

## JENESYS2018 ASEAN Inbound Program 6<sup>th</sup> Batch Program Report Japanese Culture Exchange, Country: Indonesia

### 1. Program Overview

6 young local government officials from Indonesia visited Japan from October 9 to October 16, 2018 under the scheme of “Japan Friendship Ties Programs: JENESYS2018” and participated in the program with the theme of “Japanese Culture Exchange”.

This delegation visited Tokyo, Saitama prefecture, Yamagata prefecture, Miyagi prefecture, and they respectively made courtesy call to the governments and exchanged opinions, had a variety site-visits, where they were able to experience Japanese culture. Through interacting with Japanese people the participants improve their understanding of Japan and shared their individual interests and experiences via Social Media. Based upon their findings and learning in Japan, they made a presentation in the final session and reported on the action plans to be taken after returning to their work.

#### 4. Voice from Participants

##### Indonesian official

It was impressive that the Senior Minister for Foreign Affairs and the Yamagata Prefectural Governor provided us with an explanation about the cooperative relations between Japan and Papua Province, especially the four regencies, from which we came to visit Japan for this program. Delicious Japanese food, Japanese culture, and the characters and friendliness of the Japanese also impressed me.

##### Indonesian official

There are quite a few things that made an impression on me in this visit. Among others, the following points were quite impressive: (1) On the occasion of a facility visit, the Japanese people talked briefly by focusing on key points in a concise way to provide explanation; (2) People always expressed their sympathy to those who were affected by the earthquake in Indonesia, and they were considerate; (3) All activities were carried out efficiently and effectively; (4) The people I met in Japan were all kind and friendly; (5) It was clean everywhere; and (6) The meals were healthy.

##### Indonesian official

When I visited Japanese companies, facilities, and local governments, I found that Japanese culture, courtesy, and life are rich, and that the economy, education, and technology of Japan have been developed.

#### 5. Dissemination by the participants
