

## **Workshop WS 05:**

### **“Evaluation Capacity Development for effective Evaluation and Monitoring System”**

**23 November 2016**

**Naonobu Minato (Japan)**  
**E-Mail: [nminato@iuj.ac.jp](mailto:nminato@iuj.ac.jp)**

## **1. Introduction**

- In order to achieve SDGs, sustainable development in both private sector and public sector is needed.
- Evaluation and Monitoring system should be induced in public sector.

## 2. Background

- Purposes of evaluation are firstly for accountability and transparency, secondly for management and administration, and thirdly for lessons learnt.
- Purpose of monitoring is improvement of the quality of an ongoing project through proper option and management.

3

---

## 3. Establishing effective Evaluation and Monitoring System (1)

Evaluation

- Objective
- Purpose
- Time and Period
- Method
- Evaluators and evaluation teams
- Expenses
- Reporting

4

### 3. Establishing effective Evaluation and Monitoring System (2)

#### Monitoring

- Information to be collected
- Staffing, timing, method
- Information aggregation
- Decision making
- Means and timing for feed back

5

---

### 4. Several aspects of Evaluation Capacity Development (1)

- Demand and incentive for evaluation / bridge between evaluation and policy making
- Institutions such as law, rule, manual, guideline / players behavior may change
- Organizational custom, culture, tradition / awareness
- Clear roles and responsibilities

6

## 4. Several aspects of Evaluation Capacity Development (2)

- Learning organization / opportunities for host organizations
- Reliable information
- Independence and neutrality of evaluation Dept. and evaluators
- Human resource / knowledge and experiences
- Professional career / certification

7

---

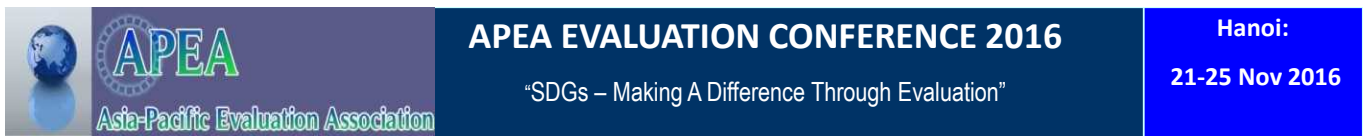

## 4. Several aspects of Evaluation Capacity Development (3)

- Correct incentives for evaluators to implement high quality of evaluation
- Ethics (Responsibilities for General and Public Welfare / Integrity / Respect for people / Independence / Systematic inquiry / Utility / Competence)
- Others

8

# 5. Conclusion

- By establishing evaluation and monitoring system and enhancing evaluation capacity development, policies, projects and public services would be improved.
- These positive change might contribute to achieving SDGs.

**Thank You**
