ASEAN 元日本留学生及び在日 ASEAN 留学生に対する
アンケート調査自由回答集

2004 年 3 月 31 日

目次

- (1) ASEAN 元日本留学生アンケート自由回答：日本留学のメリット及びデメリット
- (2) ASEAN 元日本留学生アンケート自由回答：日本留学を勧める理由
- (3) ASEAN 元日本留学生アンケート自由回答：日本留学を勧めない理由
- (4) ASEAN 元日本留学生アンケート自由回答：日本政府に対する要望/期待すること
- (5) 在日 ASEAN 留学生アンケート自由回答：日本留学生政策や私費留学生の増加策

(1) ASEAN 元日本留学生アンケート自由回答：日本留学のメリット及びデメリット

出身国	公費・私費	日本留学のメリット	日本留学のデメリット
タイ	公費	I've learned not only about academic matter from Japan but I've learnt to be good at heart such as to be honest, to understand and care about other people's feeling, to work hard, to always think for the whole not only for myself etc. I was trained to be professional in academic and also to be better person in the society.	I don't have "Demerit"
タイ	私費	日本と貿易しております	世界中では使用できず
タイ	公費	Made more friends.	
タイ	公費	Technology good	
タイ	私費	日本企業に就職や商売ができます	特にない
タイ	私費	日本語が出来ます 日本人と友達になれます	
タイ	私費	日本企業ではたらくことができる	
タイ	私費	日本企業と日本語で communication ができる	
タイ	公費	日本語の学習が出来ること	英語能力が下がること
タイ	私費	日本で教育を受けたので日本企業で最初から定年まで勤めさせて頂きました	英語が弱い。
タイ	私費	日本技術、日本文化、日本語	
タイ	私費	生活が向上した	
タイ	私費	仕事が見つけ易い、日本政府のフォローアップが素晴らしい	部長以上になれない。現地人は日本企業の CEO になれない。
タイ	私費	日本語が活用できる。	
マレーシア	公費	日本文化を勉強できました。	
マレーシア	公費	日本会社に就職しやすい	日本語がむずかしい
マレーシア	私費	日本語を習得すること	日本の歴史観と違うこと特に第二次世界大戦について (デメリットではないが)
マレーシア	公費	技術面の知識が高い	日本企業と日本企業との関係/business 以外の企業の就職がむずかしい
マレーシア	私費	日本語ができるから、日本人の知恵を直接得ることができる。	なし
マレーシア	私費	日本の習慣と文化、それと、日本語ができることはメリットだと思います。	日本人は東南アジアの人間にあまり好い印象を持ってないです。
マレーシア	公費	日本語	なし
マレーシア	公費	日本語や日本の文化などが勉強できて、非常に良い経験でした。	英語をあまり使わなかった為、ついつい忘れてしまいました。
マレーシア	公費	日本語ができるからいろんな情報が得られる。	物価が高い
マレーシア	公費	Communication & Networking だけ	
マレーシア	公費	Communication and Bunka o manabu	
マレーシア	公費	Additional language	
マレーシア	私費	日本の文化や日本語を勉強できるから、日本企業に就職できる (日本語で)	留学生相談カウンセリング体制が弱い。他の外国語がはなせる相談人が必要
マレーシア	公費	working with Japanese company	Not being appreciated by Japanese superiors
インドネシア	公費	いろいろなことを勉強することができる。(社会、文化など)	私費留学生の場合授業料が高いので大変
インドネシア	公費	日本語がうまくなります。	

出身国	公費・私費	日本留学のメリット	日本留学のデメリット
インドネシア	公費	技術、文化、日本語、日本人のかんがえかた、交流など	なし
インドネシア	公費	自分の仕事に役に立てられる。	家族連れの際に生活が大変になります。
インドネシア	公費	自分のしごとに研究や日本語が役立っている	授業が日本語で物価も高いです。
インドネシア	私費	最新の技術を手に入れることができる。	生活費がかなりかかります。
インドネシア	公費	自分のキャリア、母国の発展、国際交流等	言葉をマスターするのに時間がかかる
インドネシア	公費	勉強するための書物がたくさんある。	値段があまりたかくない日本語の書物は帰国後役に立たない。
インドネシア	公費	Yes, very good, wonderful	
インドネシア	私費	日本語が話せること、日本人と他の国の友達ができることです。	
インドネシア	公費	技術と文化面の知識を増やすことができた。	
インドネシア	公費	特に日本語で話すことができ、また日本国、文化なども理解できること	デメリットはほとんどなかった。唯一、自分達が特定の分野の勉強をするために日本に来たことで、自分の専門分野以外の日本の姿について知識を深めることができなかった。
フィリピン	公費	NIHONJIN NO KOKORO YOKU WAKATEIMAS	NASHI
フィリピン	私費	Had a lot of experiences that I could not have learned in my country	N/A
フィリピン	公費	日本の文化と心をわかって来ました。日本の大学にネットワークが出来ました。	なし
フィリピン	公費	Network & friendship were established	none
フィリピン	公費	was able to establish linkage, was able to improve skills on research	none
フィリピン	公費	日本人のいいところを学びました。日本の文化がよくわかりました。	私のえいごがだんだんへたになりました。
フィリピン	公費	くにのしごとはよくなりました。Network was established.	なし
フィリピン	公費		アメリカ留学帰国者より仕事は残り多くない
フィリピン	公費	修士課程をいただいた。日本語ができるようになった。	
フィリピン	公費	my wife is Japanese	
フィリピン	公費	learned about Japanese language and culture	Japanese education is not appreciated in my country by Japanese related institutions, compared to those who study in America by American Institutions.
フィリピン	公費	奨学金が高くて多い	やっぱり物価が高い
シンガポール	公費	奨学金などはわりと簡単に得られること	学術的に言えばまだ国際的レベルに達していないこと
シンガポール	私費	日本語の学習ができる	就職支援がなかった
シンガポール	私費	日本の文化、仕事に対する頑張る精神、先輩と後輩の関係（特にゼミ）最も素晴らしい体験でした。	修了期間が長い。
シンガポール	私費	日本語を学ぶことによって、新しい文化の理解ができた	英語能力の掌握が他の国へ留学した人々より劣る傾向
シンガポール	公費	日本の専門知識を得る。日本文化、シンガポールと日本の交流に貢献できる。日本語の勉強。	就職にあまり有利とならない。学位（学部や修士、博士課程）を得る時期が他国（アメリカやイギリス制度）より長い。
シンガポール	公費	日本語、日本事情がわかる	生活費が高い

出身国	公費・私費	日本留学のメリット	日本留学のデメリット
ベトナム	公費	日本語がよくできるようになって、日本文化、日本人の生活をよく理解できました。	勉強した専門があまり合わなかったので帰国してからあまり役立たなかった。
ベトナム	私費	日本語、日本文力	なし
ベトナム	公費	日本語ができること。日本の文化	ない
ミャンマー	公費	日本たいざいきかん1年でたくさんのごとをまなぶことが出来ました。	1年のたいざいきかんでしたのでことばの問題が多少ありました。
ミャンマー	私費	特に医学のけんきゅうのレベルが非常に高いこと。	物価が高いこと。
ミャンマー	公費	文部省、現文部科学省奨学金をいただきましたから一生懸命に勉強することが出来ました。	私の場合には帰国してから就職するのが非常に困難であり、又日本に行って仕事をするのが不可能です。
ミャンマー	公費	東京大学大学院医学部は色々な研究、外来入院患者手術等教えてもらったり一緒にやれて良かった。	
ミャンマー	公費	専門的技術及び知識が獲得できた。	
ミャンマー	公費	技術知識が向上したことと、視野を拡げられたこと	
ミャンマー	公費	日本語の教師として必要な知識や教授法などを身につけることができました。	
ミャンマー	公費	異文化体験や自然な日本語の勉強ができること。	
ミャンマー	公費	日本に留学した後一段と日本語が上達しました。	
ミャンマー	公費	実際の日本での生活、教育機関、社会的なことがわかりました。	
ミャンマー	公費	自分の専門的技術や知識を得たこと	日本人学生とあまり交流ができなかったこと
ラオス	私費	We can learn about "self-help" effort of Japanese people, which I think is the best way of development	English skill
ラオス	公費	日本語が話せる人が少ないからアルバイトをしやすい。	英語が出来なくて仕事をするのに困難
ラオス	公費	Japanese people truly assistant to the Foreign Students	
ラオス	公費	日本と関係しやすい/仕事がさかしやすい	
カンボジア	公費	日本語はとても役立つ、日本との交流進む	
カンボジア	公費	技術知識を得た	英語力が低下した
カンボジア	公費	日本から留学しましたから、現地の人から皆ちゅうもくされました。	なし
カンボジア	公費	日本技術を専門に持ち、日本語で連絡ことを出来る。	就職(しゅうしょく)することがむずかしい。
カンボジア	公費	日本語が出きたため、研究できる資料が多い	カンボジアの情報が得られない(日本たいざいの間)
カンボジア	公費	高度な専門知識の取得	良い仕事が見つかり難い
カンボジア	公費	としょかんのせいびがよかった	日本語がむずかしい
カンボジア	公費	日本語ができること	日本人のともだちが作りにくい。日本語ができてても日本会社があまりなくて、そして日本の企業などがあまり日本留学や教育を評価しなかつたため、仕事をさがすのがたいへん。
ブルネイ	公費	建築をもっと勉強したい(あたらしい建築)	建築をならうにはじかんがすくない
ブルネイ	公費	More exposure to other intl students; A differnt point of view, mostly available	A bit Japan-centric in iits education; Overseas Degree not widely recognised
ブルネイ	公費	To know the new technology in the usage of education.	less teaching and learning of the Japanese language for teacher's training.

(2) ASEAN 元日本留学生アンケート自由回答：日本留学を勧める理由

出身国	公費・私費	日本留学を勧める理由
タイ	私費	日本語が分かれば仕事がさがしやすい
タイ	私費	習慣及び文化はあまり変わらない
タイ	公費	Japan is very safe and I believe my kid will be very well advised with kindness feel.
タイ	私費	日本の先端技術や日本語を勉強します
タイ	私費	日本の文化、伝統や人々を知ることは意味があるから
タイ	私費	日本語が分かれば仕事がさがしやすい
タイ	私費	自分が行って日本の文化や日本語を学ぶことが出来たから
タイ	私費	日本の文化や日本語を勉強することが出来たから
タイ	公費	専攻分野以外に様々な重要な経験が出来るため
タイ	私費	自分が日本に留学した事は正解と思ったのです。
タイ	私費	日本に留学しました。卒業後、現在日本の会社につとめる。
マレーシア	公費	easy to get the job, (for Japanese company)
マレーシア	公費	就職のため
マレーシア	私費	私と同じいい経験をついでほしいこと。
マレーシア	私費	やっぱり、日本人の勤勉力と物ごとにたいする認識度が魅力だと思います。
マレーシア	公費	High tech
マレーシア	公費	アジアの国々のなかで一番いい国で、外国語や技術などが勉強できるから
マレーシア	公費	日本語ができるから
マレーシア	公費	同じけいけんのメリット
マレーシア	公費	To learn more about Japanese culture and work ethics.
マレーシア	私費	技術や経済が発達したから。就職に有利と思います。
インドネシア	公費	両国のためになる
インドネシア	公費	実力、実践力、応用力が獲得できる。
インドネシア	公費	日本の大学は素晴らしいです。
インドネシア	私費	特になし。
インドネシア	公費	子供達も日本で勉強させたい。
インドネシア	公費	いろいろな分野を勉強することができるから
インドネシア	公費	日本とかんけいあるかいしゃにつとめているからです。
インドネシア	公費	日本へ留学することをかんがえるため
インドネシア	公費	日本は先進国で将来のためにとてもいいと思います。
フィリピン	公費	To learn Japanese love of country, discipline, efficiency, technology
フィリピン	私費	はい、いい けいけん
フィリピン	公費	日本の高い技術を学ぶために
フィリピン	公費	To develop good working attitude. Discipline & because of high level of technology
フィリピン	公費	improve discipline and expose them to another culture
フィリピン	公費	いいべんきょうができるから
フィリピン	私費	Kekko Yokatta
フィリピン	公費	Very hospitable and accommodating country

出身国	公費・私費	日本留学を勧める理由
フィリピン	公費	日本で勉強しながら友達がいっぱいつくことや珍しい文化を楽しく学ぶことや日本語を習うことなどできるからです。もちろんそれだけではなく最低このような考えがうまくできれば日比文化交流またはフィリピンと日本の関係にうまく貢献されるようになるからです。
フィリピン	公費	gakko yokatta
フィリピン	公費	my experience was very good
フィリピン	公費	Japan is a very beautiful place.
フィリピン	公費	Excellent educational experience
フィリピン	公費	wonderful experience
シンガポール	公費	状況によります。日本でもしっかり知識の得られる分野であれば勧めます。
シンガポール	公費	もう一つの言語をまなぶことはいいことです。(いつか役立つ)
シンガポール	公費	まア・・いいんじゃない。
シンガポール	公費	海外生活の体験のため、若いときいろんな経験が必要である
ベトナム	公費	日本の教育の質が高い、安全な国、勉強できる専門が様々である。
ベトナム	私費	日本の技術、経済が発達しているから、さらに安全な国です。
ベトナム	公費	日本の教育制度、科学技術などはとてもいいと思います。
ベトナム	公費	教育の質が高く、日本語の勉強も出来る
ミャンマー	公費	40年前は英国の植民地であった東南アジアでは日本の教育はあまり評価されなかった。現在は変わってきていると思う。日本の教育を受けたい人が増加している。
ミャンマー	公費	高等教育機関に進学することができるから。
ミャンマー	公費	自国の教育よりは良いと考えるから、加えて、生活文化も近似しているから。
ミャンマー	公費	日本の専門的技術が高いから。
ミャンマー	公費	日本の事情、文化にふれて、日本語が上手になるように
ミャンマー	公費	日本語がもっと上手になるため
ミャンマー	公費	ミャンマーに大体似ている習慣、文化などを勉強させて、世界一になっている日本の技術などを少しでも身につけさせたいから。
ラオス	私費	To learn how to be their own effort "self- help effort"
ラオス	公費	日本語だけ出来るといい就職できないのですが、責任があるような人になってもらいたいから勧めます。
ラオス	公費	いろいろ勉強できることです。
ラオス	公費	欧米から勉強することだけでなく日本のことも学ぶ必要がある。
ラオス	公費	素晴らしい国だと思うからです。
カンボジア	公費	いい教育
カンボジア	公費	知識をえるため
カンボジア	公費	日本は安全な国だし、技術や経済が発達しているからです。
カンボジア	公費	日本の技術を勉強したい。
カンボジア	公費	教育制度がいい
ブルネイ	私費	日本は美しい国です、文化も特別優秀。
ブルネイ	公費	I want them to experience what I had experienced.
ブルネイ	公費	to learn more about foreign culture and tradition
ブルネイ	公費	Exposure to something other than local country view
ブルネイ	公費	to learn more about culture and tradition

(3) ASEAN 元日本留学生アンケート自由回答：日本留学を勧めない理由

出身国	公費・私費	日本留学を勧めない理由
フィリピン	公費	きょうみはありません、日本に
シンガポール	公費	期間が長すぎる、技術、経済も落下した。
ミャンマー	公費	日本に留学することはとても良いことですが帰国後就職することがむずかしいです。
ミャンマー	公費	自費で日本へ留学するのは大変だから。
ミャンマー	公費	ピザがむずかしいので。
ラオス	公費	日本語がむずかしいから。
カンボジア	公費	日本語がむずかしい、limited future employability

(4) ASEAN 元日本留学生アンケート自由回答：日本政府に対する要望/期待すること

出身国	公費・私費	日本政府に対する要望/期待すること
タイ	公費	There are many supporting programs from Japanese government for foreign students who want to get education programs in Japan already. But I think it would be very helpful if the Japanese government can introduce all the supporting programs to students in rural areas of Thailand too. There are students who may not be very good in academic performance due to family's background e.g. low income, not study in good school in BKK, etc. However, these students should not be left uncared. They should have a chance to receive a precious gift in terms of education from Japanese government too.
タイ	公費	I want you to help a computer's technology such as a software, because it is expensive to buy it.
タイ	私費	国費留学生と私費留学生の卒業後、日本の政府に面倒を受け方が違うと感じます。私費留学生はなんにも面倒みてくれなかった。この点を再検討して頂きませんか。
タイ	私費	日本の留学生は日本政府や日本企業に非常にやくにたちますから、もっと力をいれてと期待します。(質問8、日本の留学制度について、と留学生の増加と私費留学生の援助など)
タイ	私費	日本に留学する奨学金をたくさん与えること
タイ	私費	1. 授業料が高いから考えてほしい 2. 日本の政府が一部出してくれたら助かります 3. 物価が高いので考えてほしい 4. 特別留学生の場合の宿舎があるといいと思う
タイ	私費	漢字の使用国と使わない国の留学生は御承知の通り差がございますので、入学試験や奨学金の申し込みなどのハンディキャップを平等的にご検討させて頂きたくお願い申し上げます。又ASEAN諸国の集いはもっと良いホテルを手配して頂ければありがたいです。
タイ	私費	もっと奨学生の学生の数を増やしてほしい。
タイ	私費	私費留学生と国費留学生の帰国後の扱いを同じくしてほしい。
タイ	私費	人類学の研究生からの提案 留学年度2000年 1) Japanese government should provide the flexible regulation which allow foreign students can change major or faculty or University after the first year of study Japanese language. Because the names of faculties in Japan universities are different from other countries. Students may misunderstand when they apply from their countries. The mismatching cause them suffer and despair when they come to Japan and realize about the educational system. 2) For students who study Social sciences, the rule that students have to stay in Japan at least 1 day of the month may be the serious obstacle for the progress of studying. Sometimes we have to go and stay in fieldwork for a long period such as 3-6 months. I think the Japanese government should consider the different circumstances between students of Sciences and Social Sciences.
タイ	私費	日本留学の奨学金を多く下さい。
マレーシア	公費	日本の教育制度もっとopenにすればいい。世界性になれる。
マレーシア	公費	1. 外国で日本留学フェアや日本留学の説明会を多く行わせること。 2. 他の国、特にアジアの国々に日本の"魅力"や日本の教育制度などを教えること。 3. 日本文部省の奨学金の予算をアップにして、留学生の数を増加させること。
マレーシア	公費	1. A good communication with Japan is necessary with more younger generation(student) participating Japanese program. 2. Continue cross-cultural & education plan shall establish better & good future human relationship.
マレーシア	公費	reunion program in Malaysia and other countries.
マレーシア	公費	1. To give grants to Alumni to promote Japan to Secondary Schools in Malaysia. 2. More promotion about Japan in Malaysia.
マレーシア	公費	No Comment
マレーシア	私費	日本の企業にもっと留学生を活用してもらいたいです。あるいは、もっと日本の経営管理を教えていただければ幸いです。
インドネシア	公費	博士コースにいたいから、もっと多くのチャンスをもらいたいです。
インドネシア	公費	1) 元大学の研究をつづけるために、日本政府のしえんがみつようであること。 2) 国民と国民との交流をすすめること
インドネシア	公費	留学するチャンス(奨学金)をもっと増やした方が良くと思います。
インドネシア	公費	帰国留学生は日本と自分の国のかけはしとなってほしいです。

出身国	公費・私費	日本政府に対する要望/期待すること
インドネシア	公費	留学生派遣は戦略的に日本のためにもなるというビジョンに立って相手国に対する慈善事業としてのみではないことを認識していただきたい。これによって、留学生をそのまま日本の高等教育のベルトコンベヤーに乗せて卒業させる事はムダです。 改善方法： <ul style="list-style-type: none"> • 選抜を卒業成績より”ヤル気”に重点。ユメをもって実現する気力が大事。 • 入学前に日本の歴史、文化、将来について習得。 • one-on-one consultation によって語学力のハンディを乗り越える術を与える。 • 一、二年生の時に一年センパイからその前に聞いた講義の内容を確認する。センパイのバイトにもなる。 • 仲間意識を植え込む。研究会（サークル）スポーツ等の学生活動に導くように。将来のパートナーになるため。 • 工場見学、農村旅行、モノヅクリアルバイトの機会を。 • 在日インドネシア留学生会、PERSADA TOKYO、インドネシア大使館と協力して小さな大使としてインドネシアの文化を紹介 特別計画： <ul style="list-style-type: none"> • 高校からの留学によって完ぺきに日本語、社会学をマスターし、インドネシア外務省役人、翻訳、通訳者を養成する。
インドネシア	公費	高等学校卒業日本留学又、彼等の進学増加。インドネシアの大学学部卒業生、日本留学の進学限界。
インドネシア	公費	Jakarta 郡に今、ウンサダ大学（在日留学生同窓会—Persada の創立した大学）が、1986年に設立された。いろいろな活動の中で日本の文化の martial art をやっています。（Karate, Judo, Kempoo, Jujitsu, Aikido, Kendoo nado） 私たちの要望や日本政府に期待するのは： 道場を立てること。 その道場が日本の文化の空手道、柔道などの中心（Center of information）になるとおもいます。 全インドネシアにある martial art とくに日本からの文化など、そこでではいること。（We will make unsada / Dharma Persada Daigaku/University, as the place for the center informations of Japanese martial Arts like Karate, Judo, Kempo, Jujitsu, Aikidoo, Kendoo, etc) in Indonesia. Thank you very much.
インドネシア	公費	<ul style="list-style-type: none"> • 日本大使館と元日本留学生との協力関係をさらに向上させる必要がある。 • 日本で学士号、修士号を取得しようとする人に対して、より便宜を図って欲しい。また、非政府関係の人材にも多くの機会を与えて欲しい。
インドネシア	公費	<p>日本政府が元日本留学生との関係を維持していくことを希望する。特に日本政府には元日本留学生の発展を一貫してフォローすることを望む。プルサダ（インドネシア元日本留学生協会）との関係はインドネシアと日本を結ぶ黄金のかけ橋である。経済的・政治的な重要性以外に、社会・文化的な相互理解が必要とされている。</p> <p>全ての分野において、特に日本とASEANの関係においてはアジア人としての協調の精神を再度高揚させるべきである。私達元留学生は、日本政府が日本とインドネシア友好の接着剤としての「日本で教育を受けた人材」の存在を忘れないことを確信している。</p> <p>具体的提案</p> <ol style="list-style-type: none"> 1. 日本丸を使ったASEANの青年交流事業を今後とも評価と改善をしながら続けて欲しい。 2. 「留学生の集い」事業に参加する機会を1950 - 60年世代、60 - 70年世代、71 - 80年世代に与えて欲しい。 3. インドネシアで、日本由来のスポーツの種類を増やすため、空手・柔道・拳法以外の日本の武道（合気道、剣道）の練習場を設立して欲しい。日本武道の練習場は、クニガン通りの施設（Rasuna Sahid通の Sumantri Brodjonegoro 競技場）ように大学生などが利用できるようにしたり、インドネシア大学の日本研究センターのように大学内の施設として建設すればよいと思う。
インドネシア	公費	いままでのよい関係をいじすること。
インドネシア	公費	<ol style="list-style-type: none"> 1. Kindly increase the supports to place the roles& functions of the university established by the Alumni of Japan be more proportional as the agent of friendship and brotherhood between Japan & Indonesia in the long range. 2. Kindly take initiative in staging "Bilateral Meeting on Education Partnership" among the leaders of universities of Japan & Indonesia. (for the first time, limited to 10 to 15 leaders from respective country) 3. Increase the establishment of "Japan Cultural Centers" in Indonesia, including "BUDO-KAN" to introduce & develop activities of specific sports of Japan and cultures. 4 Increase the programs of students exchange, lecturers exchange, and joint research in various kinds of fields. 5. Kindly increase in sending professors in various ? (and native speakers for Japanese language) to the universities in Indonesia, especially the one established by Japan Alumni.

出身国	公費・私費	日本政府に対する要望/期待すること
インドネシア	公費	1. 大学教員や大学生の交流を通じて日本とインドネシアの高等教育機関間の協力関係を強化する。2. 日本・インドネシア文化祭を開催し、日本とインドネシアの文化面での協力関係を強化する。3. 日本への留学奨学金を与える学生数、学習する分野面(文系・理系)ともに増加させる。
インドネシア	私費	日本到着からもっとせっせよく的に留学生のためのくわしい生活や学問などについて情報やカウンセリングなどをあたえてくれれば、私たちもべんきょうしやすいと思っています。
インドネシア	私費	ジャカルタにある日本領事館と元留学生との交流が今までよりいっそう深まる事が出来る様になれば幸いと思っています。
フィリピン	公費	Philippines and Japan will continue to collaborate in the field of fisheries and agriculture. Specifically I and my former Professors have excellent working relationships that led to establishment of biotechnology laboratory in Southeast Asian fisheries development center, agriculture department, Philippines.
フィリピン	公費	フィリピンの留学生に関しての日本の支援(support)をつづけるため。
フィリピン	公費	Strengthen support in our desire to develop Japan culture in our country
フィリピン	公費	Promote/ strengthen further collaborative work in common areas of research.
フィリピン	公費	(フィリピン)のりゅうがくせいの Association を支援(support)します。
フィリピン	公費	For Japan to continue support to advertize of scholars who returned to their country.
フィリピン	公費	scholarship をいただいて、ありがたい気持ちがいっぱいです。
フィリピン	公費	むかしより、外国人と日本人がいっしょに入ることができる学生りょう/アパートなどをけんせつするべき
フィリピン	私費	1) Give more opportunity to young students. 2) To give students part-time work so they work for money (not everything is free). 3) Advertise more
シンガポール	公費	自分の留学経験から言うと、変化を見たいと思うのは以下のいくつかのところです。 1) 留学ビザの更新手続き-私が留学をしていたときに限って言えば、ビザの更新にはかなり苦労しました。手順が複雑な上に、入国管理局でいつも長時間待たなければなりませんでした。留学生という名目を使って日本で不法就労する人もいたとは思いますが、本当に留学という目的で来日している人にとっては不平も感じることはありました。 2) 日本人全体がもっと国際化になっていくこと-今でもそうだと思いますが、多くの日本人はまだそれほど外国(特に東南アジアの人)の人を受け入れていないと感じます。これは留学時代だけでなく、帰国して8年目を迎えた今、しかもまだ日本人と仕事をしている今でもつくづく感じることです。もっと国際理解を深めて、交流の機会を増やすことで、日本人全体がより外国人のことをわかった上で受け入れてほしいと思います。また、仕事で最近インドネシアのバリ島で行われた ASEAN 首脳会議に出席しましたが、アセアン各国の人と話しても、日本にもっと ASEAN との交流を深めていただきたい。また、ネゴシエーションの時、もっと積極的にになっていただきたいという声が多かったです。そういう声も取り入れて考えていただければいいと思います。
シンガポール	公費	シンガポールと日本は最近 FTA 結びが出来たけど、互いに大手企業や政府機関の交流がだいぶ増えたが、民間企業特に中小企業の交流を増やしていただきたい。 シンガポールにおける日系企業に対する希望: もっと元留学生の採用や活用をしてほしい。 技術や経済的な交流は重要ですけど、文化的な交流も重視してほしい。
シンガポール	公費	日本と ASEAN 地域の帰国留学生との交流をもっと拡大したい。ASEAN の文化、生活などを日本のわか者を紹介する。例えば、HOMESTAY など、日本以外の生活、考え方などを経験させる。帰国留学生は日本と母国とのかけ橋であり、この関係をもっと重視し、互いの文化交流経済などを十分に発展させていってほしいと思う。
シンガポール	公費	もっと新しい大学制度(外国の)を学んで、日本の制度を更新してください
シンガポール	公費	Developed Country になったシンガポールに対して留学と研修奨学金、奨励費を提供し続けてほしい。 在日本留学生、帰国元留学生、日本の counterparts との交流として助成すること。
シンガポール	公費	留学生が就職するためのアドバイザー及びそういうサービスをもっとうまくしてほしい

出身国	公費・私費	日本政府に対する要望/期待すること
シンガポール	私費	日本の経済改革を進め、強化して頂きたい。そして、日本の企業の東南アジアへの進出に対して促進していただきたい。その結果、帰国留学生の就職機会も増えると思っております。就職機会の増加に対して、日本へ留学する希望者も増えるのではありませんか。日本の経済、留学生者の増加、日本の大学や教育機関の存続、日本語の普及等は循環的互いに影響したり、されたりするからと思っております。
シンガポール	私費	日本政府が文化交流また留学生間の交流に対して力を入れていますが、宣伝とPRなどが不十分のため、新聞、雑誌、ニュースレターなど日本に関する記事があまりのっていません。(日本のすばらしいところが各地に伝わっていないという気がします) 今後、もっと日本の技術、あるいはすばらしい文化、伝統を各アセアン国々に宣伝すべきだと思います。
シンガポール	私費	日本の財政改革がうまく行うように、経済状況を安定させること。アセアン諸国と相互理解を強め、帰国留学生のネットワークを活用して、一層連携を強化することに努めること。具体的に言えば、下記の内容を願っています。 1)文化交流の促進(催しの開催への協力) 2)帰国留学生会への経費援助。 3)日本の近況をタイムリーに伝えること。
ベトナム	公費	ベトナム留学生が毎年ふえています。元留学生会が現在事務所もなく、しつもんない、人を雇うためのお金もないので、今だにあまり活発でない。日越友好関係を発展させるため、どうしても元留学生の役割が不可欠なので、こんごとも日本国政府のベトナム元日本留学生に対するご支援をおねがい申し上げます。
ベトナム	公費	<ul style="list-style-type: none"> Support to former students clubs in each country. Organise the exchange between Japan's Association and other Asian Countries to promote the activities of former students there.
ベトナム	公費	<ul style="list-style-type: none"> 日本へ留学したいベトナム学生がさいきん多くなってきましたが、日本への留学手続きがふくざつなので、なかなか行けない人が多いです。経済関係の書類の中で、一番証明しにくいのは所得証明書です。ベトナム事情では、そのような書類はなかなか証明できません。 帰国した留学生に対しても日本国政府が現地日本大使館を通して支援したり、日本型の企業に推薦したり、また日本での研修を受けさせたりした方が日本での勉強した知識はもっと役立つことになると思います。
ベトナム	公費	Strong support to our Association of former students. -Establishment some Japan's schools, university or joint ones for Japanese study or Technology education and training.
ベトナム	私費	To promote exchange activities among the people who graduated from universities in Japan. If possible, give chances for them to conduct the research cooperation in each country and among countries in the region.
ミャンマー	公費	私が JICA の研修を日本で受けることが出来、ありがとうございます。このような Program をつづけてミャンマーからの研修生をたくさんしょうたいしてくださいますようお願い致します。
ミャンマー	公費	私は日本の医学博士号をとったにもかかわらず現在は無職でございます。ミャンマーで生き甲斐のある生活をしたいので日本政府と関係がある仕事がありましたら是非私にやらせて下さい。就職の世話をしてくださいますよう心からお願い申し上げます。
ミャンマー	公費	私が初めて日本に行きましたのは1958年8月中旬でした。入学が4ヶ月おくれたために研究生として入り、翌年1959年4月から東京大学大学院脳神経外科に試験をうけ入学出来ました。とうじ日本国の留学生のための施設は賢明な穂積吾一先生が創設された駒込のアジア学生文化会館だけでした。私はそこに1960年に入館する事が出来ました。ミャンマーに帰国して34年間脳神経外科医として働くことが出来たことは日本政府や先生方、友人たちのお陰と心からかんしゃして居ります。停年後 Visiting Clinical Fellow として2年間東京女子医大脳神センターに居りました。その時に感じたことは留学生のための施設や奨学金がひじょうに豊かに良くなっている事でした。どこに行っても留学生会館が出来ていて安く宿泊する事が出来ます。2002年小泉総理がバンコックを訪問されカンボジア、ラオス、ミャンマー、ベトナムの元留学生に会われました。ミャンマーの代表として私が出席しました。小泉総理にもっと留学生を増やしたいというご希望があるという事を理解しました。ご希望通り留学生が増えているようですが数としては中国韓国の留学生が多いという感じを受けました。我々のような漢字を使わない国からも漢字の勉強が出来るようご協力いただけたらと思います。
ミャンマー	公費	<ul style="list-style-type: none"> 帰国留学生会の事務所の設立に関する支援 海外から日本の大学への直接入学 私費留学生に対する海外からの奨学金制度の設定
ミャンマー	公費	<ol style="list-style-type: none"> 1. 当国への積極的な事業投資の支援 2. MAJAへの支援 3. 英語による科目の増加、可能ならば全科目

出身国	公費・私費	日本政府に対する要望/期待すること
ミャンマー	公費	日本語レベルが高くなるため日本政府から援助がもっとできればよいと思います。
ミャンマー	公費	アジアの国々、特にアセアン国々に教育、健康面などもっと援助してくれるようお願いしたい。
ミャンマー	公費	日本政府のご協力がもっとあれば、自国の日本語レベルも高くなります。
ミャンマー	公費	日本を留学先に選んだミャンマー人の留学生のためビザの手続きを少しやさしくすることを要望し、期待しております。
ミャンマー	私費	今のような交流を続けてほしいです。
ラオス	公費	日本で高い技術を学んで帰国しましたが、現在、教育の関係を勤めるとは言え、持っている能力をなかなか活かせなかつたです。したがって、出来るだけ卒業後も能力を活かせるように日本政府が力を入れてもらいたいとお願い申し上げたいと思っております。自分の力だけでは何も出来ない現状です。
ラオス	公費	I would like Japan's Government to concentrate support the former students from Japan
ラオス	公費	在 ASEAN 日本大使館、日本的機関はもっと日本からの元留学生を大事にしましょう。
ラオス	公費	国際的協力とは、非常に広くて深い意味がありますが、一般の日本人の人々はまだそれほど理解していないと思います。日本政府はどうか適切な方法を使って、このような穴を埋めて頂いたら心で協力することができると思います。例えば、留学生の生活、外国との協力、外国（アメリカだけではなく）に関するテレビ番組を増やしたらいいではないかと思ひます。日本では多くの外国人が違法で働いていますが、本当はある日本人とも関係があると思ひます。かれらは留学生と比べると違う目的で来日するので、一般の日本人の人々からのみかたは、別々にして頂ければと思ひます。
ラオス	公費	専門学校や高専で卒業して帰国した学生たちにもう一回、日本に留学するチャンスをください。高専で卒業した Thongvang 先輩が頭が良くて、ラオスで仕事をがんばっているのに、高専で卒業したせいで何回も大使館で留学するために、申し込みましたが、どうしても 大学卒業しないと、再度日本留学が出来ない。私は専門学校を卒業しました、もう一度、日本に留学して、大学行きたいですが、無理そうですか??
ラオス	公費	<ul style="list-style-type: none"> 卒業後のフォロー、管理など 帰国後、日本政府との協力をしたいが、自分がどんなことに、どのようにすれば良いか迷ってしまったので、もし日本大使館の方で、オリエンテーションを行ってもらえば、社会にもっと貢献するチャンスが広がったかも知れません。
カンボジア	公費	Make more closely active in all field. Visa procedure should be easier for former students from Japan.
カンボジア	公費	私たちの力では、なかなか良い仕事が見つかりません。日本大使館の支持が必要です。
カンボジア	公費	留学生の増加
カンボジア	公費	The Japanese government has done to a great deal in developing human resources particularly in developing countries. The efforts were been commendable. I would like to urge the continuation of the efforts. Those students returned from Japan have been active in developing the country. It would be more important for Japanese companies or organizations in foreign countries particularly in Cambodia think highly of the returned students and more important the quality of Japanese education, without which it would be hard to make Japan an attractive place/destination for foreign students to pursue their higher education.
ブルネイ	公費	More time learning in Architect, because I just study in college only, I hope I can continue go to University School to learn more Architect in future.
ブルネイ	公費	It is nice, that you actively keep contact with your ex-students, but at the end of the day, these students want recognition for their studies by their own country, and that is difficult if the certificate is not officially recognised.
ブルネイ	公費	<ul style="list-style-type: none"> Giving more time in the learning of Japanese for teacher's training program. Giving or providing more programs for Bachelor Degree in Japan for foreign students in English Language.

(5) 在日 ASEAN 留学生アンケート自由回答：日本留学生政策や私費留学生の増加策

出身国	専攻	私・国費	日本留学生政策や私費留学生の増加策
シンガポール	工学	国費	<p>I find that the general education that we go through as under graduate students is not very effective. I realize that many Japanese students have no interest in the classes that they are taking. I have to take classes that I am not interested in too. It might be better if we have more choices of classes. I am in the faculty of Engineering and I have to take English classes! I wish I could be exempted from that. It was too easy for me. There was no necessity for me to take English classes.</p> <p>I also hope that Japanese university would change then system of having to finish all 4 years to graduate. In the U.K. and the U.S., if I were to obtain all the credits in 3 years, I can graduate and pursue my Masters in the 4th year. I find the system rigid in a way that I have to finish 4 years because my thesis is in my last year.</p>
インドネシア	理学	国費	<p>The obvious barrier for foreign student to study in Japan is language. Japan is attractive because of the scholarship.</p> <p>Therefore policy of increasing the number of self-supporting overseas students is by offering more educational program in English.</p> <p>What I feel to be a student in Japan is that I am getting more stupid because my professor push me whatever he wants, although it does obviously not make sense at all. I am so depressed to be here because my professor always discourages me all the time.</p>
カンボジア	人文科学	私費	<p>日本の大学のカリキュラムは母国の大学より充実していると思います。しかし、専門知識や就職（仕事）にむすびつくような教育を行っていないと思います。</p> <p>留学生にとって日本での生活が一番こまっているのは、住居の問題です。日本の制度は保証人制、敷金・礼金が必要とするため、民間アパートを借りる際に苦労しています。</p> <p>大都会では留学用の寮等の施設が多いが、地方都市ではまだ少ない。</p> <p>私の個人的な見解ですが、日本の大学は、国費留学生が私費留学生よりも優先し、面倒見がいい。</p>
ベトナム	教育	国費	<ul style="list-style-type: none"> • There should be more information about Japan, the life in Japan, the study in Japan. There should be the centers which give such information in big cities overseas. There should be more advertisements on mass media about it. • The corporation between Japanese and Overseas universities is also important. There could be exchange programs. • There should be more centers in Japan which can help foreign students find part-time jobs and accommodations. • Expand Japanese language education overseas or have courses in English.
フィリピン	農学	国費	<p>Policy is reasonable. I would posit that problems are more on communications and support system. There are well meaning volunteers (Japanese side) that providing support system but few foreign students avail of them because of communication and openness gap. Language courses should be promoted in all school not only public/national so all students can pursue Japanese language courses to higher level. Friendship/Exchange programs should be promoted.</p>
カンボジア	社会科学	国費	<p>Generally, Japan's policy toward foreign students are good. It set up many association and activities to help give information about convenient living & studying in Japan. Even Universities care a lot about foreign students and forgive in some case to foreign students.</p> <p>My problem but not serious is about the inter personal relation between serious because of cultural & values differences. Both sides try to conquer others, and sometimes lead to misinterpretation & understanding.</p> <p>In Japanese Universities, not many study tour overseas, so Japan Universities should encourage this fields that are very important in Globalization trend in the world today.</p>
ベトナム	工学	国費	<p>I think that Japan's policy is OK with no serious problems. The problem for me and most students is the way Japanese treat (think about) us. Most of them think that we're guest, not real friends.</p>

フィリピン	教育	国費	Teacher trainees with masteral degree already finished in his own country should be given extension for doctorate degree. Scholarship allowance should be increased to fully support the foreign students' needs at per all the increasing prnces of commodities.
インドネシア	社会科学	国費	<p>“ Self-Supporting”, think it's not popular policy, because usually students who have ensuing money to pay their education cost, proffering USA or European countries to expense their study.</p> <p>For Japan most of them are their developing countries who have lack of fund for their study, decreasing the support from Japan's 60s with include the opportunity to get better education.</p> <p>In the long run, it also will induce the good influence of Japan especially to the Asian Countries.</p> <p>It's better if supporting fund from monbusho will be from of number of participants for such country.</p>
マレーシア	工学	国費	<p>In my opinion, the Japan's policy toward foreign students studying in Japan is a very good and a long-time beneficial way to build a better relationship between Japan and ASEAN's country. So I think this policy should be countered and more efforts should be taken to make sure this policy reaches it's goal.</p> <p>About the self-supporting overseas students, I don's really agree that to survive in Japan (without scholarship). I think it's impossible for a student from a small country like Malaysia. So, by increasing the number of self-supporting overseas students, it means like reducing the chance of students of my country and I think most of ASEAN country to study here, so I think the second policy should be studied more.</p>
ラオス	社会科学	国費	<p>I have three comments, that would be improving the overseas students in the study and living in Japan:</p> <ul style="list-style-type: none"> • Is it possible to support the overseas students by providing the materials and stipends while they're conducting research. For example, doing experiment, survey in order to gather the research data. Some activities have high expenses. • There are good policies to provide overseas students by giving them living in dormitory for 1 year or 2 years. But It'll be good if the private apartments owners or the real estate have student discount for rent and key money. • To get better understanding in the study field and it's helpful for research, It would be nice if there are training, working field in rather than the lecture or class.
フィリピン	社会科学	国費	I think Japan has a good and friendly policy toward foreign students. Thank you very much.
タイ		国費	This questionnaire is quite difficult to read the multiple choices, it's very confuse to choose.
マレーシア	その他	私費	<ul style="list-style-type: none"> • I hope the scholarships for ASEAN students continues to increase. • It's important to have activities and exchange programs for foreign students in the countryside as well as in the cities here in Japan. Learning about Japanese traditional folklore, joining in rural matsuri, and trying countryside food should be a part of the experience for foreign students. In my opinion, home stay is a good chance for foreign students to learn the Japanese language and culture. • The level of Japanese language school teachers must be improved in order for foreign students to have a good foundation of the Japanese language. I thank the course content must also be update so that it is more communicative. Foreign students need to practice their language skills in class. Communication is one of the key elements in language learning. If foreign students develop a strong base through language classes, they can communicate more easily in Japanese society and can understand Japanese culture more easily. In the end they can avoid misunderstandings and solve a lot of problems they fall living in Japan.
インドネシア	工学	国費	<ul style="list-style-type: none"> • Please staff in charge must be able to speak English • Other important thing to dealt, please support with staff can speak English (For example, staff at post office, bank, station, etc.)

シンガポール	工学	国費	<p>I think that in previous years, the Monbukagakusho scholarship had provided students with accommodation subsidies. For students who are able to obtain accommodation in dormitories, the rental fee is still maybe affordable to some, but for those who can't get any dormitory to stay in, they will have to search for apartments which may cost higher and also difficult to search for landlords who are willing to rent to foreigners.</p> <p>In addition to that, the rental fees of dormitories provided for international students are so different from universities' lodges. The latter is more cheaper than the former and I personally feel that this is not a fair deal for students who maybe a self-supporting student and has tight budget with his/her own daily expenses. Also, the dormitories usually have limitations to the period of time one can stay. I think if the dormitories could relax the rules on the period of stay, for example, a doctorate student could be allowed to stay in the same dormitory till he/she graduates, this could save the student from the hassle of finding new accommodations while he/she maybe busy in his/her studies.</p>
タイ	保健医療	国費	<ul style="list-style-type: none"> • Provide the suitable accommodation offer every student during his or her stay, not just only within the first two years. • The seniority, this system is too troublesome for the foreign student to accept or get used to it.
マレーシア	工学	国費	<ul style="list-style-type: none"> • I think Japan's universities should provide course teaching Japan's high school subjects especially Math for new come students (undergraduate students) because there are many difference in educations of every country. Therefore, it is hard for students to follow lectures in universities if they don't really know how is Japanese say of thinking. • I think it is better if overseas students come to study in Japan starting from master course. It means they start doing their research in Japan. As I see, overseas students that started their study's in Japan in undergraduate course, including me, are not so good in mastering their basic's study because of trouble in communications and understanding the lectures. This will cause trouble during their research.
ナム ベトナム	理学	国費	I get Monbusho scholarship to study my Ph.D degree program, so that it is all right.
フィリピン	農学	国費	It would be good if Japan could maintain for ever further its current policy toward foreign students. However, it is understandable if Japan would be shifting its policy in light of globalization and the present economic status of Japan. It would help though if a new information to sources of income is made available to interested applicants.
タイ	理学	国費	About the Train's monthly ticket, research student should buy in the same price as student. And the origin and destination should not be fixed. The students have rights to decide where should be destination or origin.
インドネシア	工学	私費	<p>It's good enough (in my univ) but please do following;</p> <ul style="list-style-type: none"> • Give more attention to Self-supported students; so there is no jealousy between Self-supported student and Monbukagakusho student. • Make it possible for foreign students to use ex-Multi-purpose hall/room more freely. Because, they can organize themselves if there is a place to accommodate that. • Build more dormitory so foreign students can live there in quite long time.
タイ	工学	国費	<ul style="list-style-type: none"> • Some international courses are not really international. For example, my friend's got this kind of scholarship for international course but even his professor can not speak English; moreover, there are very few lectures that are taught in English (and fewer are related to his major). • I think the policy of increasing the number of self-supporting overseas students will not succeed much, since the cost of living in Japan is very expensive and it takes more time to learn the Japanese language before getting into the regular study course than in English-speaking countries.
シンガポール	理学	国費	I think that Japan has done a wonderful job giving a chance for foreign students to study here. I wish to thank Mombusho for giving me this opportunity. I find that the policy took care of most of the students' needs. For example the reception I received when I arrived at AIEJ dorm is very warm and helpful. Please keep up the good work. I hope that future foreign student will be as fortunate as I am and receive the good treatment I received.

フィリピン	保健医療	国費	<p>Japan's policy regarding foreign students I think is one of the last in the world. But we need to look into the housing and lodging concerns of these students. Also, the need to look into the proper appropriation of budget for scholarship so that the student can focus more on her study rather than on part-time work.</p> <p>Self-supporting overseas students can be improved if proper work of study ratio are properly monitored and followed. Also, if job are often equally, since as far as I know most job opening famous native English speakers and there are qualified English speaking students but English is not their native tongue. Thank you very much also for all your help.</p>
マレーシア	工学	国費	<p>I think that bringing in more foreign students to Japan will help in 'internationalizing' Japan. I think that Japan is an easy country to live in, but the fixed conventional way of education is rather unattractive (good school good job, average school average job). I feel that most lecturers treat their foreign students the same way as their Japanese students. This is good but they must realize that we may not understand what they mean and I hope that when this happens, they would be willing to help cut and not ignore us.</p> <p>In a nutshell, I think that Japan has a good policy toward foreign students now, but if they hope that students would come on their own money, it may be difficult. Japan's education level is very high and the prices on also, very high. If good support is given, the high price is understandable but otherwise. I don't think Japan will be the first choice to study abroad.</p>
シンガポール	工学	国費	<p>More dormitories should be made available to foreign students, rather than just limiting it to students who have just came to Japan. On top of that, I have the impression that the Japanese government policy towards increasing the number of foreign students is limited to only postgraduate students (i.e. Master, Doctorate, etc). Undergraduate students seem to have been neglected in the various policies implemented to benefit foreign students.</p>
インドネシア	工学	国費	<p>I think by giving scholarships to other countries, Japan indirectly has already invested a useful resource for the future. Students who receive scholarship more or less will feel attached to Japan. As an impression of gratitude, students are more likely to stay in Japan and work for a couple of years some of them get used to the system and choose to keep on working in Japan. Scholarships are usually given to those who have skill. If those people decide to work and dedicate themselves to Japan, Japan will have a lot of good human resources. Because of the reasons mentioned above, I think giving scholarships to other countries is a very good policy.</p>
タイ	社会科学	国費	<p>留学生の量の数をもっと増やしてほしいです。そしたら、移住期間も長くなって、引っ越しの回数も少なくなるでしょう。それができれば、大変助かります。どうもありがとうございます。</p>
タイ	社会科学	私費	<p>I think I did not get any supporting from Japanese government, therefore I do not care if there is the policy of increasing the number of self-supporting overseas student.</p> <p>Many times I saw students who were supported by Japanese government, they are not a good student. This means Japanese Government is wasting money to support those lazy students.</p>
マレーシア	社会科学	国費	<p>Japan's policy to increase the number of overseas students is welcome.</p> <p>However, I sense that Japanese system and your people are not ready to deal with any increase number of foreign students.</p> <p>The most obvious issue is discrimination against foreigners. Japanese people tend to generalize any bad problems caused by foreign students. Your society is still a very chose society, may be not so much in urban areas but definitely so in rural areas.</p> <p>Your system is also very rigid, too many rules to follow. While I thank the Japanese Government for getting the Monbusho Scholarship, I have to say there are many disadvantages like not being able to stay in dormitory because of that status.</p>
タイ	その他	私費	<p>Japan is the worst country in terms of providing support for International students. Furthermore, every is expensive and strict.</p> <p>Japan should be more internationalized. And loosen-up "the Japanese ways" because it suckles.</p>
タイ	その他	私費	<p>Should provide more opportunities for foreign students to final jobs, and also provide more information about living.</p>

タイ	社会科学	私費	The Japanese should better give more scholarships to foreigners in order to persuade the foreign students. Moreover, the government should provide the international universities more than at the present time.
インドネシア	社会科学	私費	I think Japan's policy towards foreign students is good and the government better keep the condition as it is now.
インドネシア	教育	私費	Japan's policy toward foreign students is good, however, as there is a tendency of increasing number foreign students to come and study in Japan, the competition to get the scholarship is getting higher. I wish, Japanese Government could help move for private-financed students to get the opportunity of scholarships. Thank you.
フィリピン	社会科学	私費	With the recruitment admission of international students in any universities in Japan, they must be given considerable options of employment (part-time) that will somehow provide financial aid to his studies here as long as the students manage his part-time job; studies well, he must be supported and not restricted.
ラオス	教育	国費	Frankly speaking, everything in Japan is very perfect in relation to living condition, health insurance as well as academic life. However, information on procedures of admission to Japanese universities from overseas should be more widely advertised. In addition, number of courses available in English should be also increased.
ミャンマー	工学	私費	It is a good plan to increase the number of self-supporting overseas students. Because, many students can get the chances to study in Japan, especially to the students of developing countries. But, the problem is not numbers of students, it is also very important the quality and the environment that we can study in Japan in easily. Now, we cannot get scholarship and after we graduate the Japanese universities, we have few chances to get jobs in Japan. Therefore, most of foreign students feel that Japan is not a good country to study. They do only part-time job and there they become over-stay.
ミャンマー	工学	国費	There is no any others in particulars. But I would like to request that it will be better if the members of Monbukagakusho Scholars are increased for Myanmar because Myanmar still needs to upgrade her own education and technologies in various fields.
インドネシア	工学	国費	It is very good.
マレーシア	理学	私費	<ul style="list-style-type: none"> Japan's policy has been very take care of foreign students studying in Japan. Proper management has been established to help foreign students in accustoming their life in Japan. However, foreign students like me seldom expose to the news or announcement involving international related events. Maybe more posters or notice should be put up in public places so that foreign students aware of what way happening around them. The increasing of self supporting overseas students are encouraging. But the life expenses in Japan is too difficult for a long term stay students, maybe they should be given chance to be involved in salary engaged activities, and the procedure of applying for the permission should be less complicated.
インドネシア	理学	国費	Increase number of courses available in English, because nihongo is difficult (especially the kanji character).
インドネシア	社会科学	国費	Attention should be given more to the students that have self-supporting status, such as more information to get scholarship from other parties.

インドネシア	工学	国費	No problem so far, but I just feel that it's hard to make Japanese friend, maybe because of the language problem. The procedure of renting apartment is very complicated, and the rent is also very-very expensive. For the foreigner who doesn't understand Japanese so well, living in Japan. I think it's better not to separate between Japanese and foreigner, so the foreigner can socialize with the Japanese easier.
インドネシア	工学	私費	I think it is good to increase the number of self-supporting overseas students in Japan, as long as the welfare support for the students is being maintained (or even better, being improve).
ベトナム	工学	国費	To study in Japan is always the great opportunity for students in other countries. But, the difficulties are often the financial problems. We, students in developing countries, expect to get more financial supports from Japan Government and other sources. (It is the) To get a scholarship is the first challenge for any student who wants to study here. Thank you very much.
インドネシア	工学	国費	I don't really have a deep understanding on Japan's policy concerning foreign students. But in general, I think Japan is quite generous in giving scholarship to foreigners. (Both from government side or from private.) One think that concern me is the difficulties in finding lodging or apartments due to our status as foreigners. If the government could help us to settle in Japan without being discriminated by the real-estate (or oyasan), I believe Japan will attract more student coming from abroad.
タイ	工学	私費	Tuition waving for foreign students. Apartment rental systems. It is very expensive to move in.
インドネシア	理学	国費	Japan's policy toward foreign students studying in Japan and policy of increasing the number of self-supporting overseas students have been done and successfully applied in this institute where I'm studying now. There are numbers of foreign students in this institute and I think most of them can follow the educational system very well as there is enough information which is given in English and enough support from people around us including Professors, Japanese students and others. I think this policy will continue to influence the global academic development in the world.
マレーシア	工学	国費	Japan has lot to offer to the world with its advancement in technology and its unique cultural background. Therefore the only way for the world, especially countries in ASEAN, to explore these great opportunities is for Japan to increase the in-take of Japan's own sponsored or self-supporting overseas students into higher institution in Japan.
ベトナム	理学	国費	There are many Vietnamese students who want to go to Japan to study, but too few of them can fulfill their dreams. The main reason is insufficient information. Because of lacking information, we are not confident to go to Japan for studying.
インドネシア	工学	国費	<ul style="list-style-type: none"> • Please use international language to communicate with foreigners. • Advance of course of Japanese language for foreigner.
インドネシア	工学	国費	I'm happy studying here. Japan's policy is well. The most difficult is the language. I need times to learn it.
シンガポール	工学	国費	<ul style="list-style-type: none"> • Raise awareness of Japanese universities in other countries. • Raise educational & research level. • Provision of cheap and accessible hostels to foreign students, especially in Tokyo area.
タイ	工学	国費	<ul style="list-style-type: none"> • For an international program, lectures classes should be 100% provided in English, not mixed by Japanese & English liked current classes. • Classes should be provided with more international standard style.
インドネシア	工学	国費	It's a good idea, but the most important is to subsidies the tuition fee. If it is possible make it free. And also give informations about part-time jobs, so than self-support students can really support themself.

インドネシア	工学	私費	<ul style="list-style-type: none"> • Over all Japan's policy is good, e-g., welcoming every student from all over the world without discrimination, offering so many scholarships program, etc. • As the price (living expense) in Japan especially in Tokyo is very high. I think it will be better if they (Japan Gov.) make a detail explanation for foreign student, not just by mentioning the fact in one phrase. • Anyway It is great to be able live in Japan.
インドネシア	工学	国費	<p>1. Living cost and tuition fee in Japan universities are too expensive for foreign students especially students from ASEAN country. It seems to difficult for the students to study in Japan without support from Japan Government.</p> <p>2. Japanese culture is very different from other Asia Countries' culture. Many students including western students can not understand the way of thinking of Japanese professor. Many students think that Japanese professors are not able to communicate well and never appreciate their students. So, actually many foreign students are guile disappointed studying in Japan. Based on this feeling, I wonder that the number of the students who has willingness to study in Japan will decreases.</p> <p>3. In order to success Japan's policy of inviting foreign students to study in Japan, I think there are some points to be improved:</p> <ul style="list-style-type: none"> • Academic environment should be more friendly the information system should be improved. (So far we have to ask when we want to know something. They never informed us if we did not ask) • Supervisors/Advisors should have a good ability in communicating with their students. They seem do not understand with the goal of Japan's government policy of inviting foreign students. "I am always right" has to be thrown away from their mind.
ミャンマー	工学	国費	<p>We couldn't get much information in our own country. For my case, I studied in abroad before I came to Japan and so I can get enough information about how to apply to Japanese university, how to get scholarships, and so on. It is very difficult to get enough information about Japanese universities in our own country. For language, there is not much chance to learn suitable Japanese language level in our own country. For self-supporting students, it is quite difficult to get student visas before he/she is coming to Japan.</p>
マレーシア	工学	国費	<p>In my opinion, self-supporting students will have problem to provide enough time for himself to study and to do part time job. I think it will, somehow, effect their studies.</p>
タイ	工学	国費	<p>Since living commodity in Japan is currently among the highest, especially once you live in Tokyo. Moreover due to the increasing development of higher education in developing countries, the policy of increasing number of self-supporting overseas students will very likely decrease the number of overseas students.</p>
タイ	工学	国費	<p>I don't understand well about the question but I have happy time to stay here and Japanese government takes care of foreign students well.</p>
タイ	工学	国費	<ul style="list-style-type: none"> • I have a lot of problem with Japanese language in the university. Although the course that I take is an international graduate course. But only a few subject or lectures are given in English. So many interesting course that I would like to learn are teach in Japanese. Although the laboratory and thesis I can do it in English. But I also expect the knowledge that I can get from the class or lecture too. • The time schedule of lectures and almost all study information are in Japanese with no English translation. And also the Japanese staff can not speak English well, so this is a very difficulty for new comer who have no ability to understand Japanese Kanji.
インドネシア	工学	国費	<p>It is not the right time for Japanese government to impose their policy now due to the global economy crisis.</p>
タイ	工学	国費	<p>The tuition fee and living expenses are too high, especially, for self-supporting students.</p>

タイ	理学	私費	<p>As in my university, although I'm studying in International Course, there are not enough courses available in English to graduate. Therefore, I've to take some courses in Japanese. That troubled me, because I could not understand the content in the class, even if I have some knowledge in Japanese language. The Japanese language classes in my university are not effective enough for studying and researching in Japan. Moreover, Japanese students in my laboratory are usually silent, they are not talking at all. That makes me more difficult to improve my Japanese level.</p> <p>Also, cost of living in Japan is so high that it is very hard for students from ASEAN to study in Japan. I was very lucky that I could get quite high scholarship from private foundation for a year, anyway, that was still not enough, and after one year period pass, that would be quite some troubles.</p>
タイ	工学	国費	<p>Please supply more information to find lodging or apartments for overseas students and please extend the period of staying in dormitory of university as the same standard as the other university (2 or more years) because in my case is not.</p>
フィン ランド	工学	国費	<ul style="list-style-type: none"> • Put staff in the admissions office and registrar's office who can speak English. • All "forms" to be used by the foreign students must be "bilingual".
インドネシア	理学	国費	<p>私費留学生用にもっと奨学金の制度をよくしてほしい。例えば、企業が団体にもっと奨学金制度を行うように働きかけるなどです。</p> <p>なぜ奨学金が重要なのかというと、日本の生活費は高いし、アルバイトをするしかないが、アルバイトをすると時間と力が必要なので、勉強できる時間が少なくなり、けっきょく日本に留学する意味すら変わってしまいます。</p>
インドネシア	工学	私費	<p>I think Japan's policy for Overseas Students is already good. In my country, we can access many information about Japanese Universities and also available scholarships. This is already enough to know Japan and its education system.</p> <p>The problem is that because many lectures are conducted in Japanese, so we must take the lectures for completing our credits. It's so hard for us to understand the content of lectures at beginning. We need 2-3 years to be able to understand Japanese language well, especially technical Japanese words. Now, I have been able to speak Japanese although is not so good. But I have used Japanese in discussion with my colleague. In this note, I just want to tell you that is so hard for us (especially me) to study the Japanese and conduct our research at the same time. We need the time to understand the Japanese, especially in the lectures.</p>
フィリピン	工学	国費	<p>One of the reasons why Japan is a good place to study is the availability of scholarship. Had it not been for it, I think I would also apply for universities in countries like United States, United Kingdom, Australia, Canada, where the language is the least of my problems. I believe that research capabilities of Japan is among the top and one could do expensive studies here but, I guess, I would be able to progress faster in English-speaking countries, since I am the only foreigner in the laboratory, English is seldom used. In other words, discussions, seminars and consultations are done in Nihongo.</p>
ベトナム	工学	国費	<p>The living cost in Japan is said to be highest over the world, so it's really difficult for student to study and live in Japan, especially for students from Asian country. I think the policy of increasing the number of self-supporting overseas students is not suitable for this time. The finance support for oversea students is still really important.</p>
インドネシア	理学	国費	<ul style="list-style-type: none"> • Raise opportunity to continue education into higher level (master students doctor students) • Increase availability of universities' dormitory for foreign students during staying period
シマ レー	工学	国費	<p>In general, the overall systems did a very good work until now. I personally is satisfied with the support given by the Japan Government, university and supervisors.</p>

タイ	工学	国費	<p>I would like to recommend about accommodation. It is not reasonable that a student, who had been living in university Dormitory, cannot enter to stay again in the second time. So we have to find an apartment by ourself and pay a big saving. It's very suffer for foreign student to do everything when just arrived Japan within first week. Please consider and improve this system in the near future. Thank you very much.</p> <p>Sincerely yours, Thai student</p>
フィリピン	理学	国費	<p>I have been studying in Japan for almost 7 years now and yet, there are still a number of things which I find substandard regarding Japan's policies toward foreign students. First, although there are some organizations in big cities like Tokyo, which help us find lodgings and apartments, in most towns, it is extremely hard to rent apartments and to find sufficient data regarding them. Second, although most foreign students have been made to study the Japanese language, I think that it is still a big handicap for us especially when official forms, school policy books, and the likes are being forced upon us. I think that such papers/documents should at least be written in easier Japanese if not in English. Third, I believe that more information regarding medical institutions should be provided.</p>
タイ	工学	国費	<p>It's quite hard for foreigners to live in Japan. There so many problems such as house renting.</p> <p>Moreover, the education system for master course, the research is considered to be more important than course work. As a result, many students graduated master course from Japan find it's harder to continue PhD in other countries, like USA, without repeating the master program again. Therefore, many students think that why waste time in Japan.</p>
インドネシア	工学	私費	<p>Basically, in my opinion, Japan's policy toward foreign students studying in Japan is one of good way making or Keeping Japanese development in any parts, especially "to build network" between Japan and these countries.</p> <p>And besides, by increasing the number of "self-supporting" overseas students, It's mean will increase that opportunity, but... to get optimum result, Japanese government or agencies must make a good selection for those students and give a good opportunity for them to take part-time job/whatever to support their living expenses in Japan.</p>
マレーシア	工学	私費	<p>Japan should actively make publicity at oversea country, such as, individually hold "Fair of studying in Japan", to encourage more student to come to Japan. There are extremely less information of studying in Japan at my own country.</p>
ラオス	工学	国費	<ul style="list-style-type: none"> • It makes chances for students who want to enroll in Japanese institutions, or go further in researching activities. • Facilitating policies such as easier system for renting apartments, more chance of part time jobs are thankful for self-supporting students in Japan.
インドネシア	工学	国費	<p>The number of overseas students should be increasing and more sufficient service for international student office in each university, then also should be increasing the opportunity to get or receive the self-supporting for financial support from university and company which has join research or program with university.</p>
インドネシア	工学	私費	<ul style="list-style-type: none"> • Provide more information in English please. • Make it easier in finding apart/mansion.
フィリピン	工学	国費	<p>Increasing the number of self-supporting foreign students implies the eradication of "Monbusho Scholarships", I think this would likely lower the number of competitive students, who would opt to pursue graduate/undergrad studies here, taking the fact that the cost of living here specially in the metropolis, is high and there is also the added burden for foreigners to learn nihongo. Most likely, these I competitive student would apply for scholarships in other English speaking countries.</p> <p>We have a high regard to the graduate education in Japan that's one of the reasons why we are here.</p>
ベトナム	工学	国費	<p>学費免除など、経済援助がもっと充実になると私費留学生の数も増えていくでしょう。</p>

フィリピン	工学	国費	<p>I would like to thank the Japanese Government for their continuing support and commendable policies towards foreign students studying in Japan.</p> <p>I wish the Japanese Government bring back the previous benefits that its MOMBUKAGAKUSHO scholars enjoyed before, such as housing subsidy and field allowances, in order to encourage more good students from other Universities abroad to come to Japan. I would also like to suggest, that if possible renewal of visa application be done through the students respective Universities. In addition, I would like also to suggest that foreign students studying in Japan with no scholarship be given a monthly subsidy due to the very high cost of living in Japan. Thank you very much!!!</p>
インドネシア		国費	<p>I cannot really give my opinion about Japan's policy toward foreign students, because I don't know much about it. From my experience I got the impression that application procedures for studying in Japan have go through a lot of bureaucracy. For example, I had to undergo several steps before being accepted in and heading to Japan. First, I had to pass the selection process in my home university, ITB. After state3d as a candidate from Indonesia, I had to send my proposed research plan to Tokyo Institute of Technology, the school that offers the exchange program. My chance of being accepted was only 25%. After TITech gave their approval. I was told to apply for scholarship from AIEJ. My chance became 50% AIEJ sent me letters, asking for copy of my passport in order to issue certificate of eligibility. My chance increased to 15%. Finally they sent me the air-ticket, it meant I was 100% accepted. The process took about 5 months. Psychologically I felt a bit unrelated and worried, because studying in Japan has always been a part of my plans for the future and there were so many uncertainties. Maybe Japanese government can do something about it? Anyway, I feel so lucky and thankful because Japan has given me opportunity to study here.</p>
タイ	工学	私費	<p>Japan is an attractive country for overseas students who want to study abroad, especially in the field of technology-related. But the cost for study and live in Japan is so high so that most of the students look for other alternatives if they do not get any support or scholarship. If Japan needs more self-supporting oversea students, they should provide more opportunity for the students to reach part-time jobs position, just like in US. (I used to study in the US and found no difficulty in working part time job to support myself.) International courses are also in needed more than there are now.</p>
インドネシア	工学	国費	<p>Japan policy for foreign students is a good thing. Financial support from scholarship and other made student focused on their study and doesn't have to bother about the expensive living expenses in Japan. Self supporting students may have more free time since they required the part-time job to fulfill they need not including the difficulties in apartment.</p>
マレーシア	工学	私費	<p>School fee is too expensive for foreign students particularly from Asia Pacific region. Fee exemption is definitely important for foreign students to concentrate on their studies.</p>
ベトナム	工学	国費	<p>高校卒業の学生はある程度英語ができますが、日本語は全然できないので英語けんの国を選ぶ人が多いです。もし、外国の日本語教育をえんじょすれば留学生の数が増えると思います。</p>
フィリピン		私費	<p>I think the Japanese government should strictly implement or revise its policy in accepting foreign students or those people who want to pursue their studies here in Japan. Because I have noticed lately that there are many foreign students (self supported) who are suffering from difficulties in terms of financial situation. The main cause of this problem is lack of financial support from their families and before going to Japan they were assuming that they can survive with their financial needs by means of doing a part time job. For this reasons, there are a lot of problems arises that leads to have a discrimination between foreign students and Japanese.</p> <p>It is also important for the Japanese government to increase the number of offices where all students who are suffering from different kinds of problems can receive counseling and advice. It will help to encourage the students to do what is best for themselves. As we know, the rate of overstayed foreigners here in Japan is very high and most of them are previous students.</p>

タイ	その他	私費	Most foreign students who earn their living by part-time job sometimes being treated unfair. According to my opinion, it would be better if there are some companies who would like to train & accept foreign students to work with them. As the situation of what I'm facing now, most company only accept those who can fluently speak Japanese, or otherwise, required 1 level of Japanese proficiency test, which wakes it difficult to practically learn other rage apart from learning inside the classroom & improve one's Japanese ability that can be applied in the real situation.
ベトナム	その他	私費	学費や生活費などは他国よりずっと高いといわれている。私費留学生にとっては最適な環境とはいえないだろうと思う。これから、日本政府はなるべく、私費留学生の学費や生活費をもっと支援してほしいと思う。
マレーシア	その他	私費	国境を越えて、人と人とがコミュニケーションを取ることは本当に素晴らしいことだと思います。人種とか言葉とか、そんな事は関係なく、皆が同じ人ということで仲良くなれる事は大事なことです。今後、留学制度の良い点、悪い点を知っていくには分かりたいです。勉強ではなく、日常生活の問題、国際交流を分かってもらいたいです。在日の留学生たちと共に、日本で日本人と触れ合い、多くのことを学んでいきたいと思います。
ムベトナム	その他	私費	もっと留学生活や就職情報の提供をしたほうが良いと思います。
ミャンマ		私費	特に私の考えでは、宿舍やアパートを借りる時、日本人の保証人の事で困るのが一番でした。アルバイトの時間制限があるので、なかなかむずかしかった。アジアでも肌が黒い東南アジア人には非常に大変な思いがありました。
シンガポール	工学	国費	I feel that despite the official policy of increasing foreign students number in Japan is effective, in that scholarships are provided, the support at the ground level from professors and fellow Japanese students are little. Most foreign students feel excluded from the Japanese society and do not feel a strong sense of camaraderie with their Japanese counterparts. That I feel is the main problem with foreign students in Japan.
ベトナム	工学	国費	<ul style="list-style-type: none"> Japan's policy toward foreign students studying in Japan is friendly but I think if Japanese government has some more priorities for foreign students it will be better. For example, when a foreigner does some illegal act, punishment should be lighten up because foreigners in Japan has low income and few knowledge about Japanese law. The education in Japan has nothing new compared with other Asian educations. The better thing is that educational equipment is so good. Attendance system is applied well and it plays an important part in students' study result but in some cases it's like a compulsory education. As for foreign students who have to do part-time jobs to afford their living, its not good I think.
フィリピン	工学	私費	I think it would still be best if the Monbukagakusho (Government Scholarship) would continue further. It would be hard, specially for my fellow countryman, to self-support themselves while studying here. First of all, the language barrier, and secondly, there aren't much information about getting a part-time job.
インドネシア	工学	国費	<p>There were same problems on daily living such as foods, customs, etc., but particularly they aren't big problems. By the time goes by, I guess that everyone would be able to understand those problems caused by culture different. It's a consequence that each place has its own culture, its own way of living.</p> <p>The most big problem for foreigners, according to me, is finding for lodging/apartment. The owner of the lodging/apartment requires guarantor, in the contrary, foreign student got if difficulty since it's difficult for Japanese to trust on foreigner. Off course it's a reasonable thing not to believe foreigners. If there is such policy to solve this dilemma, it would be very helpful for foreign student in Japan, I guess.</p>
マレーシア	工学	私費	Increase number of courses available in English and let Japanese can speak in English much more better so that foreign students will not face much trouble when live in Japan. In Japan, there is no pointer system (result), so foreign students cannot further their studies in other foreign country.

ナム ベト	工学	国費	I would like to say thank to Japanese government and Mombusho that give chances to foreign students to come to study in Japan. I am rather satisfied in study and in life here.
マレーシア	工学	私費	<ul style="list-style-type: none"> • Fees exemption system is a must even after the public universities have been privatized. • Tuition fees shouldn't be increased because it will burden those who do not receive scholarship of fee exemption. • Increase the English education level of Japanese and also expand free Japanese education among foreign students. In this way communication and lateral understanding between Japanese and foreigners are made easier. Life in Japan for foreigners will be more comfortable.
マレーシア	工学	国費	<p>I think the Japanese policy toward foreign students is quite nice. They were trying their best to support us, such as providing the scholarship to flying graders and low rent dormitory. They also provide mentor for us, and I feel that they are doing their best to create a comfort studying environment for us to increase the self supporting. I think that Japan could do the things below to help them.</p> <ul style="list-style-type: none"> • Make more low rent dormitory, which is near to school and can stay for a longer period. • Help them to find part-time job. • Lower tuition fees (I heard that the tuition fee are 0 for some cases, but not all).
ミャンマー	その他	国費	<p>Japan's way of making foreigners feel at home is really very good. I never had a hard time adjusting here. But of course Japanese is really hard.</p> <p>About Japan's policy, it is really good that they provide scholarships to overseas students like us. But if the budget for this reason is decreased. I think it would be better if the number of accepted students is decreased rather than to decrease the amount of scholarship of those already accepted students. This is especially hard for those scholars who have their family living with them in Japan.</p>
カンボジア	社会科学	国費	<p>There is no special treatment towards foreign students. They feel like living in a country needed strong patience and try very hard. Foreign students' first difficulty is Japanese language. The language should have been educated one year prior to coming to Japan.</p> <p>It is for difficult to make friends with Japanese. They don't like foreigners, scared of them. They don't welcome us. I hope they will open their heart and mind to welcome foreigners.</p>
タイ	保健医療	国費	The money for rental apartment is too high.
タイ	保健医療	国費	Well organized.
マレーシア	保健医療	国費	<p>Financial support (from Japan or home-country) is to a certain level, a main attraction for individual students from most ASEAN countries. Without financial support, general populations in these countries are unable to afford their lives in Japan, even with a regular salary, not to say about the tuition fees. Even though students may get a part-time job to support their lives and study. Japanese language is the barrier. One with limited knowledge of Japanese language has difficulties in finding a regular part-time job to support why herself.</p> <p>Courses in Japan are mainly conducted in Japanese, which means that students have to study the language before they continue in their own field of study. Most students from ASEAN countries are not familiar with Chinese character (Kanji) but study English as a second language thus, English-speaking countries with be their first priority when considering studying abroad. Learning the language also means extra financial burden for about a year.</p>
インドネシア	工学	国費	In case of my program, I think Japanese government, better if to increase the number of the English program in their national universities. My program is in English. I agree with the program of increasing the number of self-supporting overseas students, but to be considered that, selection must be very strictly, because if not to do so, it will become a problem for the Japanese government for the future. Because if the student cannot complete their study because of lack of their budget, I think that it will take Japanese Government trapped in bad situation.

ナム ベト	工学	国費	Give more information on part-time jobs in school.
タイ	工学	私費	In the doctoral course, I can't do any part-time job. "And" I can't find any scholarship. It's quite hard for me to live here. In this situation, I don't know why I have to pay tuition fee.
ベトナム	工学	国費	I'm a Monbukagakusho scholar. And everything for me is great. I almost have no trouble in my life in Japan. That was because I'm having scholarship. But for self-supporting students things are different. Cause they have to work to make money. Maybe some don't have time to study. Life of them will be very hard. I think they should think a lot before deciding anything. About nowadays Japan's policy toward foreign students have no complaint except being unhappy about some reductions not only in scholarship but also in the number of Monbukagakusho scholars who will be able to extend their scholarship here in Japan about the policy of increasing the number of self-supporting overseas students. It's good because it gives chances to more people. But I think you should check much whether they can afford their life and study here before allowing them here.
ラオス	工学	国費	<ul style="list-style-type: none"> Local Government offices like City Office, Hospital and so on should improve their communication in English. Universities tuition fee is quite expensive for students from developing country. Part-time job supported by universities is needed. (System)
シア ドネ イン	工学	私費	Japanese Universities and Governments are lack of providing a dormitory for foreign students who has a financial problem during study in Japanese Universities.
ナム ベト	工学	国費	In my opinion, Japan has a very good policy toward foreign students studying in Japan.
インドネシア	工学	国費	Basically the financial support is good, but the price in Japan is high so that it difficult to make it in balance. If Japan wish to increase the number of students whom want study in Japan, I think Japan had better provide more classes and text book in English. Since the Japanese language is difficult to be mastered in short period of time. It is better to provide special class for overseas student which conducted in English.
マレーシア	工学	国費	<p>I feel that the policy at present is good. However, I would like to stress on the importance of scholarship and tuition fee waives for self-found students. Those who are already in the Monbukagakusho scholarship program would have no financial problem. However with the rise in standard of living, expenses are increasing such as accommodation fees. These the present Monbukagakusho scholarship needs to be revised from time to time to ensure students have enough to spend and need not worry about lack of time for studies. More scholarship programs should be introduced to help self-found students.</p> <p>At the same time, information on part-time jobs should be made early available for students. This is to ensure that students are not involved in vice or malicious part-time job just to get more money.</p> <p>Another vital point to consider is to educate Japanese students to want to communicate more with foreign students. I feel that this will help create a friendly and trustworthy environment for students to interact well. A better communication environment will lead to more friends for both foreign and Japanese students. Thus a better campus style and an internationally interesting environment for all people.</p>
タイ	社会科学	国費	<p>I can agree with Japanese government's policy to increase the number of self-supporting overseas students.</p> <p>However, the reality is that the majority of students studying in Japan can not get enough information about lodging or apartment can not find a right person to consult with, when they are in trouble, can not get along with the lectures because most of them are given only in Japanese; it is not so easy to get a high level Japanese language level in a short period of time. In this situation, I can not help but think Japanese government is not ready to accept foreign students, in contrary to what they are saying. I hope this situation will improve soon for future students.</p>

カンボジア	社会科学	国費	<p>Japanese language is the most difficult language I have studied. We may improve it by practicing more with Japanese friends, but to my surprise most, if not all, of my close friends are foreign students. Japanese students are not open and it seems to be a hard job to have a close Japanese friends.</p> <p>We are living far away from our countries all alone, so it is natural that we face some difficulties but some professors don't show any understanding of our problems, this is the problem.</p> <p>The problem of studying in Japan as a self-supporting student is the price of goods, still Japan would attract more self-supporting student of accommodation is not a problem. But it is any one of many obstacles.</p>
ベトナム	社会科学	国費	<p>I would like to express my many thanks to Japanese government for what they have been done toward foreign student's studying in Japan. As far as I've known. Japan's policy toward foreign students has been shown effective and most of foreign students have been satisfied with it. My suggestion if possible is to expand and improve Japanese language training course for foreign students on the first coming on Japan. I hope Japan's policy toward foreign student will be perfected more and more in a short time.</p>
シンガポール	人文科学	私費	<p>To get a PhD degree is too difficult. That may not be important for Japanese student when he/she finds a work, but for a foreigner it is the minimum requirement. If a Japanese Professor says; I request the same standard. I will say; Please give us the same chance for the jobs in Japan.</p>
タイ	社会科学	国費	<p>It should be more Japanese writing's class, especially in the department. It is because academic writing is the most difficult tasks to achieve for me.</p>
インドネシア	社会科学	国費	<p>I think it's better if the university makes more effort in making subjects like Multi-Cultural Communication, because I find it really helps. If Japan government tries to increase the number of self-supporting overseas students, I think it's better to make more detailed explanations and guidance about part time job and scholarship.</p>
ナム ベトナム	理学	国費	<ul style="list-style-type: none"> • Produce more kinds of short term course for foreign students.
インドネシア	理学	国費	<p>The first problem for the foreign students who studying in Japan is Japanese language. Japanese language is very difficult and need a lot of time to learn it. To discover competitive alternatives comparing with the other country in the number of foreign students. It's better to increase the number of courses using the English.</p> <p>Living in Japan, everything is the high prizes. The students who are studying in the laboratory need a lot of time to do a research. The students have no time to take a part time job, so that without supporting of finance. It is impossible to study in Japan. New attention for the increasing of scholarships is need.</p>
タイ	理学	国費	<p>So far, Japan is one of a few countries that offer full scholarship to students from Thailand. That is, students who receive Monbugakusho scholarship do not have to pay anything even the ticket fares from Thailand to Japan (and return).</p> <p>They only drawback Japan has is its insufficient number of courses taught in English. If Japan has more "International courses" (e.g. medical program taught in English), Japan would definitely be my number one choice. I am interested in continuing in a medical program, however, I still find that some Japanese doctors cannot really communicate in English, so if I continue my education in Japan (given that my Japanese still is very limited), I do not think I would earn any significant benefit.</p> <p>With regard to other aspects, Japan is a very, very nice country to live in.</p>

インドネシア	理学	私費	During my study in Japan, I'd to focusing on the environment for study and research for us as foreign students. It's quite difficult to adapt with Japanese educational system, particularly for science/medicine/ pharmaceutical/ fields. Most of us encounter difficulties when we enter the higher/advanced study in Japan. Difference in languages, customs and style of working/education system in our home country are the particular causes. We are trying to adapt to Japanese system but please try to understand us as a human being be sensitive and be tokenized to us much helpful than other supports.
マレーシア	社会科学	国費	I think it is a good policy which would mutually benefited Japan and the foreign students.
インドネシア	社会科学	国費	I think the Japan government has made a good policy toward foreign student studying in Japan. However for master degree level that Japanese language ability is necessity (mainly at universities that using Japanese language in class), that supporting is still not sufficient.
ベトナム	社会科学	国費	Good.
マレーシア	社会科学	私費	Introduce more information about apartments. Build more and more houses for foreign students.
タイ	社会科学	国費	I'm quite impressed with the educational system in Japan, how it emphasizes on seminar and research. Also, the information technology offered in Japanese language is quite advanced. I can find almost every topic that I want to in Japanese websites, but the problem is I cannot understand 100% Japanese. What a pity. I think that there are lots and lots of students want to come to Japan but don't know where to start because of the language. Many people give up because they cannot read Japanese in the first place (sometimes, for the same document, when it is written in Japanese, there are 2 pages but the translation in English is only one paragraph!)
タイ	社会科学	国費	Study in Japan is the hardest think for every foreign students' life. Because, Japanese and Japanese social. So, for the system of education and accepting overseas students' system should be more flexible and make if more easy.
ベトナム	社会科学	私費	The problem that almost all self-supporting overseas students have faced in living in Japan is difficult finding a part-time job, difficult finding apartment with reasonable price and cannot obtain a scholarship. I think the number of scholarship students now is enough but the number of self-supporting overseas students, who got scholarship, in not much. Japan Monbukagakushyo should raise the number of scholarship to self-supporting student, who makes an effort to study.
カンボジア	社会科学	国費	I had been studying Japanese one year in Osaka University of Foreign students. I found the courses were a quite relaxing and I seemed not learning much from there to ease my study in university with Japanese students. Therefore, I'd like to suggest that they can make courses there a little bit more intensive, more grammar and more writing skill.
インドネシア	工学	私費	Japan wish a lot of foreign student come and study in Japan. But majority of the students are from China and Korea. Why? Because the Japanese Government not give good approach and utility for students not from China and Korea. Discrimination lives for other student from China and Korea I find. The student from Korea and China easily to get part time job in Japan.

インドネシア	工学	国費	<p>I believe that high living cost is the biggest problem that self-supporting overseas students are facing. Next to it, language barrier problem is preventing students to find part-time jobs.</p> <p>So, if Japan can provide more scholarships or any other financial aids, and also the society can accept students that cannot speak Japanese (but can speak English), as workers, Japan can attract foreign students even more.</p> <p>After all, you can't study well if you can't eat well.</p>
ム ベトナム	教育	私費	<p>もっとベトナムの留学生を増やしてほしい。日本で、学術を勉強したいという人が多い。同時 日本物の物価が高いため、もっとしえんしてほしい。</p>
カンボジア	その他	私費	<p>I propose to the Japanese Government, please increase the number of Cambodian student to study all fields because now in my country is lack for human resources to improve the country. So I think that Japanese Government can solve this problem with underdeveloped country as my country, Cambodia.</p>
マレー シア	その他	国費	<p>No comments. For me, so far everything is satisfactory.</p>
マレーシア	社会科学	国費	<p>In regards to Q11, I'm very happy with my life here, thanks to the generosity of Japanese Government (scholarship). With this financial aid, I can fulfill my dream of discovering and majoring in HRm, in particular, Japanese HRm that I always appreciate and admire. But I do feel that I can receive higher quality of education in Britain, if the study is not focusing on Japanese HRm. Perhaps I'm not fair in saying this since I have heard how good private universities in Japan are in that I've not experienced the goodness. I think Japan tries its very best to support self-supporting students. There are so many avenues for financial aids as compared to Australia or Britain. Japan is extremely kind though there are some students that claimed Japan owes it to foreign countries for WW II. I don't agree with them at all. I knew many students who wanted to quit (though they had Monbusho scholarships) because they couldn't adapt to their lives here. Perhaps Government should introduce more cultural and social activities to help these people make more Japanese and non-Japanese friends as a solution to overcome loneliness. Another thing is. I suggest the Government should try to be more stringent in selection process of those potential scholarship receivers to avoid waste of money on candidates who are not serious about their study opportunity in Japan. Then these reserved funds can be distributed to help students in fieldwork research where expenses are signification high.</p>
インドネシア	社会科学	私費	<p>The important issue is how foreign students can study well and lean Japanese society as well. I suggest:</p> <ol style="list-style-type: none"> 1. More accommodations are provided, i.e. lodging facilities. It will be very helpful if there are sufficient lodging facilities, which are cheap and nearby campus and students can live these until they finish their study. 2. Government may give more supports on exemption of tuition fees especially for self-financed students. <p>Note: As 1. & 2. are sufficiently available, government may reduce expenses on total allowances expended in scholarship programs. I guess many more students from different countries will have more interests to study in Japan.</p> <ol style="list-style-type: none"> 3. Schools provide sufficient English information supports. 4. Schools provide intensive and effective Japanese language learning programs. 5. Government give more opportunities for students coming from various developing countries, e.g. Africans, Latin Americans, etc. 6. More of universities/schools and local government cooperation for cultural/social exchange programs.
タイ	社会科学	国費	<p>In my opinion, Japanese Government should maintain the same amount of scholarships. This amount is quite reasonable for students to survive. The reduction of the stipend may lead the bad effect of scholarships granters to survive in Japan. In case of self-supporting overseas students, government should provide more opportunities for them to find financial supports.</p>

カンボジア	社会科学	私費	<p>Increase foreign students by reducing the monthly allowances (ex. Instead of ¥18,0000 as it is the case of Monbukagakusho, ¥10,0000 ~ 120000 would be enough).</p> <ul style="list-style-type: none"> • Build more apartments for students (¥10000/month) • 50% discount for all infrastructure/public facilities ' use including health insurance. • Students depending on only part-time job incomes shall get full exemption of school/exam fees. • More English skill for Japanese Professors and public servants in general.
フィリピン	人文科学	私費	<p>I am really grateful for having had the chance to study in Japan, especially one of its National universities. Even though I had a hard time economically at first, the NGK scholarship helped me so much. Also I was granted tuition waivers in three of the four semesters of my stay. I only wish that students who are really serious and in need of financial assistance be given more priority, screening of applicants should be given more time.</p>
ミャンマー	理学	国費	<p>No particular but should provide more information and scholarships to students in my country, Myanmar.</p>
ミャンマー	理学	私費	<p>As a doctor's course student, I have enough confidence about Japan's recent academic level and technical know-how but no confidence about available fund to doctor's course student. This is why that I have totally no scholarship as much through first year (D1), to third year (D3), despite I succeeded in writing one research paper in international journal and another one is official journal of Japan which is essentially required for my doctoral thesis under guidance of my professor and co-researcher. My wife and me are same year (D1 to D3) and university, and different specialization (psychology and geology) in doctor's course. Because my wife in a Mombusho scholarship holder, I have no chance to get any scholarship. However, no one realized that my wife's scholarship is for her own research but not for me. As a result, every decision maker traditionally or unwisely assumed that two from one family will have no two separate scholarship for each. Their traditional thought come from traditions of Asian. Easterner's thought is family-base whereas westerner's thought is individual-base which one is right will depend on chosen target. Japan's decision maker should keep in touch with not only eastern traditional thought but also western programmatic approach. Nevertheless, more and more permission for foreign student to come Japan to study will be broad and beautiful mind. But policy making in procedures and policy working is result. This is my comment gained from self-experience which I would like Japan's policy makers to share.</p>
マレーシア	社会科学	私費	<p>The extension visa for foreign students should be increased from 2 years to 3-5 years, especially for students who are in their master/phd courses. This is due to the reason that high fee has to pay for one application and time consuming.</p> <p>Subsidy for lodging and apartment as needed. In addition short courses/homestay's that could introduce Japanese cultures to foreign students should be encouraged. Alternatively the encouragement for more private sector (companies) to supply free/cheap accommodation for foreign students should be promoted.</p>
マレーシア	教育	国費	<p>The standard of living in Japan is very high which requires foreign student to be very careful in daily expenses. Monbukagakusho scholarship is sufficient enough for a single person but difficult to make a living for a student with a family. In my case, I have a husband & a daughter and my husband is also Ph.D student. From the beginning he was denied to apply to be Monbukagakusho student just because of me being one. I think every student should have his/her rights to get equal chance to be Monbukagakusho student regardless who his/her spouse is ... for he/she also needs to study & make research just as his/her spouse does.</p>
インドネシア	教育	国費	<p>I think Japan's policy toward foreign students studying Japan is good enough so far.</p>
ミャンマー	教育	国費	<p>To know more about Japanese language and culture, the 6 months Japanese language course is not sufficient for the foreign students. And research on major field with Japanese language may be difficult. That's why. In my opinion I would like to extend the 6 months Japanese language course as much as possible. If I had a chance I would like to study advance to higher education in Japan.</p>

フィリピン	教育	国費	<p>Japan has a comprehensive program for international students which is really impressive in all aspects. However it is strongly observed that foreign students are not completely immersed in the main stream Japanese community. They rarely interact among other Japanese students because of distinct program for them and Japanese counterpart.</p> <p>It will also be best if foreign students will be assured of common accommodation from the start and end of this program.</p>
ラオス	教育	国費	<p>Japan's policy toward foreign students studying Japan and policy of increasing the number of self-supporting overseas students are very good, because it helps many students to high education. Like Japan helps many countries in the world to develop.</p>
マレーシア	工学	国費	<p>I'm very happy with the scholarship from the Ministry of Education of Japan and I hope the government of Japan will continue this kind of program.</p>
マレーシア	工学	私費	<ul style="list-style-type: none"> • Increasing funds or scholarships for foreign students. • Relaxation of restrictions on applying tuition fee exemption.
マレーシア	工学	国費	<p>Being a scholarship student, I feel that the scholarship has helped me to ease my financial worries greatly. Living in a foreign country where the culture, language and customs are different from that of my own country, there are naturally many worries that I have, but thanks to the scholarship, I can now concentrate fully on my studies and my life here in Japan, like learning the culture and the language, and visiting the many beautiful places here in Japan.</p>
カンボジア	農学	私費	<ul style="list-style-type: none"> • I think that Japan's policy was good. • Japan Government should provide more than scholarships for poor countries such as Cambodia to study in Japan.
タイ	農学	国費	<p>Because the tuition fee of university and living expenses in Japan is high when compared these expenses to Asian countries, I think, Japan government should provide more scholarships or provide more accommodation such as dormitory for overseas students to reduce the cost of living in Japan.</p>
ベトナム	理学	国費	<p>I am a foreign student supported by Japanese Government. I have lived in Japan about one year. I found that, everything is very good. I enjoyed with life in Japan. I like Japanese food, weather and Japanese. I like my study in University and enjoyed research so much. Japanese Government policy of assurance for health and others is very good. And policies for students who has family and small babies is also very good. I want to say that everything is perfect. I like and I want to learn Japanese so much. So it would be better if my university has Japanese class in the evening. Because I have to do my research during day time. Finally, I would like to conclude that everything is perfect. And I would like to thank for all of these. I don't know about policy of increasing the number of self-supporting overseas students. So I cannot give any comments about that.</p>
フィリピン	農学	私費	<p>I think it is better to increase the number of scholars from developing countries particularly in South East Asia. Recently, there has been a drastic decrease in the number of scholars from developing countries but in fact, these countries should be the ones to be provided with support from the Japanese government. There was also a decrease in many benefits that these scholars are receiving but the reality is, the high cost of living in Japan is so high that the scholarship is just enough for basic necessities. The Japanese government should also give special considerations to students particularly when there are problems on extension, visa and other immigration matters.</p>

インドネシア	農学	私費	<p>I think Japan's policy toward foreign student should be smooth, especially in the prerequisite of paper for the doctor course. The short coming of foreign student in doctor course should be note worthy. Some students back to their country without any degrees to their scholarship how finished before the finish the study. Of course, it is extremely hard to extend study in Japan without any scholarship.</p> <p>I suggest some ideas of increase of number of self-supporting overseas students.</p> <ul style="list-style-type: none"> • increase information on living for overseas students • increase number of course available in English • increase the counselor service, as generally known living in abroad face many problems, not only the study but also daily live.
インドネシア	農学	国費	<p>Expanding information about Japanese University to ASEAN country and direct information to our home country's university especially some big university.</p> <p>More information about living in Japan, part time job & housing in many area of Japan</p>
マレーシア	農学	国費	<p>It's a good policy for Japan to increase the number of foreign student amidst the nation declining birthrate but there should be more effective support for foreign students be it for renting apartment, searching for a part-time job, health care, counseling, studying, I think that we (the foreign student) need more support from the society. It is difficult to adapt yourself to a life in another country completely different from yours but it is more difficult to adapt when the people surrounding you are not supporting at all. It seems to me that the Japan's policy is to welcome foreign students but the society, although not all, is not so welcoming.</p>
インドネシア	農学	国費	<p>I would like to express my gratitude to Japanese government. I believe that Japanese government will apply the best policy.</p>
インドネシア	農学	国費	<ul style="list-style-type: none"> • I feel the highest monthly expenditure for foreign students is the expenses for accommodation (apartment), since the available apartments around campus were mostly passed/managed by private companies which make it very expensive. I think, it can be reduced if Japanese government (university) provide a facility like International Residence that allow students to live until graduation. This is for one consideration. <p>And finally...</p> <ul style="list-style-type: none"> • I would like to express my gratitude to Japanese government for the scholarship which enabled me to pursue doctoral degree. <p>Domo arigato gozaimashita.</p>
フィリピン	社会科学	国費	<p>I do appreciate Japan's effort to give foreign students the opportunity to study in this country. However, I wish the Japanese government could also support the returning students in terms of finding a workplace in their home countries where they could apply/practice what they have learned after studying in Japan.</p>
カンボジア	社会科学	私費	<p>Foreign students come to Japan with dreams. And their dreams should be helped realise by Japanese government policy. The biggest problem they are facing is the financial support system from the government. Most of private students try to study very hard but at the same they have to work to make the living.</p> <p>I believe that the scholarship system to support foreign students financially will not only help in realising their dreams but also nurture human resources for ASEAN countries which are facing shortage of personnels in developing the countries.</p>
インドネシア	社会科学	国費	<p>Japan Government is supported to increase its support to student from ASEAN countries by providing more scholarship and more space in any level of education.</p>
インドネシア	社会科学	国費	<p>Japanese Government should provide more opportunities for ASEAN students to study in Japan. This will create good relationship between Japan and ASEAN countries as well as according transfer from Japan to ASEAN countries.</p>

インドネシア	人文科学	私費	In general I would say Japan's policy toward foreign students studying in Japan is excellent. However, I think these who have no background of learning Chinese characters will find very hard to read Japanese books, seminar papers etc. Herewith, I suggest that in order to overcome this difficulty it would be better to make known widely, especially to foreign students software of reading Kanji and its translation in English.
ベトナム	社会科学	私費	Since foreign students coming from ASEAN should have longer time for study Japanese; <ul style="list-style-type: none"> • It should be better if there are more available spaces in foreign student residents and/or subsidies for lodging; • Tuition fee and registration fee should be fully exempted for students from ASEAN; • It should be better if there are more "development features" in Japan's policy toward foreign students from ASEAN.
ラオス	その他	国費	I think Japan first began providing aid in 1954 in the intervening half century, the country has experienced vast changes ranging from the reconstruction and high-paced growth of the post war era to the prolonged economic difficulties of recent years. These have also been par-reaching changes in the developing countries that receive Japan's aid and the last comments I think that the Education's system in Japan is good and is very interesting of other developing countries.
ベトナム	社会科学	国費	I think that so far Japan's policy toward foreign students is good enough. However, the Japanese Government should grant more preferential policies for foreign students. And, if possible scholarships should be extended for students who successfully complete their study programs & wish to study more at higher level of education.
カンボジア	その他	私費	More advices on scholarship and part-time job information are appreciated. If possible, create project in school where students can work as part-time worker for the school and spontaneously can learn from the working system here. Scholarship seems for meager nowadays!
カンボジア	社会科学		Meanwhile, I just arrived in Japan only 5 months. I have no strong comments toward Japan's policy toward students studying in Japan. But I really appreciated about Japan's Grand Aids to the students of South East Asia especially to my country Cambodia. I will do my best in order to study here and gain more knowledge in order to share burdens in the developing my country after my study finish in Japan. Thanks.
カンボジア	社会科学	国費	I think that Japan's policy toward foreign students studying Japan is very good and I would like Japanese government to provide scholarship as much as possible to developing countries, especially to Cambodia where the human resources are extremely needed. It would better if Japanese government provide PhD program for Cambodian students to apply. As I know, there are a lot of Cambodian students who want to apply for PhD program to study in Japan but unlucky that this program is not provided to Cambodia. Please provide scholarship to Cambodia for each level of study as much as possible.
マレーシア	社会科学	私費	<ul style="list-style-type: none"> • Relaxation on scholarship for student over 30 years old. • Advisory system to those that come with family.
ミャンマー	社会科学	私費	<ul style="list-style-type: none"> • To obtain the scholarship equally for example, 5万¥ per student. • To make the English Classes.
タイ	保健医療	国費	The supports from Japanese government are very sufficient and cover in many points, study life and daily-private life. It's because I get a scholarship. I may agree to increase the number of self-supporting overseas-student. However, the scholarship is necessary for "Developing country" students who have less opportunity. The point is "selection" or Criteria to choose person that is prepared to get scholarship. Finally, thank you very much for all JAPANESE that give me a good chance to be a student in JAPAN.

インドネシア	理学	私費	<p>I think Japan can increase the number of foreign students by all</p> <ul style="list-style-type: none"> • Receive at least one foreign student in each laboratory of school. • Offering study program in English for foreign student, meanwhile foreign student will study Japanese for daily life. • Support the self supported foreign student for high cost accommodation and food. • It is also helpful if every year Japanese government invite selected foreign students from every universities for hearing directly from them about the real condition and situation of foreign student facing their life in Japan. This program probably will make Japan's policy for international education program much better. • Every University publish the special University study guide program English Edition for foreign students. • Foreign students also should have experiences working in Japanese company related with their field study while in Japan (for several weeks on winter or summer vacation).
インドネシア	保健医療	私費	<ul style="list-style-type: none"> • The accommodation/houses/apartment are very expensive and students are only allowed to study for maximum 1 year at university accommodation. So, every year foreigner students have troubles to find accommodation! Not much information is available at university. If Japanese government wants to have more foreign students, they should support the students with accommodation as well so that the students do not have to move and looking for new accommodation every year. • Please make announcement for foreigner students in English as well, not only in Japanese. Sometimes we missed lots of information because we don't understand the information which is written in Japanese.
ビル フィリ	工学	国費	<p>More opportunities should be given to well deserving foreign students. Careful selection of "deserving" foreign students should be done.</p>
インドネシア	工学	国費	<p>I think the policy of increasing the number of self-supporting overseas students is very difficult for the student and not reasonable. While living expenses in Japan is very high and it is very difficult to get good part time job in Japan especially for us, ASEAN student.</p> <p>Japan should see and think its policy unreasonable way if she want have problem/trouble about foreign student in Japan. If the policy of increasing the number of self-supporting overseas students applied, it should be also opened the policy for reasonable part time job for self-support student.</p>
インドネシア	工学	私費	<p>It is a good policy of increasing the number of foreign student. But</p> <ul style="list-style-type: none"> • It will be better if every national universities (at least) provide some international classes -- English is used as the main language. • For self-supporting students, I hope government make some rules to help them in finding part-time job, or a cheap residence.
タイ	工学	私費	<p>Provide the opportunity to the overseas students.</p>
タイ	工学	国費	<p>Supply more information about living and studying. Reduce admission's procedures to Japanese universities.</p>
シア ドネ イン	工学	国費	<p>I think sufficient Japan's policy toward foreign students studying Japan.</p>
インドネシア	工学	国費	<p>As general Japan's policy foreign student has good and my self can accept it. And about increasing the number of self-supporting overseas students is very good because this become Nagoya especially university of Nagoya will go International in globalization era. I hope these policies are not affect the amount of scholarship. Because I and also most of people from my county really depend on this scholarship to support study in Japan.</p>
インドネシア	社会科学	国費	<p>特にはないですが、出来れば自分の国（この場合、ASEAN）での日本留學生活についての情報をもっと正確に提供していただければ幸いです。例えば、それぞれの国の留學生の体験の實際のストーリーを取材することなどです。</p>

インドネシア	社会科学	私費	It is getting more difficult to get exemption of tuition fee. The Monbu Kagakusho should consider to provide more exemptions for foreign students to make their living easier.
インドネシア	社会科学	国費	Provide more English information center.
ベトナム	社会科学	国費	<ul style="list-style-type: none"> • Supply more information about living in Japan & the Universities that students intend to study in. • Open more & more programs which will be touch in English.
ベトナム	社会科学	国費	Very good! Thank you very much.
カンボジア	人文科学	国費	日本に留学できて大変良かったと思います。日本語がもちろんですが、専門的技術や知識も得られる。したがって、この魅力に惹かれ、日本に留学したくなるのです。ですから、この留学生の増加策に対して、個人意見として大賛成です。とりわけ、カンボジアはずっと内戦が続いていたので、国が貧しく、人的資源が非常に不足しています。そのため、国を発展させるために、人的資源がきわめてたくさん必要です。もしこれ以上日本に留学するカンボジア学生が多くなれば、今後のカンボジアの発展にとってはきわめて重要な貢献だと思えます。どうぞよろしくお願いします。
カンボジア	社会科学	国費	外国での日本留学に関する情報提供をもっと充実にする。各大学の大学院 Fellowship の創設(できれば)。しかし、留学生を受け入れる審査も考えるべきである。バイトのために留学する学生や生活に苦しむから犯罪に走る留学生などもたくさんいるので、受け入れる時の審査にもっと力を入れるべきであろう。個人的意見ですが、役に立てば幸いです。
タイ	社会科学	国費	日本の物価、特に民間アパートや宿舎に関わる費用が非常に高いので、奨学金をもらわずに留学している人々にとっては困難であると思っています。その為、私費留学の場合、アルバイトの時間を増やしたり、家賃・礼金・敷金などの援助金を提供したりすることが必要だと考えています。
フィリピン	社会科学	国費	<ul style="list-style-type: none"> • Accommodation: Foreign students may have a regular period of stay in a university dormitory corresponding to the number of years of the studies (i.e.- 2 yr stay when the studies covers for 2 yrs; 1-yr.- if it in 1 year study program) • Academic Policy: In matters of poor academic performance, like in my case, of which I lack ample background on economics course, what proper decision should be undertaken? Will I not be allowed to re-take all failed subjects? This may be not clear but if I have the chance I could explain this personally. • Self-supporting: Since Japan make the lead of industrial development in Asia, increasing the number of self-supporting overseas students would be appropriate. Much could be emulated from Japan experience (economy).
フィリピン	社会科学	国費	I think Japan should improve its educational system. For example, universities should be given funds to be able to select their own students. The Monbukagakusho system of letting the embarking select (with students finding professor's beforehand) is such a difficult process. If the system is similar to us where students have to compete for teaching/research then the problem of unsatisfactory performance of foreign students will be lessened.
ベトナム	社会科学	国費	<ul style="list-style-type: none"> • 英語による授業の増加 • 大学院入学試験の緩和 • 日本の大学院と米・英・加などの大学との単位交換 • 大学院生のインターン・短期研修の充実 • ASEAN の大学との単位の交換

マレーシア	その他 (MBA)	私費	<p>I'm not sure why there seems to be a segregation of Japanese students from foreign students in my course, although 50% of the class consists of foreign students. For example, the Japanese tend to do their own study groups, see professors together, and so on. I hear that it's because of the language issue, i.e. when they get together, they carry out their discussions in Japanese. My masters program is in English & my position is that segregation so that Japanese discussions can be held does not help them. Besides most of the foreign students do not come from English-speaking countries too. The segregation creates an "us vs them" mentality which is unhealthy in the class environment.</p> <p>Also all that media coverage about crimes committed by foreigners (esp. Asian foreigners) is making every Asian (other than Japanese) look like a suspect criminal. The media could place equal emphasis on crimes committed by locals. Statistics have shown that the recent increase of crimes is caused by locals but it's foreigner-committed crimes that are emphasized in the news.</p>
ミャンマー	その他	私費	<p>Japan should also provide more scholarships to self-sponsoring students because they have a hard time to live and study in such a very costly country. Besides, more information on employment for foreign students should also be available, and they would also need more career counseling/support. Above all, universities need to provide more dormitories to overseas students because off-campus accommodation here is very much expensive.</p>
ベトナム	その他	私費	<ul style="list-style-type: none"> • The policy is very good. • However, Japan should remove restriction on students, rearing a probable environment to live and work in Japan. They are rich sources to offset the aging population, keeping Japan on the road to further prosperity.
インドネシア	工学	国費	<p>Japanese government has been putting a great effort on supporting overseas students to come and study in the country, that somehow incomparable to other countries. However, somehow we -the foreign students- feel that the society is still conservative and not ready to welcome foreigners in some manners. It's still hard to find a part time job, housing without guarantor or other self supporting matters that the foreign students are not getting treated equally to Japanese students. But it begins to change in a good direction. In shorter word, society has also put a cooperative efforts, not just the government.</p>
マレーシア	工学	国費	<p>It is such a good experience for being able to further my studies here in Japan. I think the Government of Japan has done their best in order to keep a very welcomed atmosphere for overseas students. It is just the matter of the Japanese themselves, whether they concern or not about the globalization in Japan but most of them do not open their mind enough to accept foreigners into their community. Maybe Japan should hold students home stay more often to correct any wrong perception about foreigners.</p>
マニラ	工学	私費	<p>I have no idea about Japanese policy. But I will try my best to reach my aim and I will become stronger if I would not die during the studying in Japan.</p>
ラオス	工学	私費	<p>As we know that ASEAN countries are not rich countries like Japan. In my case I came to Japan by Japanese government scholarship but It had ended since last year, so now I'm a self-supporting overseas student. I think many people from my country want to come and study in Japan but the biggest problem is "high price". I'm doing part-time job to support myself for tuition fees and daily life. My problem now is paying for tuition fees, I think every self-supporting overseas students want scholarship and high ratio of exemption of tuition fees, because no one wants to work hard while they're still studying. Japan is fine country but has no boader with other countries. So I think it's hard to get information of other countries as ASEAN for the Japanese, so increasing the number of self-supporting overseas student is a good chances to change culture or traditional with that country's students.</p>
フィンランド	理学	国費	<p>I think it's very good.</p>
タイ		私費	<p>I have a problem about apartment. It's so expensive for pay 敷地金、礼金</p>

インドネシア	農学	国費	I think the Japan's policy for foreign students is sufficient. There are a lot of facilities for foreign students, such as dormitory (even though, just temporary), scholarships and the system for accepted student.
タイ	教育	国費	I love Japan so much.
インドネシア	教育	国費	I think quite good.
ベトナム	社会科学	国費	Foreign students meet difficulty in renting apartment during studying in Japan, so it is much happier for foreign students if Japan has any way for foreign students finding easily in renting apartment.
インドネシア	人文科学	国費	I think it is better to give the international students a chance to be in the same class with Japanese students. By doing that, international students will used to speak in Japanese and socialize with Japanese students.
インドネシア	人文科学	私費	It's quite good.
インドネシア	人文科学	国費	The Japanese government is so kind to gave me the opportunity to study here in Japan with scholarship. I'm not having much problem when I did all the procedures to study here. So I think that it's already a great way for us to do with all the procedures that have been given to us.
インドネシア	人文科学		I didn't find any difficulties when I completed the procedures to study in Japan. I think Japan is a nice country and I don't know much about Japan's policy toward foreign students. So I can't give much opinions or comments too. Sorry.
インドネシア	人文科学		I didn't have any difficulties in entering Japan and I'm glad to study here. But sorry I don't know much about Japan's policy toward foreign students.
インドネシア	人文科学	国費	I think it is very good thing to study in Japan and appreciate what Japanese Government have done. Because Japan as a big country in economy have many unique and interesting society and culture. I think it's time to Japanese society to know more about globalisation and make a good relationship with another countries in the world through the overseas student. Thank you.
インドネシア	社会科学	国費	<ul style="list-style-type: none"> • I understand that we, the foreign students need to know and understand the Japanese language as we are now studying here. But after all Japanese language is not our mother language so we find many difficulty in studying. Please increase the number of courses and books written in English especially in the university library. • We, the students majoring in social science find that the treatment of science and social science student is different in facilities. We don't have our own studying room as science students have. Please make it equal (for example one desk for one person). • Please make the procedure of renting apartment easier or if possible increase the university dormitory. • Please give sufficient information about finding part time job if possible help the self supporting students to find it. • If possible please increase the exemption of tuition fees for the self supporting students.
タイ	理学	国費	Some technical term in the field of science should not be translated to Japanese language!?! NHK fee isn't fair for foreign students and Japanese either.

タイ	工学	国費	<p>The biggest expense for living in Japan is the apartment rental cost. It should be improve the quality of house or apartment especially it is too cold to live in the normal apartment in Kanto area.</p> <p>This kind of coldness in winter time should be suggested and informed to the student before renting those apartment.</p> <p>The clubs in university should be opened for foreign students more than this. The information about sport clubs or places for doing sports should be provided for the foreign students too.</p>
インドネシア	工学	国費	<p>The policy concerning foreign students acceptance to study in Japan is good already. The problem is only on difficulties faced by students to master the subjects taught in classes, since most of us know less than 50% (less than 10% in my case) of what the lecturers talk about.</p>
インドネシア	工学	私費	<p>Generally, it's already sufficient and flexible in Japan's policy and numbers of supports for overseas students served by Japan government. But, for additional I think in some part (e.g concerning family with children and/or family with studying (also) spouse), need more attentions (such fund, remittance, scholarship qualification).</p>
インドネシア	工学	私費	<p>Make every procedures, improve and fast, do not make for many complicated requirement, e.g. visa, admission, rent (apt. phone), etc.</p> <p>Provide dilinoyal instruction for foreigner, Kanji-reading is not that easy.</p> <p>All these simple solutions should make Japan more attractive as place of study. Increasing the number of foreign students is find as lows as the standard met and in proportional percentage (e.g. too many Chinese students compare to other countries).</p>
タイ	農学	国費	<p>Thank you very much for financial support from Monbukagakusho. That support provide me an opportunity to study and a good life quality during my stay in Japan. I agree with Japan's policies. However, increasing the number of self-supporting oversea students may not be easily achieved because cost of living in Japan is relatively high when compared with those in ASEAN countries.</p>
インドネシア	農学	国費	<p>Please give more chance for researchers and Lecturers from my county to study in Japan which are financially supported by the Japanese government and companies.</p>
インドネシア	工学	国費	<p>I think it is very good, but please increase the number of courses available in English, and also increase the number of reference books written in English.</p> <p>Please let us do our religion peacefully, do not be cautions to us because of our doing the obligation of our religion in daily life.</p>
インドネシア	工学	国費	<p>There are some different treatment for 'university recommended' & 'embassy recommended' in case of Mobukagakusho scholars.</p> <p>Perhaps it would be better if those differences are eliminated.</p> <p>Also there're only few people understand about things that Monbusho scholars could/could not do in the university. Mostly, they (the scholars supporter) don't really understand about procedures the scholar need to take in the university (admission, university transfer, etc.) And only few people in international student center who speak English.</p>
フィリピン	理学	国費	<p>- Studying in Japan is a very great experience.</p> <p>Increasing the number of self-supporting overseas students may create monetary problems on the student's part.</p>
インドネシア	農学	国費	<p>It's interesting to study and experience in Japan But it will be boring to stay longer in Japan. So, I don't know what's the reason. I think study's environment is not very attractive. There are very limited English lectures and English books. I can not express my desire to understand more in univ. library. All are in Japanese (± 90%). That's the problem.</p>
フィリピン	農学	国費	<p>Dormitory for foreign students.</p>

タイ	農学	国費	All documents from university for foreign students should be written in English, and the officers in "International Student" offices should be able to speak English.
ベトナム	その他	私費	日本の社会 とってもいいと思う。安全性が高く文化でも魅力です。私は日本の policy が好きです。気になったのは平和をまもることです。
インドネシア	保健医療	国費	Quite satisfied. If would be much better if you expand English language capability of the staff in the university (not the teachers).
ベトナム		国費	The University should have inform in English for oversea students, because it is very difficult for us to understand the information in Japanese.
インドネシア	保健医療	国費	Thank you very much for Japanese Government for giving me a scholarship to take Doctor course in Kobe University. The policy quite good, the difficult thing what I faced in study just "cannot understand Japanese". Especially in medical school. We don't have much time to study Japanese. Actually I wish I can study Japanese, more than now. Please provide for us more cheap dormitory. And please give us a change for a "school course" with scholarship for example just 2 month. So I can come back to visit Japan. Thank you from my heart.
フィリピン		国費	I am pleased with the general policy of Japan regarding foreign students studying here. The support given to the students is excellent. We just hope for maybe more staff members or a Student Affairs' Office that have more people who speak English. I am a supporter of self-supporting practice to facilitate adjustment in a foreign country like Japan. Again, the only thing I would suggest is maybe a non-government organization to handle and facilitate preparatory process interviews and application in the foreign student's native tongue.
マレーシア	保健医療	国費	The usage of English in classes for medical course are getting wider as the teachers writes and talks more in English, especially when introducing the medical terms. I hope that there will be more classes in English for the convenience of foreign students as English is known as an important worldwide language.
インドネシア	保健医療	国費	I think, generally Japanese education system and also policy are better than ASEAN countries, especially my country. However, one thing that always in my mind is the Japanese culture (I think Asian culture), which traditionally emphasizes central control instead of individuality, has in the past placed the responsibility on professor or teacher to inspire youths to participate community service or research projects. I think it will be better that Japanese educator also try to shift that responsibility to the students so that the student will more active individual initiative in working in the community. Causing by above system, same time I feel that, I can not freely have space to channeled my wild scientific knowledge. It will be better that Japanese government also give more chance to foreign student to apply research grand under supervising of the professor.
インドネシア	保健医療	国費	The policy in general is good.
タイ	人文科学	国費	In Japan, the most difficult problem for the foreign students is accommodation, because the permission for staying in the dormitory is only one year, so it's quite difficult for those students. As for the oversea students, they face difficulties with jobs. They must support themselves.
ラオス	人文科学	国費	Japan could be a new place for foreign students to conduct their lives in. In order to make those foreign students familiar with Japanese society it would take quite long time, at least two years. So accommodation for those students should be provided at least 2 years. And in order to make those students studies more effect English written materials should be more available and as for those self-supporting oversea students should be provided with a guidance organization which can provide consultation for finding a part time job.

ラオス	社会科学	国費	I think dormitory for foreign student's policy should be more considered because I don't want to change place to live so often.
ベトナム	社会科学	国費	Even that I was permitted to study Japanese for only six months. I had to take part all the lectures that carried out in Japanese during my master course. I think that it is very difficult for foreign students to understand and perceive all the lectures. That is why Japanese language education should be expanded before entering the master course.
ラオス	その他	国費	I have been in Japan almost 4 years. In general, Standard living here is quiet high referred to our scholarship. This meant most of foreigner students who receiving Japanese Government scholarship are treated very nice. However, in term of Japanese study life, In my opinion I needed more English courses for graduate level, especially in Business Administration Department. Either, increasing Japanese intensive courses before start studying regular course in each field, the high Japanese language skill is badly needed. This is the significant problem that Japanese policy makers should concern for us. Nice scholarship is not the point of educated the right way. But nice course works that what all of us are looking forward.
インドネシア	保健医療	国費	Japan needs to supply more information on living for foreign students, and increase number of courses a available in English.
インドネシア	理学	国費	I support the policy to increase the number of self-supporting overseas students as long as the current budget for scholarships is not reduced. Apparently, the living expenses in Japan is much higher comparing to other countries in Asia. Not to mention the language difficulties faced by the student. A student might prefer to choose other countries if he is self-supporting.
フィリピン	理学	国費	With regards to Japan's policy toward foreign students, I think it would be much better if they will require basic Japanese understanding. Aside from this, I think their policy is quite appropriate. As for the policy of increasing the number of self-supporting overseas students, I think, will also be of beneficial to those who really wants to study here in Japan.
ベトナム	農学	私費	I think Japan's policy toward foreign students studying in Japan, especially students who are supported by Monbukagakusho scholarship, is better than other countries. As a self-supported student, I can't say. I'm satisfied with my own life now in Japan but there's nothing to complain about it.
フィリピン	農学	国費	The policy of Japan toward foreign students (scholar) and the increasing number of self-supporting overseas students will pave the way of development in the 3rd world country and strengthen the relationship with its international community.
インドネシア	農学	国費	<ul style="list-style-type: none"> Some students that are under Japanese government (Monbukagakusho) scholarship obtains scholarship for total 3 and 1/2 years to do a Master degree (including Japanese language course). However, others under the same scholarship obtain only 3 years to do a PhD Policy for scholarship timing should be further considered. There are more potential people in developing countries to get the scholarship (compared to the ones already obtained the scholarship). Problems may be due to lack informations for these people or there is no quota for them. Government officers (in my country - Indonesia - for example) can get scholarship more easily compared to others. I find that the research program I am doing is very useful. I am now in my second year of doctoral course and already obtained many skills both in lab and reading and analyzing papers (journals).

フィリピン	農学	国費	Satisfaction depends on each and every student. If the working condition is smooth then a student is satisfied. I came to Japan with high hopes of learning new techniques and improving my skills, so that when I go back to my country, I could contribute some to the advancement of science. I guess it would be difficult if a student will be left alone and do trial and error, until he hits the jackpot. Science is something that a knowledgeable person transfers to another person. The policy in general is good. But the extremely high standard of living and high price of education may deter overseas student to try their luck here in Japan.
アマレーシ	理学	国費	<ul style="list-style-type: none"> • The policy is very good. • Provide student hostel in the universities with a cheap rental price because very easy to go university and easy to for making research at anytime.
カンボジア	社会科学	国費	I think the policy to increase number of foreign students in Japan can explore Japanese culture and economy to the world. Furthermore, it will bring up the educational level of foreign students toward Japan.
カンボジア	社会科学	国費	The policy being implemented has encouraged many foreign students since it gives much opportunity to foreign students to look for a job and provides many scholarships to them.
インドネシア	社会科学	国費	<ul style="list-style-type: none"> • In case of getting apartments sometimes students find difficulty regarding to get an appropriate house/apartments. It takes time and also some apartments/houses need day money in large amount that student can not afford it. • Not many students from overseas have enough money to support their study in Japan, especially from ASEAN countries. So it is better to maintain a such kind of scholarship like, Monbusho, JICA, etc.
インドネシア	社会科学	国費	I found it important to increase the number of foreign students to give an international environment and a good choice to exchange ideas. However, Japanese educational systems sometimes are not ready yet for changes. For example, the one way teaching (from teachers to students) has created lack of discussion and a lot of information is not available in English. Compare to other countries like UK, US or Canada, overseas students there are able to finance themselves by working as teaching assistants or researchers for example. In Japan is quite difficult to do that.
ラオス	社会科学	国費	<p>I am satisfied with conditions of my status as a JDS fellow although there are a number of restrictions applied to a holder of this scholarship. However, the period/duration for oversea research, particularly for master students, should be extended to up to two months instead of one month as at present.</p> <p>Regarding self-supporting students, particular treat concerning part-time job, exemption of tuition fees and others, should be given to students from low-income members of ASEAN.</p>
フィリピン	社会科学	国費	I am very much honored to have been given the opportunity to study in Japan. I feel the government is and has been generous and nurturing towards foreign students.
タイ	その他	私費	All have satisfied me, but it's gonna be more easier for foreign students especially self-supporting students, to be more flexible about the restrictions on part time working hours. However, I do love Japan!
ラオス	その他	国費	Thanks to the government of Japan that provides the great opportunities to overseas students, namely students from developing countries to study at the universities of Japan; different fields. Pertaining to the policy of increasing the number of self-supporting oversea students, it is a good policy to give chances to oversea students accessing the higher educational level in Japan as well.

インドネシア	社会科学	国費	<p>I think the environment for student especially Ryugakusei is guest convenient, but the difficulties in communication, especially with Japanese is limited. Because they tend to use their own language, instead of English, so for first year student it will arise problems.</p> <p>I think supporting from Japan Government to provide scholarship for other countries especially developing countries will be help full for the process of development, if it is possible providing the quota for such county will be better.</p>
インドネシア	工学	私費	<p>It's very Great, that Japan give some scholarships to developing countries, like Indonesia. The amount of money that Japan's government give to scholars in order to get life in the Japanese culture of life is enough. If it's possible please, the amount of student that can receive this scholarships increase both in the number of person and money stiffens.</p> <p>Especially in Indonesia, there was some rule that only government officer that can apply for this scholarships. If possible please give some small quota to public or all of Indonesian citizens. because to be government officer is very difficult and applicant to many, So the fail persons who have brilliant brains and want to study in Japan is quiet difficult to apply for the scholarships.</p> <p>One more, Please make some Information Center of Education in Japan. It's very important to give true Information about studying in Japan. Increasing the amount of Information center is needed.</p>
インドネシア	工学	私費	<p>The scholarship from Japanese government is looking for Coverage the foreign students from ASEAN Countries.</p> <ul style="list-style-type: none"> • Changing the Status of National University in Japan will make the changes of Tuition fees, but the scholarship, itself is decreased.
ベトナム	工学	私費	<p>I have some opinions for increasing the number of self supporting overseas students from ASEAN Countries.</p> <ul style="list-style-type: none"> • Establish more consult Centre for Japan abroad studying at ASEAN Countries. • Put a system of scholarship and school expenses exemption in operation of Japanese school in Japan. • Establish consult centre for introducing the part-time job (アルバイト) to abroad students.
インドネシア	工学	国費	<p>Give more chance for student in my country to study in Japan.</p> <p>Sometimes teacher in Japan cannot speak English fluently, so it make some trouble when the student in my country want build the communication/network.</p> <p>For my case, here is very difficult to find an apartment that representative and enough with our monthly income. They need key money, tax and others, so it is make trouble when we don't have enough saving money. Maybe the government have some rules that we don't need pay some fee when we find new apartment.</p> <p>Thank you very much.</p>
タイ	社会科学	国費	<p>There should be more policy towards tightening relationship between foreign & Japanese students.</p>
カンボジア	社会科学	国費	<p>As a Japanese government student, I was selected by using English. However, a period of one year for studying Japanese is not enough for conducting study with Japanese student. Language is the biggest problem I am facing during the class, seminar and the life while my Japanese improved during the past year, it is still insufficient to discuss various topic in the seminar class. My suggestions are:</p> <ul style="list-style-type: none"> • create special class for foreign students • eliminate some course for foreign student (eg.教養言論) • increase more Japanese language course at university. <p>I see that the current preference made by JICA is almost perfect.</p>
タイ	社会科学	国費	<p>There should be more policy toward housing/accommodation support for foreign students.</p>

ム ベトナム	留学生	国費	It is difficult for self-supporting overseas students to live in Japan where the price is very high. So that it is necessary to give them significant support.
ベトナム	その他	私費	I in absolute satisfied to be accepted studying in Japan but anyway, I would like some expectation foam Japan's policy for example: more communicated on closed communication between foreign students and between foreign students and Japanese students, take more opportunities for oversea students to enjoy Japanese living, understand Japanese cultural by such as home stay on other form.
タイ	その他	国費	should provide more information for foreign students in both English and Japanese. Some international course has a lot of foreign students and lessons in English, but all the procedures/process at university is still held only in Japanese. <ul style="list-style-type: none"> • more class in English. • improve dormitory system. I should provide enough dormitory so that no need to find apartment which is more expensive.
シンガポール	工学	私費	The Monbukagakusho scholarship is very generous. The Japan's policy toward foreign student is reasonably good. I am fortunate to study in a good and advanced laboratory in a prestigious university. The staff and students have been very helpful to me. Never these, life here in Tokyo is touch for a self-supported student, despite all the warm and assistance from the good people around me. Some self-supporting overseas students might <u>not</u> be prepared for the commitment. ASEAN comprises of countries in various stages of development. I think it is important to have one high standard of selection test for all countries. I feel that quality of the oversea students is more important than the quantity. A good overseas graduate is more likely to do well in his/her country, and attract other good students to apply to Japan universities.
マレーシア	農学	私費	I think that most self-supporting students would prefer to further their studies in countries like America, Australia, Canada, New Zealand and etc. This is because there is a language barrier if they were to come to Japan. They will have to study the Japanese language first before they can enter/apply for a university. In order to do this, time and money will be required. Usually students will look for part-time jobs for financial support but if they can't speak Japanese, then it will be a problem. On the other hand in English speaking countries, this problem does not arise because most Asian country students will be able to converse/write/read English with proficiency. In my opinion, there is 2 options that can overcome this barrier: - <ul style="list-style-type: none"> • to increase more International courses for foreign students in various fields of study (but daily activities will still require a minimum level of Japanese understanding), or • to increase the English speaking ability of Japanese citizens so that other countries will have the impression that Japanese people not only know Japanese but English also. This will help break the language barrier and attract more foreign students to Japan (especially those who deter due to the language barrier).
ネシア インド	農学	国費	It is very good, as well as the self-supporting overseas students can live proportionally in Japan.
シア インドネ	農学	私費	My opinion is quite simple: please increase the number of foreign students from ASEAN, because the Japan policy toward foreign students having trend to give priority to America or western countries foreign students.
フィリピン	農学	国費	Main problem is language barrier. English should be present in every lectures, presentation etc. Students won't learn enough if they could not communicate well to the Japanese researchers, supervisors and students. However being a Mombusho scholar, it is our obligation to learn Japanese. However, learning a language is not that easy for students who are already doing research works and those may already on their academic work.

インドネシア	工学	私費	<p>I basically agree with the policy. It will be useful for stimulating new ideas especially in research activities, which in turn will help Japanese universities to become more competitive. However, the education and research system in universities should be fixed at the same time, so that the quality of the education can be increased and Japan can attract the best talented people from many countries to study in Japan. Currently, I don't think people will choose to study in Japan using their own money, if they can enter a fairly good university in USA for example for science & engineering field.</p> <p>Anyway, good luck for the effort.</p> <p>I personally wish that Japan will succeed its effort in reforming its education system in near future.</p>
シア マレー	工学	国費	<p>Provide more effective English program for the local Japanese students so that they can communicate more effectively with overseas students.</p>
タイ	工学	私費	<p>Stop spoil Monbusho-student, and treat others equally.</p>
インドネシア	工学	私費	<p>I think universities in Japan should increase their English classes in order to give opportunity to foreign students to study wider field of study. Also, textbooks in English will be great help for foreign student to follow the classes. (textbook written in English, besides Japanese text book)</p>
タイ	工学	国費	<p>I think it's good. Need to work on Japanese classes. The levels should be separated more like, my Japanese is very good, but I still want to improve more but there's no class appropriate for me.</p>
インドネシア	工学	国費	<p>I think the main problem is that many students who want to study abroad don't want to study a totally new language. Japanese language is not so much studied in my country. Basically, all students received English lessons since Junior High School. So I think the best way is to improve Japanese language education abroad.</p>
インドネシア	工学	国費	<p>The students who will be accepted and supported by Monbukagakusho scholarship or other Japan scholarship are better if from staff of university. It is very important to increase quality of education in their country. Furthermore, this program will be helpful to develop human resources in their country.</p>
シア インドネ	工学	国費	<p>留学生の数を増すには、日本に留学するための費用が高いというイメージをなくさないといけないと思います。そのイメージを消すには学費を完全に免除したり、安い学生寮を増す努力が必要不可欠です。そうすると、留学生への負担が減って、日本への興味が高まると思います。</p>
フィリピン	工学	私費	<p>I do believe that the policy of increasing the No. of self-supporting overseas students is a good idea. However, it does not stop with that alone. I guess more than anything else Japan needs to inform & make its citizen aware of such policies as well. Oftentimes, I can really feel that some people (professor & students alike) are making you feel that "I do not belong" and chooses not to treat me like a typical student (i.e. Japanese). Within the University itself, some policies are so regressive that they bar foreign students to enjoy some benefits & were only open to Japanese students. Thus, a social-change is very much needed to prevent things like this on occurring.</p>
フィリピン	工学	私費	<p>Japan has a high standard of education. Some times keeping with the standards is very difficult. I think the main problem of foreign students who are studying in Japan is finding lodging or apartment. After the term given to stay in international dormitories, or dormitories of the university, looking for a new place to stay is difficult. Sometimes, the students must rent in a place where is very far from their university. Also, sometimes the waiting period is very long. I think, it is better if the students would have a place as until they finish what they are support to do.</p>
シア マレー	工学	私費	<p>Provided more cheap accommodation to students. Now, accommodation is the most expensive expense for student.</p>

インドネシア	工学	国費	I think this very good for Japan to increase the number of overseas students, but at the same time there are several problems. First, without increasing financial supports, especially for self-supporting students, it might be difficult to increase the number of overseas students, as living cost in Japan is extremely high, especially for developing countries. And another problem is living problem, as not every owner of mansion or apartment wants to accept foreign students, and the expense for moving into new mansion/apartment is extremely high (礼金、敷金、etc.) And averagely, school's dormitories are only available for 2 years. So I think it might be very nice if Japan can increase the number of overseas student dormitories, so that every students as possible to stay there without limitation of staying time.
インドネシア	工学	国費	I believe that policy to increasing foreign students can enhance cultural understanding and raise educational level between two countries. That's why; I think Japan government should create system to increase the number of foreign students in Japan, for example, by promoting academic exchange agreements or by actively accepting foreign students. To make qualified international students, I think that the policy of increasing the number of self-supporting overseas students must be followed by increasing of financial aid. Because of financial problems, many of international students spent their time to earn money from part-time job rather that spent their time on academic study.
インドネシア	工学	国費	In my opinion, I think that the Japan's policy toward foreign students studying Japan might be improved especially: How to made comprehensive study for research student (language course and preparation for entrance examinations; how to made study course interactive in the classroom; and how to made library that there are any books for foreign students. For me, Japan's policy of self-supporting overseas students can be increased with how to made simple procedures registration; how to reduces apartment rent for first time; how to find part-time jobs; and how to reduces insurances money.
ム ベトナム	工学	私費	To increase the number of self-supporting overseas students, I think that it's necessary to make it easier to find a room in Japan.
ベトナム	保健医療	私費	Japanese government has fair policy for foreign student study in Japan. To increase the number of self-supporting overseas students we should: <ul style="list-style-type: none"> • provide opportunities for student to help them improve their Japanese language. • reduce tuition fees. • support student arrange accommodation with good condition & reasonable price.
ラオス	保健医療	私費	I would like Japan to spread more assisting to developing countries, especially low-income countries by increasing the number of students from those countries.
ベトナム	保健医療	私費	I would like to have more fund for overseas students. And there are more information in English.
ラオス	保健医療	私費	I think overseas students from low-income countries can't be self-supported, because tuition fee and accommodation are too expensive. If student can get a job and get salary maybe they can be self-supported, but the disadvantage is their quarity of the study. They have not much of time for their study cause of their work. Therefore the policy should be appropriate compare with their income and the real situation.
フィリピン	保健医療	私費	Giving the chance to foreign students to study here in Japan is a great opportunity especially for developing countries. The things they learn here will be a great help when they get have to their own countries and also for personal development. Please continue and increase the number of students in concordance with the needs of the country. Thank you.
ベトナム	保健医療	私費	All students have at least 6 months for studying Japanese before starting courses in school.

カンボジア	社会科学	国費	I think the policy right now is fine for me because I get enough financial support for my stay here. But for one thing, that I want to suggest is that there are not so many Cambodian students that are available to get the scholarship to come here comparing to other countries like Vietnam, Mongolia and so on. So, I would be very thankful to have much people from the same country as me.
インドネシア	社会科学	国費	Japan's policy toward foreign students living in Japan was already good, the problems just language barrier, that not all Japanese speak English (and also the difficulty of reading Kanji, but these difficulties are another case, I think).
フィリピン	農学		<p>Since Japan has been accepting foreign students, universities should increase courses available in English as medium of instruction and should have English translation/versions for forms need in registration and other essential policies. Assent to this, age limit should also be relaxed so to accommodate those who have the desire to pursue higher learning.</p> <p>Also as there are increasing numbers of self-supporting or even with some support foreign students, maybe restrictions on part-time working can be relaxed or to some degree be as flexible as it could be for as long as student concerned can cope with in studies and in work. Working is the best and most practical way of acquiring skills and knowledge aside from interpersonal improvements. Besides, Japan may be benefited in some ways like the students as there are innate talents, values, and knowledge that could be shared with.</p>
タイ	農学	私費	<p>It is the good chance for students who can continue their study in Japan. The weak point is everything in Japan very expensive.</p> <p>If they can apply to get some scholarship, it will be better. But the way to get scholarship also very difficult.</p> <p>So if you come from poor family and you don't have a good level of Japanese, maybe you can't study in Japan.</p>
ミャンマー	農学	国費	As for me, it is very nice to study in Japan since I could not get or receive broader skills and knowledge rather than Japan. Culture of Japan is not much difference with Myanmar. One thing I wish to discuss is language barrier. In Myanmar, we studied every subjects in English. Thus, one person who has already graduated can speak English. But in here I see every subjects are conducted in Japanese from Primary school to the University. According to my opinion, I think it would be better to change or to increase English learning for students. With best wishes.
ベトナム	工学	国費	<ul style="list-style-type: none"> • Develop further direct relationships between Japanese University/institutions with foreign ones in education affairs. • Introduce more job consulting centers/services for self-supported overseas students.
インドネシア	工学	私費	<p>For facing the Globalization, I think Japan should open its door widely to foreign students. Therefore, it should make a better environment for foreign student to come and study in here. Considering the high level of Live Expense in Japan.</p> <p>The increasing of Exemption of tuition fees program could help a lot for self-supporting students.</p> <p>The other thing that Japanese Gov. should do is, it has to increase its later-cultural understanding program by giving a lecture about other cultures in educational level from early childhood.</p>
タイ	工学	国費	First I have to say that I know little about Japan's policy toward foreign student. However, in my opinion, I think I receive good opportunity here. I satisfy this condition. I haven't not felt difficult to live here as a foreign student. As for policy of increasing the number of self-supporting overseas, student, I think it is a good idea, it will create opportunity to other students who cannot receive the scholarship because of the limit but would like to study here. However, they should be selected carefully, and ones who actually intend to work have in the form of students should be severed out.

タイ	工学	国費	<p>I do not know much on the policy toward foreign student, but I feel that the staffs in my university are very kind to all foreign students. This makes my life in Japan very smooth. I am very thankful.</p> <p>To increase the number of self-support students, I think it is necessary to reduce the tuition fee and support them to find part-time jobs easier; other wise it is very difficult to live in such a high-expense country.</p>
インドネシア	工学	私費	<ul style="list-style-type: none"> • Sometimes we feel that the Munbukagakusho students get more facilities in the campus, ex. They enter university dormitory more easily. • Not only accepting the students, but facilitating them for extra-curricular activities. Foreign students feel to coordinate themselves into a society. They need such as place for gathering. But university does not have place can be used in weekends for example.
タイ	工学	国費	<p>I support the Japan's policy to give the chances for foreign students to study in Japan. I think it is an important factor to increase the cooperation between Japan and the students country around the world.</p>
インドネシア	工学	国費	<p>I am extremely grateful for the opportunity and supports given to me as a foreign student in Japan.</p> <p>I think not only increasing the number of overseas students, but increasing the level of cooperation with foreign university will improve the educational level in Japan further.</p>
ベトナム	工学	私費	<p>Should provide Japanese language skill for self-supporting student. I think that like intensive class (every day, 1-2 hours)</p> <ul style="list-style-type: none"> • Providing more job information, or priority for self-supporting student to get part-time job. • Providing more English institutions for overseas students.
フィン ランド	工学	国費	<p>I can not comment because I am Familiar w/ this said policy.</p>
タイ	工学	国費	<p>The whole picture seems to be quite good. The system, for me, is very good. The only problem I feel is culture problem for foreign student. Most of foreign student feel uncomfortable at the beginning and some still have such policy. So, this is botany said to be disadvantage of studying in Japan.</p> <p>To ease this problem, there should be some activity which provide opportunity for foreign students to understand JP culture and soon, such as joinery activity club, and so on. This may help, I think.</p>
タイ	社会科学	国費	<ul style="list-style-type: none"> • Provide assistance to foreign students in term of accommodation, or apartment. • Provide assistance in terms of research funds, particularly students in social science's and humanities fields. Comparing to students in science and technology field, students in social sciences and humanities have to spend white big amount of money to finance our research the due to the lack of research facilities.
ベトナム	社会科学	国費	<ul style="list-style-type: none"> • The Japanese policy toward Mombukagakusho students (as me) is quite good in term of that it allows students concentrated in studying and renewable (extendable). • The problem is it takes too long for selecting students and the time to announce candidates successful is too near the departure time. I had very few time to prepare before home. • The procedures of visa is too complicated, takes time and depressed students (even Monbukagakusho students). • Japanese Government need to develop more English-conducted courses in Japan. • The policy to collect students after they come back to their home countries also Japan can learn from other countries such as Australia. It makes that students keep interested in Japan.
ベトナム	社会科学	国費	<ul style="list-style-type: none"> • Foreign students in Japan face big difficulty in coping with Japanese language for day-to-day life. Japan can promote Japanese language teaching centers, organising cultural activities. Also more English speaking staff at universities to help students. • Living costs in Japan are very high, especially for self supporting students. The authority can introduce support scheme, for example financial support for students when renting apartment (say support for key money).

	その他	国費	Japan is the country, which offers very good opportunities for foreign students. In case of mine, I would like to thank Japanese government as well as Japanese people to provide me scholarship, this would help me be able to obtain skills, knowledge and experiences in order to develop our country. Thank you.
タイ	社会科学	私費	I think, from ASEAN point of view, coming to Japan to study especially at private university is very expensive. However, it is not that it is more expensive than going to the US or other western countries. So most of Thai students would rather go to the English-speaking countries than Japan where so little of us know about its language. So I think one thing that Japan should do if she wants to attract more self-supporting foreign students is to offer more financial support which is really rare in the case of US, UK, etc. Moreover, it should offer more English programs with professors who can REALLY speak English, because that means by coming to Japan, students will learn both English (from classes) and Japanese (in every life).
シア マレー	理学	国費	Progress more training program from all over the world especially ASEAN/Asia. With these training program, more students would have the chance to know Japan better.
インドネシア	社会科学	私費	<p>This year, I've met many Indonesian students in Japan, especially in Tokyo. Most of them study in Japan by financing from Japan Government. They got scholarship from Monbukagakusho, JICA JICE, and other agreement between Indonesia & Japan government such as JIBC.</p> <p>Many universities in Japan have opened many classes conducted in English. It is very helpful for foreigner student to participate in the class. The decision to conduct the class in English definitely attract many foreign students to study in Japan.</p> <p>In my opinion, those policies promoted by either government or Universities effectively increase the number of foreign student in Japan. And finally, those will make Japan as a destination country to study in the world along with United States in the past decade.</p>
ベトナム	工学	私費	<ul style="list-style-type: none"> • Have special policy for self-supporting overseas students in terms of: tuition fees at universities, Dormitory should be offered. • Increase the number of English courses at university.
シア インドネ	その他		Good and should maintain the policy.
インドネシア	理学	私費	<ul style="list-style-type: none"> • Increase activities in other countries conducted by Japanese Univ to increase awareness. • Add more scholarship in ENGLISH for International Students and subsidies. • Attract more privately financed students. • Add more Internship programs for International Students. • Make more International houses or International community center outside of school. • Create joint program with other univ in the world like <ul style="list-style-type: none"> a. baseball match (International-college level) b. science match • creative competitions • Assistance to get a part time/full time Job in English.
マー ミャン	工学	私費	<ul style="list-style-type: none"> • Should provide enough information and research sources in English. • Should provide employment information for overseas students.
ネシア インド	工学	私費	In my opinion, Japan's policy toward foreign students studying Japan is quite good. I have no any disavowal to the policy now.
ベトナム	工学	国費	<ul style="list-style-type: none"> • Have more dormitories because students could not afford thank you money & key money when renting apartments.
インドネシア	社会科学	私費	<p>The Japan's policy toward foreign student in Japan is quite good, and relatively easy. To increase the number of self-supporting overseas student.</p> <ul style="list-style-type: none"> • Japan should increase the quality of education • Increase number of course in English • Expend Japanese language education

マレーシア	工学	国費	Provide more facilities for overseas students such as: <ul style="list-style-type: none"> Supply international house student for overseas students living during their study in Japan. Provide Japanese language for overseas students at least six month or move in their country before going Japan.
シア マレー	工学	国費	Good policy for future's relationship and global network.
ナム ベト	理学	国費	<ul style="list-style-type: none"> Giving more information about student life in Japan though the Internet, especially by English Websites.
マレーシア	その他	国費	A very good policy indeed but Japan's academicians must be waiting share their knowledge smile heartedly and not hiding away information from foreign students. Self supporting students if possible should be given scholarship because they need require income to support their tuition frees and daily lost of living without scholarship they need to find work, thus unavoidably neglecting their studies.
シンガポール	人文科学	私費	Difficult to obtain information regarding universities in Japan. Very troubles are bureaucratic procedures especially student's documents are in English. (I had to get some documents translated into Japanese.) Procedures for getting a student visa are very inconvenient. I had to go back to Singapore to get a visa before I was allowed to stay in Japan with an official student visa.
ラオス	社会科学	国費	Problems faced by every international students are: 1) Residential period: The period of residence in government's and university's controlled apartments (Gakusei Kaikan or Ryou) is apparently too short (2-year term without renewable). 2) Guarantor: Finding an apartment is worse. Why? It costs a big amount of money (one needs at least 400,000 Yen for moving). Also, we (foreigners) are always asked for guarantors by FUDOUSANYA. Moreover, 99% house owners DO NOT accept our professors to be guarantors. 3) Safety: Living in private mansion or apartment is not as SAFE as living in student's house (Gakusei kaikan). So, how can the Japanese government help us? I suggest the followings: <ul style="list-style-type: none"> The government of Japan should reconsider/amending the "TERM of Residency" policy from a traditional 2-year term to 4-year term; or to a more suitable term for each individual. For example, those who come for Master's degree and plan to apply for PhD, should be able to stay longer. But, under the condition that he/she MUST pay 50% more of current rent after the first two years. (Example: if currently he/she pays 20,000 Yen, he MUST pay 30,000 Yen if he/she wishes to stay in that same house longer). As each year the number of foreign students is increasingly high, the government of Japan should provide/build more international houses. If the Japanese government is planning to accept more foreign students, they should not only think about providing scholarship, but to provide a safe and comfortable place for them too.
シンガポール	工学	私費	1) 英語の応用 (日本人の方々) <ul style="list-style-type: none"> 幼稚園から英語と国語の勉強の強調 英語で英語の授業を行うべきです。 2) 入試の統一 <ul style="list-style-type: none"> ばらばらの入試は外国の人にとって至難な問題です。
シア インドネ	理学	私費	The number of books as research source is insufficient, especially English.
タイ	工学	私費	The guarantor's system in Japan make everything become difficult, such as, for rent lodging and apartment, for study in school and university, etc. Please make more part-time job centers and information for supporting foreign students.

シア ドネ イン	工学	私費	Japan should help foreign students to find part-time job.
インドネシア	工学	私費	In overall, to obtain more number of self-supporting overseas students can be proceeded by more <ul style="list-style-type: none"> • Tuition reduction • Helping/guide for finding cheaper living place (dormitory, apartment, etc) • More international program study.
インドネシア	工学	私費	留学生に対する政策などは良いと思いますが、実際の生活上ではやはりそれらの政策に触れない問題がある。最も何とかして欲しいことはどうすれば外国人に対する偏見をなくすことだと思っております。その偏見がまだ残っている限り、アパートを探すとき、バイト、就職の時などに留学生は不利の立場に立ってしまうことになるのでしょうか。 I myself experience how hard it was to find an apartment. There are still a lot of landlord refuse to accept foreigner for their apartment. I hope some day this kind of thing won't happen no more.
ア シ マレ	工学	国費	I hope that Japan would take some responsibilities on foreign students about their problems while studying in Japan.
インドネシア	工学	私費	I don't know how Japan's policy toward foreign students works, since when I came here, everything was set for me and I don't have much problem with the procedures. But some of my friends had problems with the procedures, so may be by simplifying the police will increase the chance of foreign students studying in Japan.
ア カンボジ	社会科学	私費	日本の大学はもっと留学生を吸収するために、英語等での講義をできたほうが良いと思う。また、国際交流により、もっといい留学環境作るべきである。または、教育レベル(厳しさ、品質)を上げたほうが良い。
ア インドネシ	社会科学	私費	日本の教育のやりかたがまだ J-model だと思います。ですから、今のグローバル化時代とあまり合わない。特に国際大学にはもまだやっています。私の個人的にとってはアジアの学生だから、あまり問題がないですが、アジア以外の国々の学生にとっては難しいと思う。
ベトナム	社会科学	私費	As mentioned above, in my opinion, extremely high living costs in Japan have hindered incentive of developing countries students from studying in Japan. Currently, Japan is offering JDS scholarship to long experienced people in some developing countries. Actually, there are <u>many outstanding employees</u> with limited working experience (2 years) who can perform studying and working much better and more effectively than those with long experience from state enterprises suggest the JDS should consider the following 2 important issues when allocating the scholarship to developing countries. <ul style="list-style-type: none"> • Giving chance to limited experienced employees from all sectors, who have outstanding academic or working performance to compete for the JDS. • The present JDS scholarship is too high compared with other major scholarship programs offered by other developed countries such as Aus AID of Australia. Consequently, the scholarship should be divided for more students to have opportunities to study in Japan. Actually, according to my living standard, I can manage to live well in Japan with a third of the JDS scholarship. Before that, I obtained Aus A ± D scholarship which is only 1100 AUD per month to study in Australia and I lived very well. Also it is due to much cheaper living costs in Australia compared to Japan. But I wish I could have only a third of JDS amount to live here.
ベトナム	社会科学	私費	Living expenses in Japan is really high, especially transportation fee. Why does not it have cheap tickets for student, for example? Because as far as I have known in some countries in Europe. If I have student card all expenses will become only half prize. Thank you.

カンボジア	社会科学	国費	<ul style="list-style-type: none"> • I don't know clearly what kind of Japan's policy implemented toward foreign students studying Japan but one thing I am sure is that foreign students still somehow got discrimination either in employment or in educational institute. Also foreign students have the difficult time to look for the apartment. The Japanese landlord don't want to rent the apartment to foreign students at all. "Are foreign students not human beings in the eyes of Japanese people?" Another problem is there is no enough English books for students to do research. Many of the books are available in Japanese only. Moreover because of the cultural factor, foreign students are "difficult" to befriend with Japanese, which makes their life trouble during the stay in Japan. • to help foreign students, Japanese Government should do its best to reduce or eliminate the discrimination put on foreign student. It should develop educational program to change widen Japanese mindset to accept or understand more about foreign students. English language research institute should be more established.
インドネシア	その他	私費	Since living cost in Japan is very high, maybe Japan's policy should increase the scholarship for international students esp. developing country.
シンガポール	社会科学	私費	<ul style="list-style-type: none"> • Give the easier way to get a driving license for foreign students. • Develop and improve the educational system so that it doesn't confuse us (course system, language, etc.)
インドネシア	社会科学	私費	Provide more scholarship.
インドネシア	社会科学	私費	Please support us with more scholarship and information about scholarship.
マレーシア	社会科学	私費	<ul style="list-style-type: none"> • Increase the job opportunities for self-supporting students to alleviate their financial burden. • Keep in pace with international education level.
マレーシア	社会科学	私費	<ul style="list-style-type: none"> • Availability of Scholarship according to academic result as well as financial situation. • Japanese culture (i.e. language) introduce to the graduate school students. • Availability of literature (Japanese) translate into English. • Culture inter-exchange (Home stay) for 3 months.
ミャンマー	社会科学	国費	<p>In APU, GSM has insufficient Professors. It need better to invite some excellent oversea visiting professors because it is an international graduate school. For example, one major subject need more than one or two professors.</p> <p>Some professors are very good in knowledge but they cannot efficiently share their knowledge and experience and I suppose that their teaching style and assessment program has some weaknesses.</p> <p>I prefer sharing knowledge rather than competition each other. Some students are very narrow minded and unethical behavior. I want everyone care each other & respect each other in my opinion.</p>
ベトナム	社会科学	私費	The Government should provide more living expense subsidies to students from ASEAN countries.
ミャンマー	社会科学	国費	Japan's current policy towards foreign students is appropriate to both Japanese people and foreign students, to some extent.

マレーシア	農学	私費	I think the biggest problem is the 'guarantee' system in Japan. Many landlord using this guarantee system to refused the foreign student from renting the apartment. I consider this should be 'discrimination'. The second one should be the restriction on part time job. It's very difficult for us to find part time job in Japan due to the Japanese employer doesn't understand our culture and custom in the same time, restriction on part time job make us facing more difficulties on finding part time job. Without this 2 problems, I think Japan should be a country which are very comfortable to live for the foreign students.
ミャンマー	社会科学	私費	Japan can welcome more international students by having more English courses while teaching Japanese at the same time. A good example is Ritsumeikan Asia Pacific University where I'm attending now. If Japanese degrees are recognized all over the world, more students would come to Japan and these students can improve their own nations while working in a Japanese company overseas, or they can choose to attend further education.
ミャンマー	社会科学	私費	We people from poor country are facing financial problem in Japan because of high price, especially for self-supporting student. Some students are getting scholarship from government, more than enough for their living expenses. For my personal opinion, reduce their amount of scholarship and share this money to self supporting student.
ベトナム	理学	私費	<ul style="list-style-type: none"> • After three months study in Asia Pacific University (APU), that give me many good things compare with the universities that I had visited in past years; Australia, Thailand, Cambodia, China, Laos... especially, with its modern equipments uses for research purposed as well as other detectives what help students fulfill relaxing after their class time; gymnasium, forums, music activities... • Further, with the scholarship system, that support finance for many students home the hard circumstance to pursue their purpose. • However, in my opinion, excepted the scholarship for tuition, you could give more scholarship from Government, private to support for the special subjects, especially in the Doctor degree who came from the poor countries. Best regards.
ラオス	社会科学	私費	I am very appreciated and thank you for providing me and also other foreign students the scholarship to be here, Japan today. On behalf of one of foreign students would like Japan's policy consider about the condition of scholarship, please don't set up too strict condition because some scholarship still have so many conditions such as, don't do part time job, don't go out of Japan during holding the scholarship and so on. We have to spend long time in Japan, someone might be longer than 2 years or 4 years which is very long for us, so of course the feeling of homesick must happen. Compare to other countries' scholarship they don't have much condition to the holders. The holders can do what they want without limitation such as part-time, go out, go exchange with other university that is very very useful and good for earning the experience & culture too.
ラオス	社会科学	私費	Fewer part time jobs for low level Japanese ability students. Not possible to apply additional scholarship supports for those students who's got the honor scholarship. Most of the internships inside Japan require advance knowledge of Japanese. Too difficult and too accelerated Japanese courses.
ラオス	その他	私費	Fewer part time jobs for low level Japanese ability students. Not possible to apply additional scholarship supports for those students who's got the lower scholarship. Most of the internships inside Japan require advance knowledge of Japanese. Too difficult and too accelerated Japanese courses.
ラオス	その他	私費	To increase the number of self-supporting overseas students in Japan, it seems that wider opportunities of them in getting part-time jobs should be promote. In order to do that, expansion of Japanese language education is important.
ラオス	社会科学	私費	It is important to expand Japanese language in ASEAN countries. This is in order to improve Japanese language to student before coming to Japan. Also help them to understand Japanese and for daily life as well as academic level during the stay in Japan.

ラオス	社会科学	私費	<p>Japanese government should provide more foreign aids to Laos especially the aids on human resources development. Currently, Laos is lack of skillful personal and Laos considers human resources are very important forward the economic development. Therefore, the increase of foreign aid, are very necessary and highly required by Lao government. Each year the number of scholarship to Laos is still limited. If it is possible, the Japanese government should consider its human development program to Laos and provide more on human resources assistance. Hopefully, the Japanese government will take this request into an account.</p> <p>Thank you.</p>
ラオス	その他	私費	<p>I suggest that the government of Japan make further assistance and support as well as corporation in ASEAN countries, especially Laos, Cambodia, Vietnam, Myanmar which are still far behind the other member country. On the other hand I encourage that Japan government expand more Japanese language in these countries and give more educational opportunity to study in Japan.</p>
ミャンマー	社会科学	国費	<p>It can be suggested that the universities' authorities should arrange the programs to combine theoretical knowledge and real world business practices like internship program or plant trip. For foreign students it can be a great opportunity to learn Japanese societies and real world business experiences.</p>
インドネシア	社会科学	私費	<p>Give more chances of scholarship . . . !</p>
フィリピン	理学	私費	<p>Japan is doing a commendable work for sponsoring students to study in Japan, students who wanted to experience an international education and enrichment is given a chance to fulfill their dreams, provision of part time jobs is also very helpful in financing students. I am very grateful that I was given a chance to study again.</p>
ミャンマー	社会科学	私費	<p>About Japan's policy toward foreign students studying Japan and policy of increasing the number of self supporting overseas students have good and best situation especially for LDC students. They have to try hard for studying abroad in their country. Then came here and study with their self support (part time job) but sometime difficult to get part-time job, cause language barrier. Hence, students cannot effort with their own efficient capacity in studying. They have to spend time for finding money for survival in Japan. Anyway, they must try hard to study in Japan which better to study in their close countries. They can get a chance to study in Japan because of this policy.</p>
ベトナム	社会科学	私費	<p>Currently, the government implemented good policy to encourage overseas student convey Japan for education. First of all, government scholarships are lodging to foreign student know about Japanese education system. From that, increasing reputation is other concerns. Increasing number of students come to Japan for study. For promoting together scholarship programs, Japanese universities should expand courses in English to attract foreign students. (Japanese language is very difficult for student came from overseas language.) Besides, transparency, living cost very high is inconvenience to attract foreign students. In addition, to get part time job is difficult for foreign student to maintain student life. Therefore, the government should unpleasant policies to overseas the problems, so Japanese educational system will attract more foreign student to come to Japan for study like US, UN.</p>
ラオス			<ul style="list-style-type: none"> • Japan's policy toward foreign students by giving us grant aid will be fruitful and benefits to our countries in the future. However, please should not restricts oversea students much to do a part time job. • I think government should increase number of courses available in English and extend training/teaching Japanese Language education outside university with free course. • Please continue supporting the scholarships to ASEAN countries. <p>Thank you!</p>
タイ	工学	私費	<p>日本語そのものは英語よりずっと難しい。 4年間勉強してもなかなか日本人と通じない。東南アジアの留学生に対して、軽蔑する日本人は少なくはない。</p>

フィリピン	その他	私費	<p>I think the problems that will arise due to Japan's insufficient policies and lack of proper handling of individual cases will increase with the inflow of awe foreign students.</p> <p>A foreign student without any preview knowledge of Japan and the language will encounter extreme difficulties and pressure to a point unbearable.</p> <p>I myself and did not feel any guiding hard when I arrived here in Japan. It was a good thing I spent a year in Tokyo, prior to coming to my present University.</p>
タイ	人文科学	私費	<p>タイ人の私にとって、2年間日本語を勉強するだけではまだ足りないと感じる。2年間日本語を勉強してあと1年間自分の学びたいことを専門的に教えてもらえばいいと思う。少なくとも、専門用語や日本についての基本的な知識などである。</p>
マレーシア	芸術	私費	<ul style="list-style-type: none"> 私費留学生に対して奨学金もっと欲しいと思います。 私立大学/芸術、美大、芸大などの学費は非常に高いですから、美大生に対する奨学金がもっと欲しいです。 日本での留学生が犯罪を起こして、他の留学生の印象が悪くなるので、なんとか留学生に対してのカウセンリングがもっと必要だと思うました。 優秀ではなく、こつこつやっている学生に対して奨学金があればいいなと祈ります。
マレーシア	その他	私費	<p>学生の増加策に関しては良いことだと思います。しかし、学生が増えたら、奨学金を取るのが難しくなり、資格もきびしくなります。ですから、奨学金は留学生にもっとくれれば、勉強の時間も多くなり、生活費と学費も心配しなくていいと思っています。</p>
タイ	その他	私費	<p>各大学で特別のコース（留学生のためのコース）があれば、留学しやすいと思います。例えば、大学の各専攻向けの日本語コースや日本文化の理解のためのコース、など。</p>
マレーシア	工学	私費	<ul style="list-style-type: none"> マレーシアでは中国系（華僑）が日本国費をなかなかもらうことがない。公平にしてもらいたいものです。 国立大学（特に首都圏の）が入学者の国籍別を顧慮して、入学させること。というのは、知っていると思いますが、中国からの留学生が多すぎて（総人数の約5割）入学チャンスが減ってしまいます。 ASEANからの留学生向けの奨学金を増やすこと。というのは、ASEANの国の中で、自費で日本留学できる力があるのは多分シンガポールしかないと思うからです。 不法滞在者をきびしく取り締まること。安全な社会治安を維持すること。 留学フェアをもっと多くしてもらいたいです。 企業に留学生を受入れることを勧めてもらいたい。
タイ	その他	国費	<p>もっと留学生の支援があって欲しいですね。例えば、大学の奨学金、アパート探しの相談や留学生寮の数を増やすことなど。</p>
マレーシア	人文科学	私費	<p>まじめに勉強しようと思った私費留学生は、経済的な面が国費留学生より恵まれてないため、生活費は、アルバイト。また学費はいい成績で免除されても、家賃の分だけがなかなか難しいことでもあります。できたら、安く住める寮などがほしいです。</p> <p>私にとっては、日本の留学にいろいろ大変なことがあっても、自分の夢が実現できるだけで、十足幸せで満足しています。</p>
マレーシア	工学	私費	<p>日本で英語をあまり勉強できないので、皆来たくないと思はる。</p> <p>授業は日本語ばかりで、国に帰っても、日本語はあまり使わない。論文とかは全部英語に直さなきゃならない。</p> <p>新しい言語を勉強するのは難しい。日本の大学に進学する前に、日本語を勉強しなきゃならない。日本語だけ勉強するのは時間の無駄だと思う。</p> <p>日本語学校の設備を整えること。日本語の他に、基本科目もちゃんと教えたほうがいい。基本科目の授業の時間は短すぎる。日本語の授業の時間は長すぎる。</p>
タイ	人文科学	私費	<p>私費留学生を増加しようとしたら、私費留学生への支援も増加した方がいいと思います。例として、奨学金、授業料の減免、アルバイトの制度（留学生のためのアルバイト情報センターなど）</p> <p>又、留学生と日本人の交流活動の増加も必要です。日本人を日本語学校で交流させるのではなく、留学生を一般的な祭りやイベントに参加させるチャンスを増加すればと思います。</p>

マレーシア	社会科学	国費	“There is always rooms for improvement”.
タイ	人文科学	私費	日本留学についての website があればいいじゃないかなと思っています。 (留学生活、アルバイト情報、留学生相談、留学生のアパート検索などできるもの)

タイ	工学	私費	日本留学生政策の標準に印象を受けている。 私費留学生の増加であることから、みんな興味のあるでしょう。
インドネシア	その他	私費	日本留学希望者の増大のために、日本政府は各 ASEAN の国において、今までの情報提供の進み具合を改善すべきだと思う。又、入国手続の改善も必要だと思う。
インドネシア	農学	私費	日本の学費を減らしてくれれば、いいと思います。
ベトナム	社会科学	私費	Japan is generous to provide scholarship and accept students from developing countries to study in Japan. However, in order to improve the system and policy for accepting overseas students, it is suggested that number of courses available in English should be increased and number of self-supporting overseas students to be accepted to study in Japan also should be increased and facilitated. Considering that the living expenses in Japan is very high and expensive, it is highly appreciated if Japanese government could support students from developing countries in accommodation expenditure, transportation, communication and study and research expenses or consider to increase the monthly stipend taking into account the above mentioned expenses. Thank you very much.
インドネシア	社会科学	国費	So far, Japan's policy toward foreign students is quite appropriate. But something should be done to the enhance procedures, re-entry procedures (re-entry permit should not be exist at all, as long as visa's still eligible), and scholarship's amount (because of the high prices). The problems in scholarship's amount (in yen) and self-supporting students could be avoided if Japan's government increases the monthly allowances or provided a source of funding (e.g. part-time jobs) to foreign students.
マレーシア	工学	国費	<ul style="list-style-type: none"> • I thank you for the generous scholarship from Monbukagakusho to make my stay in Japan comfortable, which I cannot say for private students. They really have to work the hell to earn the fee & living expenses. • I do not like the tutor or so called R.A. (resident assistant) system whereby the Japanese are being selected to assist the new comers. Many overseas students are much more experience in handling these matters, asked for instance how many of the young Japanese have actually rented an apartment on their own, they can never understand the feeling of discriminations that are faced. That's why many overseas student would prefer approaching fellow overseas students for help instead of facing double discriminations from the Japanese students. • Japan has to ask if we are here just to make up the statistics because many students feel being neglected after their arrival, the cold treatment from the lab members due to language barrier they feel that their professors is taking them in because of the “fat” allowance allocated for each of the Monbukagakusho student that is taken (so the rumor said!) It is extremely difficult to change your professor or university once arriving & the faith of the students is very much at the disposal of the professor. This creates a very unhealthy relationship whereby the students have to shallow the pride until the end of the course & leave Japan with all the bitter experiences.
ラオス	保健医療	国費	In my opinion, regarding Japan's policy toward foreign students study in Japan should expand to develop countries. Particular the level education is low countries.

マレーシア	社会科学	<p>Japanese Government may want to look closely at number of issues that hinder the ASEAN students from getting education in Japan, such as.</p> <p>A) Studying in Japan is very costly compared to studying in ASEAN countries, due to: -</p> <ul style="list-style-type: none"> • Study fees are much higher than in ASEAN countries; • Cost of living in general is at least three times higher than in ASEAN countries; • House rental system is very taxing with 'Key Money' on top of deposits and landlords are insisting for Japanese guarantor; • Students have to spend extra year (therefore extra expenses) to study Japanese language before entering university, whereas they can enter the university directly if they go to English speaking countries; • It is generally observed that education in Australia and New Zealand is cheaper than in Japan; and • The recent Yen appreciation against US dollar and ASEAN currencies has made the matter worse. <p>Having those facts, only wealthy families with special reasons can afford to send their children to Japan for education. For the average Malaysian parents the high costs are the major obstacle for them to send their kids to Japan for education. In fact, wealthy families also prefer to send their children to English speaking countries for education, as English competency is an important prerequisite for getting good jobs in Malaysia. Owing to above mentioned reasons, there are less likely for self-sponsored students to come to Japan for graduate and post graduate studies.</p> <p>B) There are some observations by my friend who said that though some lectures were supposed to be bilingual (as stated in the graduate school's website and pamphlets), the professors were only using Japanese and the lecture materials were all in Japanese. Some students feel their time and money are wasted as they could not follow the lecture. A standard guide line should be developed for universities to offer the course in English. At least the lecture note should be made available in English.</p> <p>C) ASEAN countries are not using Kanji in their education system. Even if they manage to acquire a perfect KANJI or a perfect Japanese language they will not be able to use it when they go back to their country, because the daily and official communications are either in English or the national language. Practically it is impossible for students (graduate students in social sciences in particular) to effectively learn and use KANJI and Japanese language in their thesis writing if they just learned it for a year or two. Learning KANJI and Japanese Language is very interesting and important for survival in Japan. But to use them in academic writing is a bit too much to cope. Even my friend from China who is here for 8 years now is still having a great difficulty to write his thesis in good Japanese language (I personally hear the complaint from his professor). Therefore insisting ASEAN students to have a certain level of Japanese language before they can enroll into Japanese universities will only make Japanese universities less attractive to ASEAN students. Practically, they will only consider Japanese Universities if the courses are taught in English. This is not to deny that there are a number of Japanese universities that are moving towards this.</p> <p>D) I have never heard of any promotion about Japanese education in Malaysia. While the UK universities (through the British Council), some Australian and American universities have their annual education fair in Malaysia.</p> <p>I have four comments to make as per attached.</p> <p>On top of that, for Q9, though I have chosen Three items, all other items, except item D, are very important for the Japanese government to give due attention.</p>
マレーシア	保健医療	<p>It is need to give more opportunities to get job here, job might be need to coincide with qualified person for suitable field. In Japan, due to language and some (eg. impossible to get medical or other professional licence), it is still difficult to get qualified suitable work for qualified foreign students. Therefore, it may be still need to give some good works to qualified foreign students. By upgrading this need, foreign students will be get more money and more spend for higher educational expense.</p>

シンガポール	社会科学	国費	<p>My impression is that students without a full scholarship from Monbukagakusho have a very difficult time: (a) making ends meet; (b) finding comfortable and affordable accommodation that allow them to focus on their studies. I think accommodation is critical and more facilities like the Tokyo Academic Park should be built throughout Japan.</p> <p>Applicants should demonstrate the financial resources to support their stay in Japan before getting a place in a university. Otherwise, the problem of overseas students working full-time and studying part-time will arise again. But if students here adequate resources academic qualification, there is no reason not to let them through.</p>
インドネシア	理学	国費	<p>If Monbukagakusho supports foreign students to study in greater areas Tokyo, they should concern about the high price of everything.</p> <p>So, in the future I hope that Monbukagakusho would give some supports to the accommodation and health care of the students in greater Tokyo areas who live outside universities dormitory.</p> <p>For the self-supporting overseas students, I think it would be difficult to increase their number for students from Indonesia but it may be possible from Singapore, Malaysia, Philippines and Thailand, because the economy crisis in Indonesia.</p>
タイ	社会科学	私費	<p>I think that the cost of living in Japan is quite high and it make a problem with some students.</p> <p>It is a good way to provide some discount to student such as food, apartment and so on. (especially the tuition and Japanese class.)</p> <p>The school (government) should provide free Japanese lesson to the international students.</p>
マレーシア	工学	国費	<p>In my opinion, Japan's foreign policy student policy is one of the best among the developed countries. Japan indeed a good and responsible 'host' for us. I like to thank Japanese Government for granting me the Monbukagakusho Scholarship. If I don't receive this scholarship, it would be impossible for me to continue my study here (as the cost of living is very very high). I might consider USA, other European countries or other English speaking countries which have wider opportunities and prospects (and the having cost not as high as here).</p> <p>I think in order to increase self supporting students, the number of working hours (arubaito) limit should be relaxed and let the student work more; 28 hours per-week would not enough to cover both living and tuition (school fee) expenses. Or create 'loan' which the student can pay back when they get job after graduated.</p>
インドネシア	社会科学	私費	<p>More English information available.</p>
インドネシア	社会科学	国費	<p>Foreign student should be allowed to take part time job to give them the Japanese working culture. Improve Japanese language and have Japanese friends/network.</p> <p>With the extremely high cost of living in Japan, the possibilities to increase self supporting overseas students is very low.</p> <p>Even with current scholarship, there are some foreign student who cannot afford their live only from scholarship.</p>
ミャンマー	その他	私費	<p>Myanmar is LDC. The living costs of Japan is very high. If the policy of increasing number of self-supporting overseas students effects to decrease the scholarship awards, the amount of students from Myanmar will decrease. I think Japan needs to increase the amount of scholarships for ASEAN countries (especially Myanmar.)</p>
インドネシア	社会科学	国費	<p>Thank you for giving me the opportunity to study in Japan. I think Japan is a good country to live in. I had no worries at all about crime or so. That made me focused on study – This is probably one of the advantages of studying in Japan: Japan offers a conducive situation to study. Of course, to understand deeper about Japan. I have to study Japanese tender and master it within 1.5 year as a 研究生. Therefore, providing foreign students with sufficient language course is very important.</p> <p>Overall, I like Japan in most aspects than I like my country.</p>

タイ	保健医療	国費	Should give good informations about curriculum of university here.
マレーシア	社会科学	国費	<ul style="list-style-type: none"> • To provide more facilities in terms of Japanese language teaching. • If classes are conducted in English, provide more lecturers who are proficient in English. • To organize more inter-cultural activities between Japanese and Asian students.
タイ	社会科学	私費	<ul style="list-style-type: none"> • 私は私費留学生なので、今年はやっと学習奨励費奨学金を頂いて心よりありがとうございます。もっと勉強する時間を作れるようになりました。 • 日本に留学できた方はたいていバンコク（都会）にある大学の学生さんが多いそうですが、これからバンコク以外（郊外）にある大学（国立ナレースワン大学等）にも奨学金や交換留学生システムなどを与えて頂きたいと思っております。
インドネシア	その他	私費	I hope Japan can provide more stipend (support) for those who bring their family to Japan, especially for student who study more than 1 year in Japan.
シンガポール	工学	私費	I do agree with another fellow Singaporean here that the Monbukagakusho scholarship is very generous. The Japan's policy has been fair. It is great studying and conducting scientific research here. However, the cost here is very high. Being a self-supporting overseas student, life is not easy in Tokyo. I am fortunate that my professors and classmates are supportive. They have made my life here easier. But I still think that it takes a lot of personal commitment and sacrifices to pull through. I doubt if all the self-supporting overseas students are prepared for the "toughness" when the number is increased.
カンボジア	その他		I think the current policy of Japan toward foreign students is right. It has given the chance to both students in the public and private sector.
ベトナム	社会科学	国費	Policy: very good, open to foreign students. Support: Excellent.
ブルネイ	その他	国費	Japan should give the provision for more foreign students to study in Japan. Language could be the barrier for foreign students to decide to study in Japan. Therefore, in order to attract more students, probably, more Japanese language classes should be offered at home country. Ability to master the language before coming to Japan or deciding place to further study, would give confident for student to choose Japan as the place to further study. Another suggestion would be by offering course in English.
フィリピン	その他	国費	It is good to note that Japan has tremendously increased its number of foreign students. However, Japan's effort to increase international students should also be coupled with an increase in the number of international researchers & professors. As for, increasing the number of self-supporting overseas students, Japan should continue this more because scholarships are limited. There should also be a mechanism where part-time jobs for self-supporting students is publicized through the internet.
タイ	工学	国費	Please supply more information to find lodging and apartment for overseas students and please make the same standard of staying in dormitory, for example, 2 years for all of overseas student including Tokyo Institute of Technology.
タイ	工学	私費	I think it is a good idea to increase the number of overseas students.
カンボジア	その他	私費	Well, the policy of Japan is good but a bit complicated for me, so you have make it easy and clearly for foreign students especially for ASEAN' Students. Such as the relevance document for your government to process to visa to Japan and the regulation of each universities must be clear and easy to understand. I mean that some universities are strictly, same universities are not for my self. I really like to study and enjoy my life in Japan very much because Japanese people are very kindly and friendly like my people. Moreover, Japanese people work very fast and smoothly. The transportation are very convenience so and so. I strongly hope that you might understand my meaning.

ミャンマー	保健医療	国費	<p>Suggestion</p> <ul style="list-style-type: none"> To arrange the accommodation & lodgings such as TIEC, for all the foreign students throughout their study period. Lecture should be conducted by English as much as possible for foreign students. 	
ベトナム	その他	私費	<ul style="list-style-type: none"> The policy is very good. However, Japan should remove restrictions on foreign students, healing flexible policies, helping them to adopt Japanese environment. 	
ベトナム	社会科学	国費	<p>Japan's policy toward foreign students studying in Japan is good, supportive policy. Policy to increase the number of self-supporting overseas students is feasible if these student can receive more support interims of part-time job, apartment.</p>	
タイ	工学	国費	<p>Alumni after graduation should be strong and proactive to promote <u>educational exchange</u> for life-long period since one's returned to home country.</p>	
ベトナム	社会科学	国費	<p>For me, the support of Japanese organizations (JICA, JICE, and my university) is highly appreciated. Everything is perfect. That is why I do not have any problem living and studying here.</p>	
インドネシア	社会科学	私費	<p>Good job!</p>	
ベトナム	社会科学	私費	<p>I think that Japan has been pursuing very good policy by providing scholarships or other financial supports to foreign students who are working for Government's organizations of foreign countries. In the long term, this policy would bear mutual benefits for both foreign country(ies) and Japan.</p> <p>I suppose that Japan should continue using this policy.</p>	
ベトナム	その他	国費	<p>The scholarship is not enough for me to buy books because the price in Tokyo is expensive. Others, no opinions. I have no comments or complaints about Japan's policy toward foreign students studying Japan.</p>	
ミャンマー	その他	私費	<p>I think, I see everyday, everywhere which Japanese letter. So, compare with English language. At the station, like that, we don't how to find the way. House lent charge is very expense. So we try to enough our scholarship.</p>	
インドネシア	人文科学	国費	<p>I think I would be a bad idea, because the cost of living in Japan itself already became big obstacle to foreign students in Japan. So if the number of self-supporting overseas students number are going to be increased, I don't think the students especially from my country can afford to it. It's too expensive for us.</p>	
インドネシア	工学	私費	<ul style="list-style-type: none"> 大学は知識や技術を取得するための勉強道場である。 求められるレベルに達する者は自分の努力にほこりをもって率業する。 これらを基にして、大学の質を高いレベルに保てば、本当の意味での留学生が自然に増加すると思う。 	
インドネシア	工学	私費	<p>私が国インドネシアでは（他国は異なるかもしれない）日本の情報（教育や生活や文化など）が少ないという気がします。インターネットで探しても英語で書いてある情報に限られます。使ったパソコンの operating system が英語版ですから日本語がうまく表示できません（2000年の状況）。現在、日本の通信技術、特にインターネット関連技術は2000年に比べて大きく変化すると思いますので、この情報をホームページに載せればと嬉しいです。</p> <p>奨学金を得るためには年齢制限より実力のほうを評価するといいです。</p> <p>就職活動をするときにあることを思い出した。企業が留学生を希望するかどうか留学生側は分かりません。お互いの時間など無駄をしないように留学生募集してないという情報ははっきり言っていただきたいです。</p> <p>以上、私の意見です。宜しく申し上げます。</p>	
ア	マレ	工学	私費	<p>奨学金の審査の不透明点について改善して欲しいです。</p>

マレーシア	工学	私費	<ul style="list-style-type: none"> • ないように見えるが、実際は多大に存在する外国人差別を徹底的になくす。法的な手段ではなく、日本人の各世代（年齢層）の人に教育を与え、国際感覚をつけてもらうこと。 • 留学生増加が目的ではなく、ある政策の副効果になるのが一番いい方法ではないかと思います。先生の質、日本人のコミュニケーションの向上（話すとき床を見るなど悪いくせをなくす）、日本社会で英語だけではなく、諸外国語が普及することが大事ではないかと思います。 • 留学生数の国、地域の平均化。中国、韓国、台湾三国で80%上回るのはよくないです。 • 人間を大切に扱うことです。日本人が優れているという考えはすぐ伝わります。同じ人間でありながら、俺らも彼らに何か学べないかという考え方は、これから日本の経済解決最高の方法だと思います。同時に、留学生の数が増え、少子化による日本教育機構の崩壊にならないように。 • ASEANの先生を導入する。 <p>いろいろお世話になり、ありがとうございます。</p>
ラオス	その他	国費	<p>I know that Japan's once country which high quality of education and high technology and strong social economics.</p> <p>I'm very great to study in Japan. It's let me know Japan more, and feeling Japanese culture.</p> <p>My opinions that: Japan government should have some policy to foreign students studying Japan who want advance to higher education in Japan by scholarship, and policy of increasing the number of self-supporting overseas students come to studying Japan such as South East Asian which poor country.</p>
タイ	人文科学	国費	<p>I used to study in two national universities. One is in the countryside, the other is a famous one which is located in the urban. I've found some differences that one has while the other hasn't. Such as the technology, the numbers of foreign students and the relationship between local people and the foreign students.</p>
タイ	人文科学	国費	<p>Be fair to all students in consideration of granting.</p> <p>Please do not delay or shorten the period of study program without reasonable explanation.</p> <p>In my case, I was delayed to come to Japan without reasonable explanation from the government agency while others (in the some program as me) could come and attend the university on time. As a result, I have suffered so much from study since I can't have much more time to adjust myself to the course or even prepare myself well enough for doing research.</p>
ベトナム	工学	国費	<p>Expand Japanese language education in other country.</p>
フィリピン	工学	国費	<p>Increasing the number of accepted students/scholars per year is a very noble way of developing healthy relationship with countries around the world. If the government's budget however is decreasing (for example if the Japanese economy is not so good). I think the better option would be to decrease the number of scholars to accept, other than to decrease the scholarship of those already accepted persons, with regards to increasing the number of self-supporting students - this, too is a very noble way of helping other countries but of course, jobs or part-time jobs for this matter should also be increased. Adequate Information should also be available to every student designing to have a job.</p> <p>Since Japanese is very difficult (especially to those who don't have any background yet). I think it would be better if there are English translations of Japanese materials like web-sites, pamphlets, etc. and more English reference/books must be available in the libraries.</p> <p>Thank you very much for the scholarship you provide to us!</p>
フィリピン	社会科学	国費	<p>Once a research student takes entrance exam for masters or doctorate, she or he is automatically accepted, give consideration to the foreign research students taking the Japanese entrance exam.</p>

ミャンマー	工学	国費	Please consider for Myanmar as a exceptional case. At Research Student Programme, Japanese Government give only two years scholarship for Research student. Therefore, most of students from Myanmar can't get Master's Degree. Because they are very difficult to get extension. So, they are finished only Research Student and it is very lose job himself or herself and Myanmar. Because of unfinished. Master or Doctor degree. Hence, I request to the consider that research student programme for Myanmar as a exceptional case to finishes their study of Master's Degree or Doctor Degree without asking extension from their country.
ベトナム	社会科学	国費	帰国するお金がきびしいです。
	工学	国費	Thank you for Japan's policy toward, I wish this program can be continue for foreign students especially for ASEAN countries.
ミャンマー	理学	私費	<ul style="list-style-type: none"> • For Oversea students, Manbukagakusho Scholarship should be awarded did not only government staff but also those are working in Non Government Organizations (NGOs) and private foundations for the development of community. • Universities which accept foreign students should use Japanese as well as English as official language. Most of the Oversea students who are still incompetent in Japanese encounter money problems in terms of reading official letters and announcement. • It should be arranged to get more opportunities for part time job for the students who do not get sufficient funding for their education.
ラオス	工学	私費	<p>I have been working for my Governor (Electricity of Laos) before I came to Japan. (Till now I am as an employee too) I was participating a completion for a scholarship of Japanese Government in my country and I succeed it.</p> <p>I came to Japan as research student and wished to study till a doctor course but I have been a trouble to extension for my scholarship, because I have had lost of information how to extension a scholarship. So I wasn't table to continue to study.</p> <p>However the Master level is very importance for my job where I have been worked. I need it before I come back to my country.</p> <p>Right now, I am a private student in first year of my master since April 2003. I am trying to take a part-time to provide for my living cost, Accommodation fee and tuition feeds. If compare the standard of living cost between Japanese and me I have no any standard for living in Japan. Sometime I wouldn't understand by myself why I was choiced for my study in Japan too.</p>
ミャンマー	その他	国費	I think, Japan's recent policy upon ASEAN is quite good. I have nothing to say other.
ベトナム	工学	国費	<p>As for me, the policies of Japan toward foreign students is very good. We are given all necessary information and supports relating to our life and study.</p> <p>In order to increase the number of self-supporting student, Japanese embassy abroad should provide more information about education in Japan and Japan Universities itself should have some ways to spread its information to oversea student and continue to raise education quality at the same time.</p>
インドネシア	社会科学	国費	Japan government should facilitate universities with more programs conducted in English.
インドネシア	社会科学	国費	It is very kind of Japan government to give scholarship to overseas students. It would be difficult for overseas students to do a self supporting study, except if the part time job restrictions is lifted, because the living cost in Japan is so high.

ベトナム	工学	私費	<p>日本の物価、学費、生活費が高いので、勉強したくても、勉強に集中できない私費留学生が多いと思います。できるだけ経済援助（奨学金、学費免除などの形で）してほしいと思います。</p> <p>また、大学では、奨学金を申し込む時に、学内推薦という制度がありますが、この学内推薦は留学生センター、国際交流センターで行われています。不透明なので、多くの留学生がこの学内推薦に不信感をもっています。ぜひ、学内推薦基準を公表してほしいと思います。</p>
ラオス	人文科学	国費	<p>日本の留学政策改善について、私が最も関心を持っているのは日本でインターンシップできる活動を望んでいる。なぜなら、日本の大学だけで学んでいる学問・分野をどのように自分の国で生かすのかはまだ分からないので、もし、ある程度日本で習った専門を日本で活用し、得た知識や経験を自分の国に取り入れることができれば、自分にとっては非常に役に立つと思うからである。</p> <p>私はこれから留学生のためのインターンシップや就職支援などのような活動を期待している。</p>
タイ	その他	国費	<p>Intensive course of Japanese language before and during studying in Chiba University. Japanese courses should be classified into more types, such as kanji, reading, listening and pronouncing, etc. and provided a class for the student who apply for ikkyu or nikyuu examination (Japanese language test).</p>
