“Global Business Seminar”

Forefront of Green Energy

～Offshore Wind, Hydrogen and Regional Revitalization as Innovative Environmental Innovation～

Ministry of Foreign Affairs of Japan (MOFA) is pleased to announce the holding of "Global Business Seminar" under the main theme of how to further expand investment in the field of green energy. Achieving sustainable economic growth, creating employment, and at the same time, realizing a carbon-neutral society through the growth of the renewable energy industry is an urgent issue for society. In this seminar, regarding the outlook for investment expansion focusing on **offshore wind power**, which is one of the pillars of renewable energy, and **hydrogen**, which is called as the trump card for **decarbonization**, Government representatives, experts, and representatives of the business world as well as local government officials will give remarks on **Japan as an investment destination and the attractiveness of local areas**.

We welcome participants who are interested in the latest trends in the renewable energy sector and international trends in offshore wind as well as business people and investors who are considering establishing and/or expanding investment in Japan in the field of renewable energy businesses related to **offshore wind power and hydrogen**; those interested in collaborating with foreign affiliated companies; and local governments which are interested in attracting foreign affiliated companies.
