

Updates on Moving towards Strong, Sustainable and Balanced Growth

Figure 1: World Economic Growth
(Per cent)

Source: IMF October 2015 WEO. *Forecasts.

Figure 2: G-20 Employment
(Persons Employed, Millions)

Source: IFS and Haver Analytics. Data for India is not available. Data for non-G-20 EU members is excluded.

Figure 3: G-20 Unemployment
(Persons Unemployed, Millions)

Sources: IFS and Haver Analytics. Data for India is not available. Data for non-G-20 EU members is excluded.

Figure 4: Current Account Imbalances
(Per cent of G-20 GDP)

Source: IMF October 2015 WEO. Oil exporters are Russia and Saudi Arabia.

Figure 5: World Output Gap
(Per cent of Potential GDP)

Source: OECD Long Term Database, May 2014.

Actions to Foster Strong, Sustainable and Balanced Growth

Figure 6: Progress towards Toronto Deficit Commitments

(General Government Deficit, Per cent of GDP. Red Diamond is Toronto Target)

Sources: IMF October 2015 Fiscal Monitor and US Treasury. Data for EU is from IMF October 2015 WEO. Notes: Korea has a fiscal surplus and Japan was exempt from the Toronto Commitments. For the Accountability Assessment, the UK is assessed using its cyclically adjusted primary balance and using a target based on the Spring 2010 Fiscal Monitor, and the U.S. is assessed on its federal government deficit. Spain 2013 data excludes one-off financial sector support (0.5% of GDP).

Figure 7: Cyclically Adjusted Primary Balance – AEs
(Per cent of Potential GDP)

Source: IMF October 2015 Fiscal Monitor. Measures of CAPB are based on estimates of potential output, revenues, and expenditures.

Figure 8: Gross General Government Debt Levels - AEs
(Per cent of GDP)

Sources: IMF October 2015 Fiscal Monitor. EU data is from IMF October 2015 WEO.

Figure 9: Gross General Government Debt Levels – EMEs
(Per cent of GDP)

Source: IMF October 2015 Fiscal Monitor. Argentina is excluded. China's debt is estimated by the IMF, and is not officially published data.

Figure 10: General Government Balance – EMEs
(Per cent of GDP)

Source: IMF October 2015 Fiscal Monitor. Argentina is excluded.

Figure 11: Inflation

(Per cent; Latest Relevant Observation Represented by Blue Bar; Red Dashes Show Definition of Price Stability; Core Inflation Represented by Orange Star)

Note: Inflation rate and price stability targets are based on members' definition of price stability. Some members' monetary policy objectives include more than price stability. Core inflation excludes food and energy prices with some exceptions (e.g., in addition, Euro area and UK excludes alcohol and tobacco; Indonesia excludes transportation, water and other administered goods; Canada excludes mortgage interest, intercity transportation, tobacco products, and the effect of changes in indirect taxes).

Sources: Latest official statistics. For Australia, 10-year compounded annual average inflation rate. Data as of October 26, 2015.

Figure 12: IMF Classification of Exchange Rate Regimes

(Countries in Italics Have Changed Classification since Last Assessment)

Exchange Rate Classification	G-20 Members
No Separate Legal Tender	
Currency Board	
Conventional Peg	Saudi Arabia
Stabilized Arrangement	
Crawling Peg	
Crawl-like Arrangement	China, Argentina
Other Managed Arrangement	
Floating	Brazil, India, Indonesia, Korea, <i>Russia</i> , South Africa, Turkey
Free Floating	Australia, Canada, Euro Area, Japan, Mexico, United Kingdom, United States
