the review by the Parties which shall be commenced within 90 days from the date of entry into force of this Agreement;

(j) originating goods classified under the tariff lines indicated with "-", which are the subject of State Trading or the tariff rate quotas set out in the Schedule of Tariff Concessions of Japan to the GATT 1994 or in the relevant cabinet orders of Japan, shall not be applicable for any tariff commitment under this Agreement.

3. Subparagraph 4(b) of Part 1 shall not apply to the case of customs duties on originating goods classified under the tariff line 0703.10, derived from the difference between the value for customs duty and the value specified in Column 3 of the Schedule of Japan.

Section 2
Tariff Rate Quotas of Japan

1. For the purposes of subparagraph 2(g) of Section 1, customs duties on originating goods classified under the tariff lines indicated with "TRQ" in Column 4 of the Schedule of Japan (hereinafter referred to in this Section as "the originating goods") shall be governed by the terms and conditions set out in this Section, beginning on the date of entry into force of this Agreement.

2. A tariff rate quota shall be applied to the originating goods in accordance with the following:

(a) the aggregate quota quantity for each year shall be as follows:

(i) 45 metric tons for the first year;

(ii) 52 metric tons for the second year;

(iii) 59 metric tons for the third year;

(iv) 66 metric tons for the fourth year;

(v) 73 metric tons for the fifth year;

(vi) 80 metric tons for the sixth year;

(vii) 87 metric tons for the seventh year;

(viii) 94 metric tons for the eighth year;

(ix) 101 metric tons for the ninth year;

(x) 108 metric tons for the tenth year; and

(xi) 115 metric tons for the eleventh year and for each subsequent year;

(b) the in-quota rate of customs duty on the originating goods shall be eliminated, from 25.5 percent to free, in 11 equal annual installments beginning on the date of entry into force of this Agreement; and

(c) for the purposes of subparagraphs (a) and (b), the tariff rate quota shall be implemented through a certificate of tariff rate quota issued by Japan on the basis of the certificate issued by Bangladesh for each export.

3. The originating goods other than those imported under the tariff rate quota shall be excluded from any tariff commitment specified in paragraph 2.

4. Where the first year is less than 12 months, the aggregate quota quantity for the first year set out for the tariff rate quota under this Section shall be reduced to a part of the aggregate quota quantity that is proportional to the number of complete months remaining in the first year. Any fraction of less than 1 metric ton of the aggregate quota quantity so reduced shall be rounded to the nearest whole number (in the case of 0.5, the fraction is rounded to 1.0).

5. The detailed regulations to implement the tariff rate quota and certificate of the originating goods under this Section will be provided for in the Operational Procedures for Trade in Goods.
