(Communication, Education and Japanese Culture  
(Sub-theme: manufacturing technology)) Record**

**1. Program Overview**

**【Objective】** This program was conducted with the main objective of promoting educational exchange between Japan and Viet Nam by deepening the understanding of Japanese language education and culture among Viet Nameese youth who are interested in Japan and the Japanese language, and to contribute to the spread of Japanese language education and the development of Japanese speakers in Viet Nam. Some of the students who participated from Japan visited Viet Nam in past outbound programs, and it was an opportunity for them to reunite with the Vietnamese students they had interacted with.

**【Participants】** Total: 86 high school students, vocational high school students, undergraduate/graduate students and working youth from Viet Nam

**【Location】** Wakayama Pref., Tokyo

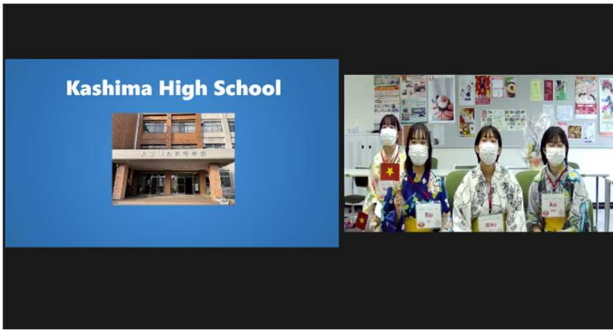

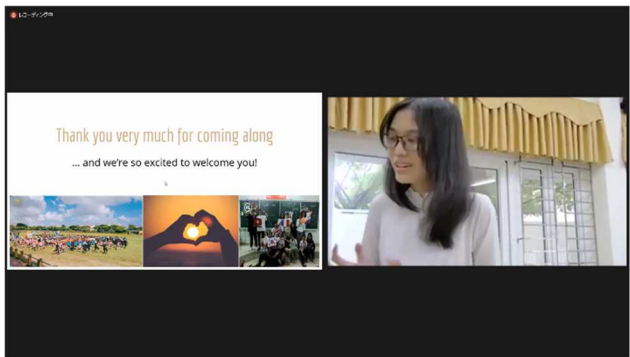

**【Program Schedule】**

This program was conducted jointly with JENESYS2021 Japan-Viet Nam Online Exchange Japan in Focus (Japanese Language Education) program.

### 3. Voices from Participants (excerpt)

#### ◆ High School Student

That was awesome. However, we wish it would be longer for us to interact with each other.

#### ◆ High School Student

It's a very refreshing and overall satisfying experience

◆ Undergraduate Student

It was a very informative lecture. I was able to learn about Japanese cultures I had never heard of and deepen my understanding of their characteristics. It was very interesting to learn about the good things about Japan and its food culture first hand. Many questions were asked by the participants after the lecture, making it a very lively exchange. I was also grateful for the lecturer being so attentive to our questions. .

◆ Undergraduate Student

I am very glad that I was able to deepen my understanding of the people and cultures of Japan through this lecture. The content of the program was truly wonderful. Thanks to this being an online event, I like many other people who live in provincial cities in Viet Nam were able to take part in this useful lecture, and I am grateful.

◆ Undergraduate Student

This lecture was interesting and full of useful information. I felt closer to the country of Japan and its people. After the lecture, I became friends with the participants and continue to interact with them. Thank you very much for the wonderful program.

4. Voice from Japanese Locals (excerpt)

◆ School Exchange Participating Student

I now want to learn more about schools in Viet Nam. This opportunity made me want to speak English better and interact with more people.

◆ School Exchange Participating Staff

When I participated in an exchange before (as a liaison in an outbound program in FY2019), I met students and education board members in Viet Nam, and it was great to see them again online.

On September 7<sup>th</sup> (Tue), we exchanged online with high school students in Quang Nam, Viet Nam.

As part of the Japan's Friendship Ties Programs, we along with other Wakayama high school students were dispatched to Viet Nam in January 2020, and interacted with the local high school students. The exchange was held online this time and students were hesitant, but were still engaging during the school presentations, making the exchange even more beneficial.

High school students from Quang Nam, Viet Nam and Wakayama Prefecture held an online school exchange. This project was part of MOFA's Japan's Friendship Ties Programs, with high school students from 6 schools in Wakayama, and 2 schools from Viet Nam. 5 students from our school participated in the exchange, where each school introduced their characteristics, and we introduced the charms of Hashimoto High School and Hashimoto City using a PowerPoint. In the group discussions, we learned about schools, food culture, and many other charms of Viet Nam, as well as their relationship with Japan. With the exchange being held in English, we acknowledged the importance of English as a communication tool. It was a very fulfilling exchange, in a very friendly atmosphere.
