

Introduction

About KEIDANREN

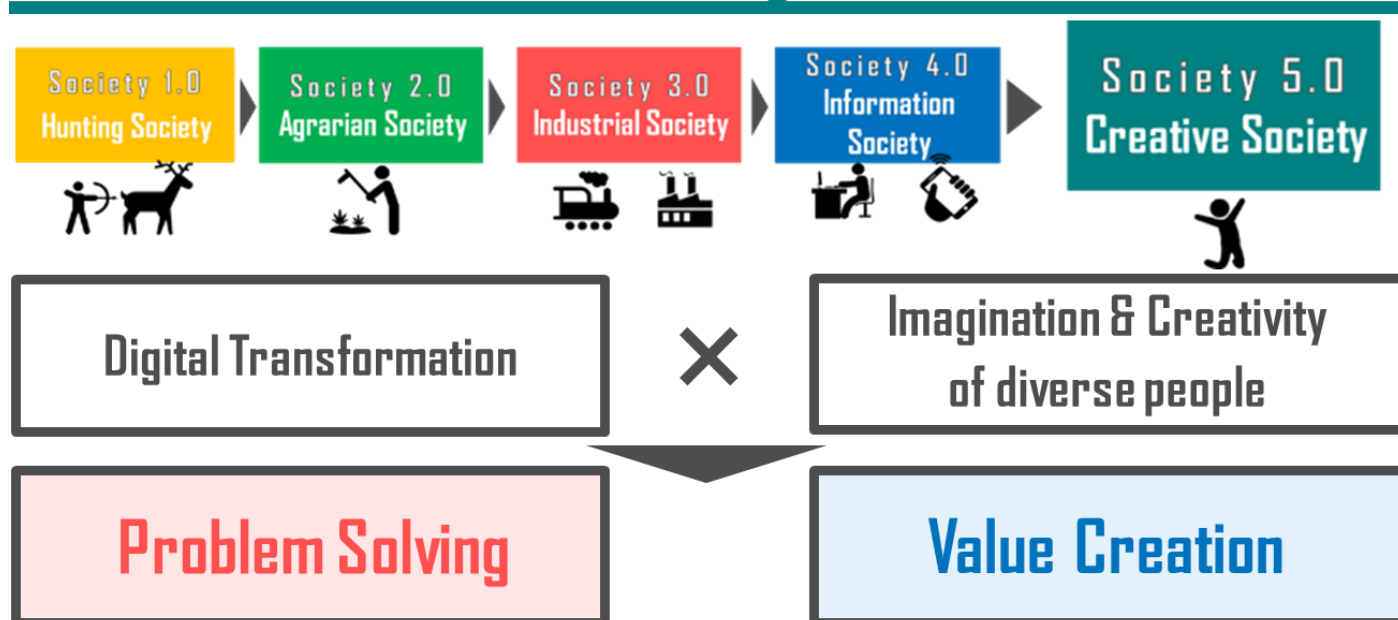

- Keidanren (Japan Business Federation) is a comprehensive economic organization with a membership comprised of about 1,500 representative companies of Japan & about 150 nationwide industrial associations and the regional economic organizations.
- Keidanren has regarded TICAD as a valuable opportunity for promoting exchanges between Japan and Africa, and has played an active role since TICAD I in 1993.

Society 5.0

Keidanren takes an initiative in the reform of Japan's economy and society as a leader of Society 5.0. Aiming to resolve social issues in harmony with nature, Society 5.0 will contribute to delivering on United Nations SDGs.

Society 5.0

Society 5.0 for

**Supporting autonomous and sustainable
development of Africa**

Tackling issues and opportunities with Africa

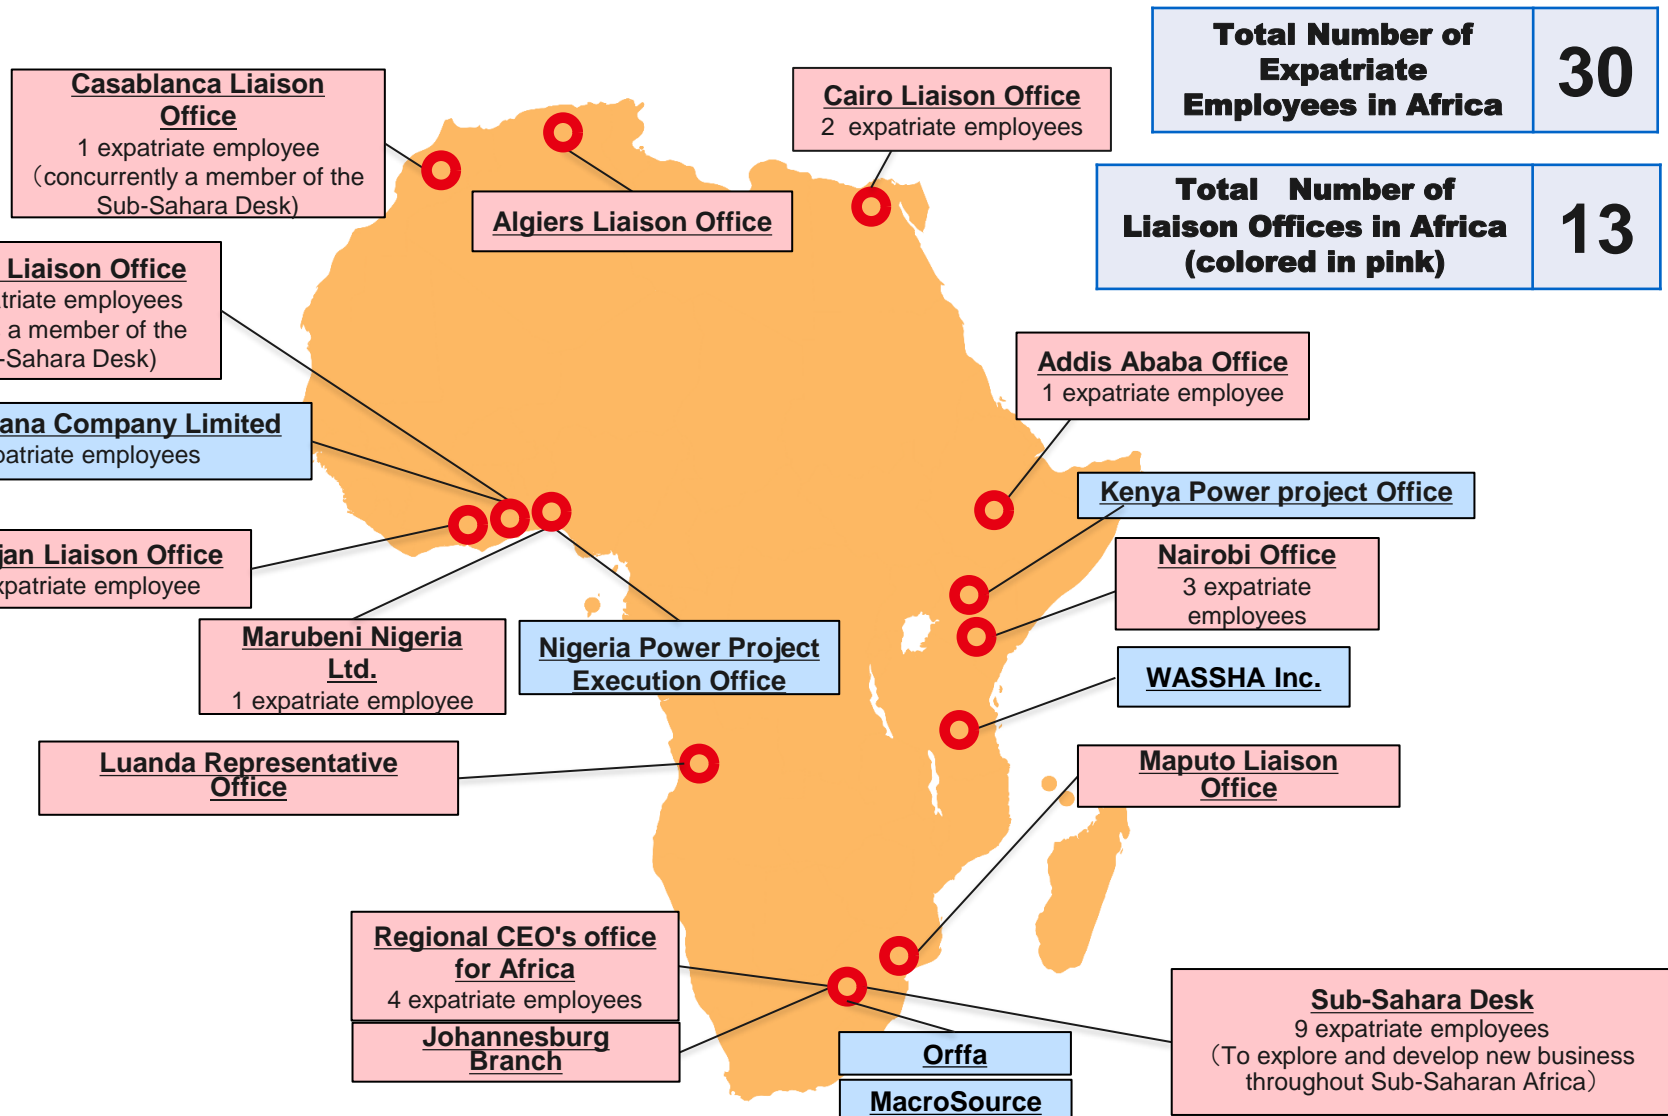

- **Healthcare** • **Environment** • **Digitization**
- **Food and agriculture** • **Logistics**

Achieving “Agenda 2063” (African Union)

Our Bases in Africa

(as of January 2023)

Textile Plant Rehabilitation EPC Projects

- Rehabilitation of a textile plant in Luanda: Completed in August 2013
- Rehabilitation of a textile plant in Benguela: Completed in September in 2014
- Rehabilitation of a textile plant in Dondo: Completed in December in 2015
- These plants are currently operated by foreign companies and produce fabrics for uniforms, shirts, towels, bed sheets, etc.

Olkaria Geothermal Power Plant EPC Project in Kenya

- Olkaria I's additional Unit 6 Geothermal Power Plant (83MW) was officially commissioned in 2022.
- This power plant is financed (Ksh 9 billion) by both JICA and the European Investment Bank (EIB).

Gas-Fired Combined Cycle Power Plant EPC Project in Nigeria

- Marubeni has constructed more than 40% of the installed power capacity in Nigeria.

WASSHA Inc. (JAPAN)

- WASSHA operates an LED lantern rental business in off-grid communities leveraged through a network of “kiosk” retail shops in Tanzania, Uganda, Mozambique and the Democratic Republic of Congo.
- Potential market size is estimated to be 5 million customers without access to electricity.
- This WASSHA product replaces kerosene lamps improving the lives of people across the African continent.

LPG Distribution

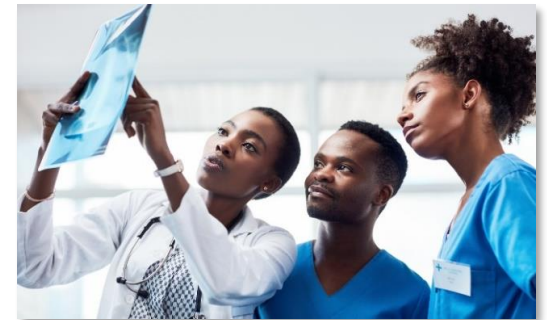

- Marubeni participated in an LPG gas delivery business that contributes to “Clean Cooking”.
- This business can also contribute to the reduction of health hazards and carbon dioxide emissions as households that currently use firewood or kerosene for cooking will be able to use LPG gas.

○ Our Aims in Africa : Solving Social Problems through Our Business

Recent Key Business Sectors for Marubeni in Africa

- **Green Business**
Becoming the “Frontrunner” in Green Business
- **Healthcare Business**
Further expansion of our experience and know-how
in the healthcare business in Africa
