CEAPAD Project List

•CEAPAD partners adopted the Kuala Lumpur Action Plan at CEAPAD IV in July 2025, as a guideline in assisting Palestine in areas, among others, humanitarian aid, reconstruction and state-building through human resource development and capacity-building as technical cooperation.
•In the Action Plan, CEAPAD partners reaffirmed their commitment to spare no efforts to provide assistance to Palestine in 15 fields where they can draw on their own resources, knowledge, and expertise of socio-economic development.
•CEAPAD Project List was prepared with the aim of reaffirming and demonstrating CEAPAD's collective efforts in line with the Action Plan.
•This list includes bilateral, trilateral projects which were/are being/will be implemented in/after October 2023 by CEAPAD partners by 15 fields identified in the Action Plan.

15 fields	Country	Modality of Cooperation (Bilateral/Trilateral)	Project Name	Description	Implementing Period (Month. Year-Month. Year)
a. Health and WASH	Indonesia	Bilateral	SHEMIND Scholarship for Health and Medical Development by Indonesian AID: Universitas Gadjah Mada for Palestine	This program aims to strengthen the capacity and availability of healthcare professionals in conflict-affected areas, particularly Palestine, through international collaboration in medical education and training. Initiated in response to a call for help from PalMed Academy, the program brings together Faculty of Medicine, Public Health, and Nursing Universitas Gadjah Mada (FK-KMK UGM) and the Indonesian International Development Cooperation Fund (LDKPI) to support the development of Palestinian healthcare workers amid the collapse of local health and education systems caused by prolonged conflict.	Oct. 2025-Mar. 2028

a. Health and WASH	Indonesia	Bilateral	Strengthening the Capacity of Palestinian Healthcare Personnel through a Scholarship Assistance Programme for Plastic Surgery Specialist Education	This program is designed to support the strengthening of Palestine's healthcare system, particularly in Gaza, through a scholarship initiative for plastic and reconstructive surgery specialists. Amid the prolonged conflict and destruction of medical infrastructure, Gaza faces a severe shortage of healthcare professionals, especially specialists needed to treat war-related injuries and provide reconstructive care for victims of violence.	May. 2025-Jul. 2030
a. Health and WASH	Japan Malaysia	Trilateral	Crisis Preparedness and Recovery Strengthening Medical Healthcare System and Services	This 10-day in-person training in Malaysia, in collaboration with JICA, aims to enhance the capacity of medical professionals to operate effectively in a crisis environment and to support healthcare recovery efforts in a critical environment through technical upskilling and knowledge transfer.	Jul. 2026
a. Health and WASH	Japan	Bilateral	Project for Strengthening the Prevention and Control of Non-Communicable Diseases	This project, implemented by JICA, aims to improve the knowledge, skills, and management capacity of healthcare workers in Level 3 and 4 PHC centers in the West Bank in the treatment of NCDs (diabetes and hypertension) and the prevention of their complications. Through follow-up support to PHC centers, the project also aims to ensure the continuous provision of treatment and prevention of complications in line with the NCD program, thereby improving NCD care and management at PHC centers and strengthening the overall NCD management system in Palestine.	Jan. 2026-Dec. 2028
a. Health and WASH	Japan	Bilateral	Advisor for Water Service Management of Jenin Municipality	The project, implemented by JICA, aims to enhance water supply services in Jenin Municipality by strengthening operational capacity, including the preparation of an action plan to ensure continuous service improvement.	Nov. 2022-Oct. 2026

a. Health and WASH	Japan	Bilateral	Advisor for Rehabilitation Services and Related Approaches	This project, implemented by JICA, aims to promote initiatives to improve rehabilitation and services for persons with disabilities in Palestine, and to identify effective approaches by analyzing key challenges and needs and compiling information on cooperation trends among development partners.	Jan. 2026-Jan. 2028
a. Health and WASH	Japan	Bilateral	The Project for the Improvement of Medical Equipment	This project, implemented by JICA, aims to strengthen the diagnosis and treatment of non-communicable diseases, including cardiovascular diseases and cancer, in hospitals in Palestine by providing medical equipment for their treatment.	Feb. 2020-Nov. 2026
a. Health and WASH	Japan	Bilateral	The Project for the Improvement of Water Supply System in Jenin	The project, implemented by JICA, aims to strengthen the water supply system by upgrading existing and constructing new water transmission and distribution facilities, together with upgrading water intake facilities.	Sep. 2023-Dec. 2029
a. Health and WASH	Malaysia	Bilateral	Response for Trauma Survivors	The Malaysian Technical Cooperation Program (MTCP) dispatched its medical experts from MERCY Malaysia to Lebanon to strengthen the capacity of Palestinian frontline healthcare providers through specialized training in advanced life support, reproductive health, and mental health and psychosocial support. In 2025, 308 Palestinians benefitted from the program and this initiative will continue in 2026, with the next deployment scheduled for June.	Jul. 2025-Jun. 2026
a. Health and WASH	Thailand	Bilateral	2026 Annual International Training Course (AITC)	One Palestinian official received a scholarship from Thailand International Cooperation Agency (TICA) and attended TICA's AITC titled "Holistic Wellness and Health Promotion in Early Childhood: Nurturing Growth and Empowering Healthy Development in Digital Age", organized by the Faculty of Nursing, Prince of Songkla University in Thailand.	Apr. 2026-May. 2026

a. Health and WASH	Thailand	Bilateral	2026 Annual International Training Course (AITC): “The strengthening of the Health Care System in the border areas”	Two Palestinian officials applied for scholarships from TICA to participate in the course, organised by the School of Health Science, Mae Fah Luang University in Thailand .	Aug. 2026-Sep. 2026 (TBD)
a. Health and WASH	Thailand	Bilateral	2026 Annual International Training Course (AITC): “Health Impact Assessment for Sustainable Development and Community Resilience”	Three Palestinian officials applied for scholarships from TICA to participate in the course, organized by the Faculty of Public Health, Chiang Mai University in Thailand.	Nov. 2026 (TBD)
b. Housing					
c. Social Protection	Japan	Bilateral	Project for Community-led Livelihood Improvement in Refugee Camps	This project, implemented by JICA, aims to support the implementation of community-driven livelihood improvement pilot activities in refugee camps in the West Bank, strengthen the capacity of officials in DoRA and relevant Palestinian Authority ministries, and promote collaboration with diverse stakeholders. Through these efforts, it seeks to advance activities addressing livelihood needs identified in the Camp Improvement Plan (CIP), thereby contributing to improved livelihoods and the economic empowerment of camp residents.	Mar. 2026-Feb. 2029
c. Social Protection	Japan	Bilateral	The Programme for the Improvement of Refugee Camps	Under this program, implemented by JICA, the living environment of the refugee camps in the West Bank will be enhanced by the provision of a grant for implementation of a camp improvement plan developed by participatory framework.	Oct. 2020-Mar. 2031

d. Solid Waste Management / Disposal	Japan	Bilateral	Programme for Emergency Recovery	The program, implemented by JICA, aims to support recovery and reconstruction in the West Bank and Gaza by developing infrastructure, restoring livelihoods, and strengthening public services through the provision of equipment and materials necessary for emergency recovery in the sectors of solid waste management, health, and water and sanitation, thereby contributing to overall recovery and reconstruction.	Feb. 2025-Feb. 2027 Feb. 2026-Feb. 2028 (Phase 2)
d. Solid Waste Management / Disposal	Japan	Bilateral	The Project for the Improvement of Infectious Waste Management	This project, implemented by JICA, aims to establish a system for the management of infectious waste in the West Bank by providing the equipment necessary for the treatment, collection, transportation, and final disposal of such waste, thereby contributing to the improvement of public services through the prevention of the spread of infections originating from waste.	Feb. 2023-Dec. 2027
d. Solid Waste Management / Disposal	Thailand	Bilateral	2026 Annual International Training Course (AITC): “Sustainable Waste Management in a Circular Economy”	TICA circulated scholarship invitations for 2026 AITC to other countries including Palestine, through the Royal Thai Embassy in Amman. This course will be organized by the Faculty of Environment and Resource Studies, Mahidol University in Thailand. This course is expecting an application until its closing date on 31 August 2026.	Oct. 2026-Nov. 2026 (TBD)
e. Debris Management					
f. Unexploded Ordnance Management					

g. Security, Policing and Law Enforcement	Japan Singapore	Trilateral	Community policing	This course in Singapore, in collaboration with JICA, seeks to provide an overview of community policing models in Singapore and Japan, focusing on how both countries foster trust, cooperation, and shared responsibility for public safety to participants from Palestinian Civil Police.	Jul. 2026
g. Security, Policing and Law Enforcement	Korea	Bilateral	Project for capacity building of crisis and disaster response in Palestine	This project aims to strengthen the disaster and crisis response capacity of local governments, including Jenin and Jericho, thereby protecting residents from various hazards and reducing human and material losses. In partnership with Jordanian disaster management institutions, this project includes a triangular capacity-building program designed to train Palestinian firefighters.	May. 2026-Dec. 2030
h. Governance	Indonesia Australia	Trilateral	Law Enforcement Dialogue: Australia–Indonesia support for Palestinian Authority Justice and Security Sector Reforms	The Law Enforcement Dialogue provides a strategic platform for cooperation and institutional learning among Indonesia, Australia, and Palestine in the legal and security sectors. It aims to deepen regional partnerships, highlight the strength of Australia-Indonesia cooperation, and showcase each country's capabilities in promoting justice, good governance, and inclusive security reform. It will provide participants enhanced knowledge about relevant reforms in Indonesia and Australia and foster meaningful dialogue.	Sep. 2026 (TBD)

h. Governance	Japan Viet Nam	Trilateral	Foreign Affairs Knowledge and Skills for Palestinian Officials	The training program in Viet Nam, in collaboration with JICA, strengthened the capacity of Palestinian officials in the field of international relations and diplomacy by equipping them with both theoretical knowledge and practical skills. It seeks to enhance participants' understanding of global and regional dynamics as well as Viet Nam's foreign policy practices, while at the same time improving their professional competencies in key areas such as diplomatic protocol, negotiation, mediation, and parliamentary diplomacy.	Dec. 2025 Oct. 2026-Dec. 2026 (PHASE2)(TBD)
h. Governance	Japan	Bilateral	The Project for the Improvement of Fire Equipment in the West Bank	The project, implemented by JICA, aims to improve the firefighting and rescue performances by/through procurement of fire and rescue equipment, thereby contributing to the risk mitigation and better public governance in the Project areas.	Sep. 2024-Dec. 2029
h. Governance	Korea	Bilateral	Training Program - Capacity Building for AID and PPP Frameworks	This training program aims to strengthen the capacities of employees of the Ministry of Planning by enhancing the skills, knowledge, and collaboration of the International Cooperation Department and the Public-Private Partnership (PPP) Department. Drawing on the experiences of South Korea, the initiative seeks to improve the effectiveness of aid delivery, promote sustainable development outcomes, and strengthen the government's capacity to manage and implement PPP initiatives.	Aug. 2026-Dec. 2028 (TBD)

h. Governance	Malaysia	Bilateral	MTCP: Training in Policy-making and Good Governance	In 2025, the MTCP program hosted 22 Palestinian officials in 2 separate customized courses on policy-making and good governance to support Palestinian state-building efforts. Conducted in collaboration with the National Institute of Public Administration and the National Audit Academy, the programs focused on evidence-based policy formulation, agile public sector management, fiscal transparency and risk-based auditing.	Jul. 2025-Aug.2025
h. Governance	Philippines	Bilateral	Training on Migration Governance	The proposed training program seeks to contribute to the development of Palestine's institutional and human resource capacities through the sharing of Philippine expertise and best practices on migration governance.	Jan. 2027-Dec. 2028 (TBD)
i. Education	Indonesia Australia	Trilateral	Trilateral Education Dialogue	The program focused on exchange of experiences and best practices in the development of primary and secondary education curricula that emphasize diversity, tolerance, and social harmony. In addition, the program includes field visits to schools, madrasahs, and civil society organizations to provide participants with practical insights into Indonesia's educational and social inclusion practices.	Apr. 2026
i. Education	Japan Egypt	Trilateral	E-JUST scholarship for Palestinian human resource development towards reconstruction in Gaza	This initiative, in cooperation with E-JUST (Egypt-Japan University of Science and Technology) in Egypt, has provided educational opportunities for Palestinian students who have lost access to such opportunities due to current situation in Palestine.	Feb. 2025-Aug. 2029
i. Education	Japan Malaysia	Trilateral	Malaysia-Japan International Institute of Technology (MJIIT) Scholarship for Palestinian Human Resource Development	This initiative, in cooperation with the Malaysia-Japan International Institute of Technology (MJIIT), has been providing educational opportunities for Palestinian students who have lost access to such opportunities due to the current situation in Palestine.	Jun. 2026-Apr. 2032

i. Education	Japan	Bilateral	Project for Developing Digital Content for Science, Technology, and Mathematics Education	This project, implemented by JICA, aims to develop digital content in science, technology, and mathematics for students in grades 5 to 9 across Palestine (the West Bank and Gaza Strip) and to promote its use both at home and in classrooms. Through these efforts, it seeks to ensure learning opportunities and continuity of learning, thereby contributing to improved understanding of these subjects.	Jul. 2025-Jun. 2028
i. Education	Japan	Bilateral	The Project for the Construction of Schools for the Improvement of Quality and Environment of Education	The project, implemented by JICA, aims to improve the educational environment of the basic and middle schools in Palestine through the construction of basic and middle schools including kindergartens, and the procurement and installation of educational equipment. The project is expected to increase the number of students who study in a better environment and increase their time for studying.	Oct. 2020-Dec.2026
i. Education	Japan	Bilateral	The Project for the Improvement of E-learning Equipment	This project, implemented by JICA, aims to improve the learning environment in primary education in Palestine by providing filming equipment to educational television studios and audiovisual and ICT equipment to schools in the West Bank. In doing so, it aims to contribute to the development of basic living infrastructure in the education sector and to the stabilization and improvement of people’s livelihoods based on the concept of human security.	Feb. 2024-Jan. 2027
i. Education	Korea	Bilateral	Vocational Training and Educational Fragility Improvement Project for youth in Yatta, Palestine	This project aims to improve the rate of enrollment in higher technology education and expand employment opportunities for the youth by providing technical education matching the demands of the labor market.	Dec. 2022-Dec. 2027

j. Construction	Philippines Japan	Trilateral	Construction Training under the Technical Education and Skills Development Authority (TESDA)	The proposed capacity-building program in the field of vocational training in the Philippines, in collaboration with JICA, aims to provide opportunities for Palestinians to acquire relevant knowledge and skills on resilient reconstruction. Scope of the training program includes civil infrastructure trades, such as masonry, carpentry, and plumbing technologies.	Jan. 2027-Dec. 2028 (TBD)
k. Agricultural and Industrial Development	Japan Malaysia	Trilateral	MTCP Programme: Training in Integrated Crop Management (ICM) for Tropical Fruits for Palestinians	In collaboration with JICA, the MTCP hosted 14 Palestinian officials in Malaysia for a training program focused on rehabilitating local agricultural systems. The initiative shared Malaysia's experiences and best practices in integrated crop management (ICM) for tropical fruits including pest, disease and soil management, aimed at strengthening Palestinian food security.	Nov. 2024-Dec. 2024
k. Agricultural and Industrial Development	Japan Indonesia	Trilateral	Integrated Crop Management of Tropical Fruit Crops (Avocado) for Palestine	The course was held in Indonesia, in collaboration with JICA, to obtain sustainable agriculture which puts balance on economic, environmental, and social factors, one of the optimal solutions is implementing Integrated Crop Management (ICM).	Aug. 2025
k. Agricultural and Industrial Development	Japan	Bilateral	Project for Improvement of Veterinary and Animal Health Services in the West Bank	This project, implemented by JICA, aims to improve the management system for livestock disease control at the central level in the West Bank, strengthen the capacity for disease surveillance and diagnosis at veterinary laboratories, and establish networks between central and local levels in selected governorates.	Feb. 2023-Feb. 2027

k. Agricultural and Industrial Development	Japan	Bilateral	The Project for the Improved Extension for Value-Added agriculture	This project, implemented by JICA, aims to disseminate a simplified Extension and Value-chain Addition Project(EVAP) extension package while maintaining its effectiveness and to develop extension systems tailored to the diverse needs of farmers across Palestine. Through these efforts, it seeks to promote the nationwide adoption of extension approaches, thereby contributing to improved livelihoods for farmers benefiting from extension services.	Oct. 2022-Oct. 2027
k. Agricultural and Industrial Development	Korea	Bilateral	Integrated Regional Development Project for Sebastia, Palestine	This project aims to revitalize the local economy through cultural assets and strengthen the resilience of vulnerable groups in Sebastia by increasing the number of tourists through improved use of local cultural heritage, expanding income-generation opportunities for economically vulnerable groups, and enhancing the quality of life for vulnerable groups, including women and children in the community.	Aug. 2025-Dec. 2029

k. Agricultural and Industrial Development	Malaysia	Bilateral	Memorandum of Understanding (MoU) on Trade and Economic Cooperation	Malaysia and the Palestine have agreed to forge closer bilateral and economic ties through the signing of a MoU on Trade and Economic Cooperation. The MoU lays the foundation for closer collaboration in trade, investment and economic development, creating new opportunities for businesses and people in both countries. This momentous occasion reaffirms Malaysia's unwavering commitment to supporting Palestine's economic resilience and recovery by, among others, supporting the development of industrial zones, strengthening Small and Medium Enterprises (SMEs), and expanding cooperation in the halal industry, tourism, energy, and the digital economy. The MoU also aims to build capacity through training, the exchange of expertise, and the promotion of private sector partnerships. The Government of Malaysia has also agreed in principle to exempt some Palestinian agricultural and food products imported into Malaysia from custom duties.	Sep. 2025-ongoing
k. Agricultural and Industrial Development	Philippines Japan	Trilateral	Aquaculture Development Training under the Southeast Asian Fisheries Development Center (SEAFDEC/AQD)	The proposed training program in the Philippines, in collaboration with JICA, aims to assist in developing Palestine's aquaculture sector through capacity-building, science-based research, and the promotion of appropriate aquaculture technologies in the farming of fishes, crustaceans, mollusks, and seaweeds for food, livelihood, equity, and sustainable development.	Jan. 2027-Dec. 2028 (TBD)

k. Agricultural and Industrial Development	Thailand	Bilateral	2026 Annual International Training Course (AITC): “Advancing Sustainable Development through the Transformation from Sufficiency Economy to a Green Circular Economy”	One Palestinian official received a scholarship from TICA and attended the course, organized by Maejo University International College in Thailand.	May. 2026-Jun. 2026
l. Private Sector Development	Japan Cambodia	Trilateral	Industrial Park Development: Insights from Cambodia	Palestinian stakeholders to the Jericho Agri-Industrial Park (JAIP) visited Cambodia. To revitalize Palestine's manufacturing sector through JAIP, the visit introduced Cambodia’s economic growth and insights using Special Economic Zones.	Feb. 2025
l. Private Sector Development	Japan Thailand	Trilateral	TICA-JICA Triangular Cooperation for Palestine Phase II for the Development of Tourism Sector	The course in Thailand, in collaboration with JICA, is to strengthen management of hospitality service (hotel) in Palestine by improving hotel manual elements and hotel standard operation procedure as well as human resource development for hospitality management.	Aug. 2026(TBD)
l. Private Sector Development	Japan	Bilateral	Investment and Industrial Promotion	This project aims to improve the investment environment for JAIP in Palestine, promote business attraction to the park, and ensure its sustainable operation and management.	Apr. 2023-May. 2027
l. Private Sector Development	Korea	Bilateral	Bethlehem Startup Hub Establishment Project	This project aims to foster the local entrepreneurial ecosystem and revitalize the regional economy in Bethlehem, Palestine, through the establishment of a startup hub, development of startup networks, and promotion of Korea–Palestine startup exchanges.	May. 2026-Dec. 2032

m. Technology and AI	Korea	Bilateral	Project for Capacity Building for AI Research and Development in Palestine	To strengthen Palestine’s AI research ecosystem and nurture a digitally driven economy by establishing the AI research Institute, providing AI resources to various researchers and educators in Palestine, and developing a pipeline of highly-skilled AI researchers and innovators.	Aug. 2025-Dec. 2031
n. B to B cooperation					
o. Youth Development	Malaysia	Bilateral	MTCP Scholarship	The MTCP(*) Scholarship program has continued to support Palestinian youth development through its postgraduate scholarships since 2001. Currently, 3 Palestinian postgraduate students are enrolled in Malaysian public universities under the MTCP Scholarship. * The MTCP Scholarship program has continued to support Palestinian youth development through its postgraduate scholarships since 2001.The MTCP Scholarship will continue to support Palestinian students’ education for the 2026/2027 academic cycle.	Sep. 2025-Sep. 2027
