3. Voices from Participants (excerpt)

◆ Administrative Official (Indonesia)

Because the lecture was easy to follow, I was able to deepen my knowledge about the affairs under the jurisdiction of the Japan Coast Guard. I hope that from next time, more time could be allocated to the Q&A. I hope that once Japan returns to how it was, that these kinds of lectures will be held in-person for future programs to visit Japan.

◆ Administrative Official (Indonesia)

It was such a beneficial program, that I would love to have the opportunity, if possible, to participate in a program to visit Japan for 2 to 4 weeks, to deepen my understanding of Japanese culture.
