Konnichiwa! Japan is the largest country I have ever visited for my whole life. Japan is the biggest and most beautiful country I have ever seen. The places are always clean and the people look neat every day. It is very interesting to visit a place like Japan. I was very happy to visit the Sea Paradise. I saw really smart animals. I also enjoyed staying with the host family. They are kind and I love them for that. Japanese people are very kind and I like Japanese people. They are very cute. I had a great time visiting Japan. It was very fun and I enjoyed a lot - I enjoyed everything.

Name: _____

and there is nothing that I don't like.
Mostly I really like the Japanese food
Very delicious. I am going to miss Japan,
Japanese people, Japanese food,
and My host family, I wish I could
come back to Japan in the future I
really like Japan.

Arigatou gozaimashite.

Thank you very much for your cooperation.

The first thing I impressed in Japan is the buildings and the style of the building. I really impressed the Torosuka SOGO high school. Cuz the way it looks, clean, big buildings, many clubs, and the school usually close at night. The most thing that I have found interested in is the recycling place. I really like that place cuz I think that it cannot make the air smell so bad, and the soil. The things that I found uninterested in is the weathering, for me the weather is not very warm but it was very cold to me. And for my own wish, is that Japan will rule our island again, cuz I want to become the citizen of Japan. Arigato Kosoimase! ありがとう
By'by! See ya in the future (SOON)
I will miss the smile on your face

My first impression was seeing the world's largest city, ^{which is TOKYO}. It's been a great view seeing everything that I've never seen before. My best impression about Japan is that seeing many factories, the Aicle recycle center and docomo tel company. It shows that Japanese people are the nation of industrialize and very challenging to their selves. Also having well-high educational school. Everything about Japan is big and things I've never expected. It's a wonderful experience and was exciting. Some of the Japanese food was interesting, ^{too} like tuna fish, sushi and different kinds of sea food. Some Japanese food ^{also} didn't like, because of the taste and the feeling in my mouth, but I had the opportunity to eat it. Great experience!! I love everything

about YOKOSUKA SOGO HIGH SCHOOL because the school seems to have a challenging programs for students to do, also the built of of the building is famous to others schools and places. so, for my host family, I love them very much, they treated me very well with respect and I like that. All the important people or the helpers of the program I really appreciate for letting me enjoy Japan very much. Thank you all for working hard and giving us great respect. In conclusion Japan is the BOMB (meaning the "best" in slang). I wish to come back in the near futures. I will miss everyone and keep these beautiful memories.

PEACE OUT !! TAKE CARE !!

Thank you very much for your cooperation.

I really like Japan because there were many things I can do. And I also like the people in Tokyo because they were so kind, they also respect people who came and visit their country. And I also like their school because it is very very big and the students also respect us and we also respect them. I wish our school will be like that. In the future, the weather is cold and the trees also change colors like brown and yellow and my host family they were good people and I really love them because they take me to shopping take me to the park and I enjoy a lot about things they done to me and I will never forget.

Name: _____

And I also enjoy the Tokyo tower. The Tokyo tower is very very high and when I get inside to I was very scared, and I forget every thing and we go up to the top of the tower and we can see every thing in Japan but it is very small but not really small. The food I also enjoy the food that we eat every day but not all of the food sum, because some was not with sugar and some is good for me to eat And that what I enjoy. And that all. And I wish I can come back to Japan in the future.

THANK YOU

Love Japan

Thank you very much for your cooperation.

I have many many impressions about my trip. I am very glad to visit this country. There are many things that I'm interested in. The people of Japan, are always bowing to one another every single time. And their faces are very friendly to me. I have just found with my own two eyes about a trash that makes clothes and a fresh milk box can also make a tissue, I'm really interested in those. The most thing that I'm also interested in is when an earthquake will come, what will I do. Then we performed that and it's like a real earthquake. My interest are also based on my host families. My host families are very kind to me and always smiling all the times maybe even when they're in bed. And my sister Misa, it's like always in front of me all the time.

Name: _____

and even when I'll go back to my country, I cannot
let her to walk over my face, she'll always with
me and also she's already in my heart. She will
be always my number one girl in my two eyes.

Thank you very much for your cooperation.

This is my first time here and everything is very interesting to me. I found the public bath interesting, the toilets interesting, the food interesting, and last but not least the politeness or kind-ness of the people. Everybody is so nice to us. Oh, and the vending machine everywhere is very interesting. Pompei don't have any vending machines yet but I think when and if we do get them, they won't be just anywhere. They will have to be near a stone or else kids will steal or brake them. These are few things I can think of now that really blow my mind when I first saw or experience them.
