

## JENESYS2020 Japan-Lao PDR Online Exchange (Manufacturing, Science and Technology) Report

### 1. Program Overview

【Objective】 This program was conducted with the main objective of having Lao youth come into contact with Japan's cutting-edge manufacturing technologies in order to enhance the students' motivation to learn, and to strengthen the dissemination of Japanese manufacturing technology.

【Participants】 Total: 44 undergraduate students and graduate students in Lao PDR

【Location】 Mie Pref., Aichi Pref

#### 【Program Schedule】

Date Location	Program contents	Participants' questions and reactions
June 2, 2021 Ise City, Mie Prefecture	<p>(Jointly with another program) 【Webinar, Q&amp;A session】 “Exchange between Lao PDR and Ise City” Lecturer: Mr. YAMASHITA Tomoya Senior Specialist / Unit Chief City Promotion Unit, Planning and Coordination Division, Information and Strategy Bureau</p> <p>“Agriculture and Fishery Initiatives” Lecturer: Mr. YAMANAKA Tsuyoshi Unit Chief, Agriculture Promotion Unit, Agriculture, Forestry and Fishery Division, Industry and Tourism Department Mr. NAKANISHI Ken Senior Specialist / Unit Chief Fishery Unit, Agriculture, Forestry and Fishery Division, Industry and Tourism Department</p>	<p>Ise City, where agricultural and fishery products are famous as specialty products, introduced how they promote and sell certain products outside the city and overseas such as vegetables, seaweed and shellfish, which can be harvested in Lao PDR, and introduced the kind of measures set in place in regards to the decrease in specialty products due to less providers and more environmental issues. Participants from Lao PDR said that they learned much from Ise City, which is dedicated to protect the environment, including how to promote seaweed which can be harvested in the Mekong River, and participants said that it was a meaningful lecture for the future development of Lao PDR.</p>

July 7, 2021 Nagoya City, Inazawa City, Aichi Prefecture	<b>【Webinar, Q&amp;A session】</b> Company Overview (HR Development) Lecturer: Ms. KUBOTA Haruko MITSUBISHI ELECTRIC Corporation Nagoya Works Introduction to Inazawa Works and the Elevator Enterprise Lecturer: Ms. KAWAKAMI Yuka MITSUBISHI ELECTRIC Corporation Inazawa Works	Most of the participants didn't know that Mitsubishi Electric elevators were being used in the new National Assembly building in Lao PDR, but they were still very interested to hear about the company. During the Q&A, participants asked if there were non-Japanese technicians at the overseas branches, showing how some Lao students became more interested in working for the company.

### 3. Voices from Participants (excerpt)

#### ◆ Undergraduate Student

This program is very interesting, made me know about agriculture, fishery, tourism and other things of Ise. Ise is a city worth visiting and of course I will get there if I have the chance.

#### ◆ Undergraduate Student

Thank you for great experiences, I'm really glad to be a part of the program. I hope that you will have another program soon.

#### ◆ Undergraduate Student

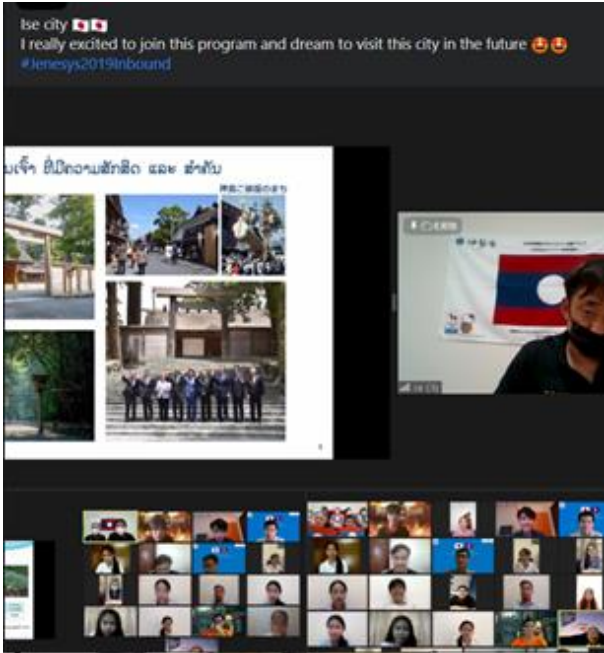

First of all Thanks for inviting me to join today. I now know more information about mitsubishi electric of japan.

### 4. Voice from Japanese Locals (excerpt)

#### ◆ Lecturer

We believe this was a great opportunity for the participants to learn about our corporation. We were glad to receive so many questions, and to see how engaging the participants were.

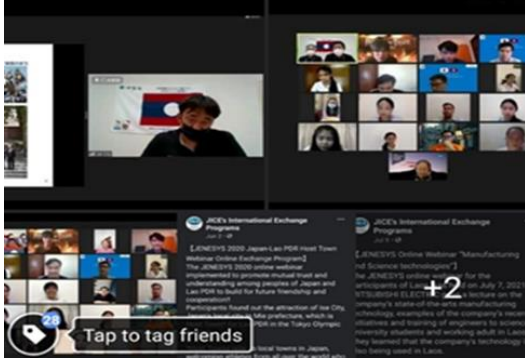

### 5. Dissemination by the participants

As one of the participants in:  
【JENESYS 2020 Japan-Lao PDR Host Town Webinar Online Exchange Program】 and  
【JENESYS Online Webinar “Manufacturing and Science technologies”】.

I would like to thank you for The Jenesys program and JICE (Japan International Cooperation Center)'s international exchange program that gave me an opportunity to learn more about Japan and found out the attraction of Ise City, Japan's local city in Mie prefecture, which is the Host Town for Lao PDR in the Tokyo Olympic Games. I also would like to thank you to MITSUBISHI ELECTRIC who gave a lecture on the company's state-of-the-arts manufacturing technology, examples of the company's recent initiatives, and the training of engineers. And also learned that the company's technology is also being used in Laos.
