4.. Feedback from participants (excerpt)

●I really enjoyed the schedule for the tour and exchange program. The reason why is that I was able to learn new skills from Japanese coaches and representative players who have advanced skills. The things that have been useful for work and living for me that I would like to communicate on after returning to my country include the environment in Japan, how people follow traffic rules, Japan's traditions and culture, the Nippon Sport Science University, the Panasonic Center, ultra-large tractors (Komatsu), roads, and bridges. Japan is an extremely beautiful country, and this is something that I would like to let everyone in Cambodia know about.

●I was able to learn about the wonderful environment in Japan through participation in week-long tour and canoe competition in Japan. It was clean wherever I went, and the roads were really free of waste and plastic garbage. In particular, Japanese people follow the traffic rules well and they are also always on time. Infrastructure is also extremely well developed. Bridges, roads, and railways intersect at various places, which makes it very quick to move around, and I think that this has led to Japan's economic development. Furthermore, Japanese people are extremely friendly, and this is something that I will never forget. When I return home to Cambodia I plan to communicate with my family and friends so they have a better understanding of the beautiful

scenery in Japan, Japan's traditional culture, the custom of being on time and following traffic rules, and especially the development of Japan's economy. I am grateful for having been provided with such a valuable opportunity.

●I am very pleased to be able to visit a variety of wonderful places. I was also able to interact with Japanese players and learn skills from them, and I look forward to applying these skills. I am also very happy that I was able to make some good friends. I got to learn about the wonderful tourists sites in Japan and I plan to tell my friends and group members about them when I return home.

[Translation]

Action plan for communication on participation in joint canoe practice and a canoe tournament in Japan from September 17 to September 25, 2019

1. What I will communicate about

I will communicate on the activities and interaction involving Cambodian canoe athletes who participated in the friendly canoe tournament held in Komatsu City, Ishikawa Prefecture from September 17 to September 25, 2019.

2. When and where?

- Fourth weekend of every month or every other month
- At the school and local canoe stadium or the stadium for the national championship

3. How will you communicate

I will communicate using social media such as Facebook, Telegram, and Messenger.
