

JENESYS2015 Inbound Program
(Timor-Leste, Theme: Technology, Nursing and Medical Department
Exchange) Program Report

1. Program Overview

Under “Japan’s Friendship Ties Programs”, 22 East Timorese students from university and graduate school who major in “technology”, “nursing” and “medical science” visited Japan. During the 9 days program from October 4 to October 13. The participants observed cutting edge technologies of “nursing” and “medical science”, and they also studied the Japanese government, society, history, foreign policy, and much more. The participants aim to promote Japan through mediums such as SNS.

Japanese style garden (Himeji City)

10/9 【Cutting-Edge Technology】 Akashi
Kaikyo Bridge “Maiko Marine Promenade”
(Kobe City)

6. Voice from Participants

◆ Timor-Leste, University/Postgraduate student

During my stay in Japan, I felt like I was in the Heaven. I wanted to stay in Japan forever and ever. The Japanese people were always kind and cheerful with a smile. They were also full of hospitality and warmth. Towns were clean and comfortable with a lot of greens and no litters. Specialty products inherit culture, history, and traditional technology up to this date. Historical heritages were also beautiful. Everything was new to me, and I was deeply impressed. When I go back, I would like to tell all the people of East Timor about how wonderful Japan was.

◆ Timor-Leste, University/Postgraduate student

Japanese protect the environment and strictly observe laws. They are always highly conscious. It can be said consciousness opposite to that of people of East Timor. Japan in the field of advanced technology was also excellent. In particular, I had a chance to actually see the latest equipment and devices using advanced technology in a visit to the medical facility. Until then, I only had knowledge through photos and lessons. It was indeed "Seeing is believing." I will tell all the people in our country about what I experienced in Japan.

◆ Timor-Leste, University/Postgraduate student

Japanese are diligent, respectful to each other, friendly, and patient. They also have the very latest technology. To me, Japan is the land of dreams. I hope to change East Timor to a country like Japan in the future.
