Background on the NEPF

REPUBLIC OF THE PHILIPPINES
NATIONAL ECONOMIC AND
DEVELOPMENT AUTHORITY

NEDA and the Department of Budget and Management developed a national evaluation policy framework, through Joint Memo Circular 2015-01, signed 15 July 2015, for the **purposive conduct of evaluations in the public sector** in support of good governance, transparency, accountability and evidence-based decision-making.

The NEPF requires the government agencies to:

- (a) Prepare rolling six-year evaluation agendas,
- (b) Submit evaluation plans with their program/project proposals,
- (c) Provide adequate response on findings,
- (d) Use evaluation results for planning and programming, and
- (e) Set up neutral and capable evaluation units.

The **Evaluation Task Force (ETF)** shall develop a National Evaluation Agenda which spells out the evaluations to be which focused on **themes, sectors, or programs** that concern multiple agencies; **meta-evaluations of evaluations** conducted by implementing agencies and other entities; and on **specific priority programs** that are critical to the success of the Philippine Development Plan (PDP), and the Public Investment Plan (PIP).. **NEDA shall provide Interim Secretariat support.**

The Monitoring and Evaluation (M&E) Fund

Supports NEDA Key Result Areas on the National Development Monitoring and Evaluation Program through the conduct of evaluation studies and capacity building activities

- Aims to strengthen evaluation implementation and management capacities in NEDA and the implementing agencies
- Seeks to enhance capacities in government on engaging the public in monitoring and evaluation of priority programs and projects

I. NEDA-led track

- NEDA-initiated evaluation activities (conduct and management of studies and capacity building activities)
- Procurement guided by GPRA & IRR / RA 9184, NEDA Central/Regional Office BACs
- NEDA-Monitoring and Evaluation Staff as Secretariat
- Approving body is the M&E Fund Steering Committee

II. NEDA-UNDP Strategic M&E Project

- Partnership Agreement with UNDP (since 2018)
- M&E Funds transferred to UNDP to commission thematic evaluation studies, capacity building activities, advisory services, and M&E systems
- NEDA-Monitoring and Evaluation Staff as Evaluation Manager
- Procurement guided by the UNDP Procurement Policies and Procedures
- Approving body is the Strategic M&E Project Board (co-chaired by NEDA and UNDP)

The NEDA-UNDP Strategic M&E Project

REPUBLIC OF THE PHILIPPINES
NATIONAL ECONOMIC AND
DEVELOPMENT AUTHORITY

Primarily aims to strengthen the M&E capacities of the national government to support the achievement of the Philippine Development Plan (PDP) as well as the Sustainable Development Goals (SDGs) through evidence-based decision-making

Commissioning Evaluations

- Roster of evaluators established
- 9 thematic evaluations commissioned
 - 5 completed studies (ARTA, PPAN, PAMANA, MSME, and CCA)
 - 4 ongoing studies (ECCD, AWA, DLM, and Mandanas study)

Advisory Services

- NEPF guidelines formulated
- National Evaluation Portal developed
- M&E Forum held in 2018 and 2019
- Community of Practice revitalized
- Monthly M&E Webinar Series in 2021 (February to December)
- Crafting of National Evaluation Agenda & Toolkit

Capacity Development

- 8 agencies supported to implement the NEPF guidelines through evaluability assessment and training
- Development of Capacity Development Plan conducted
- Crafting of Competency Framework for Public Sector M&E

Management Information Systems

- Programs and Projects Monitoring System developed
- Matching Algorithm between NEDA-DBM databases conducted

COMPLETED NEDA-UNDP COMMISSIONED STUDIES

1

Assessment of the Implementation of the Anti-Red Tape Act (ARTA) Policy of 2007: Efficiency, Effectiveness, and Relevance Towards the Expanded ARTA of Ease of Doing Business (EODB) Act Implementation

The **PWP** aims to enhance the effectiveness of programs by:

- (a) producing actionable, evidence-based findings from impact evaluations; and
- (b) building interest and capacity for evidence-based by supporting policymakers
- (c) prioritize and articulate their needs for evidence and research.

The PWP is an Australian Department of Foreign Affairs and Trade (DFAT) facility being administered through the International Initiative for Impact Evaluation (3ie) supporting evaluation of programs implemented by government and carries out capacity-building wherein NEDA serves as the focal agency.

PWP Phase One (2014-2020)

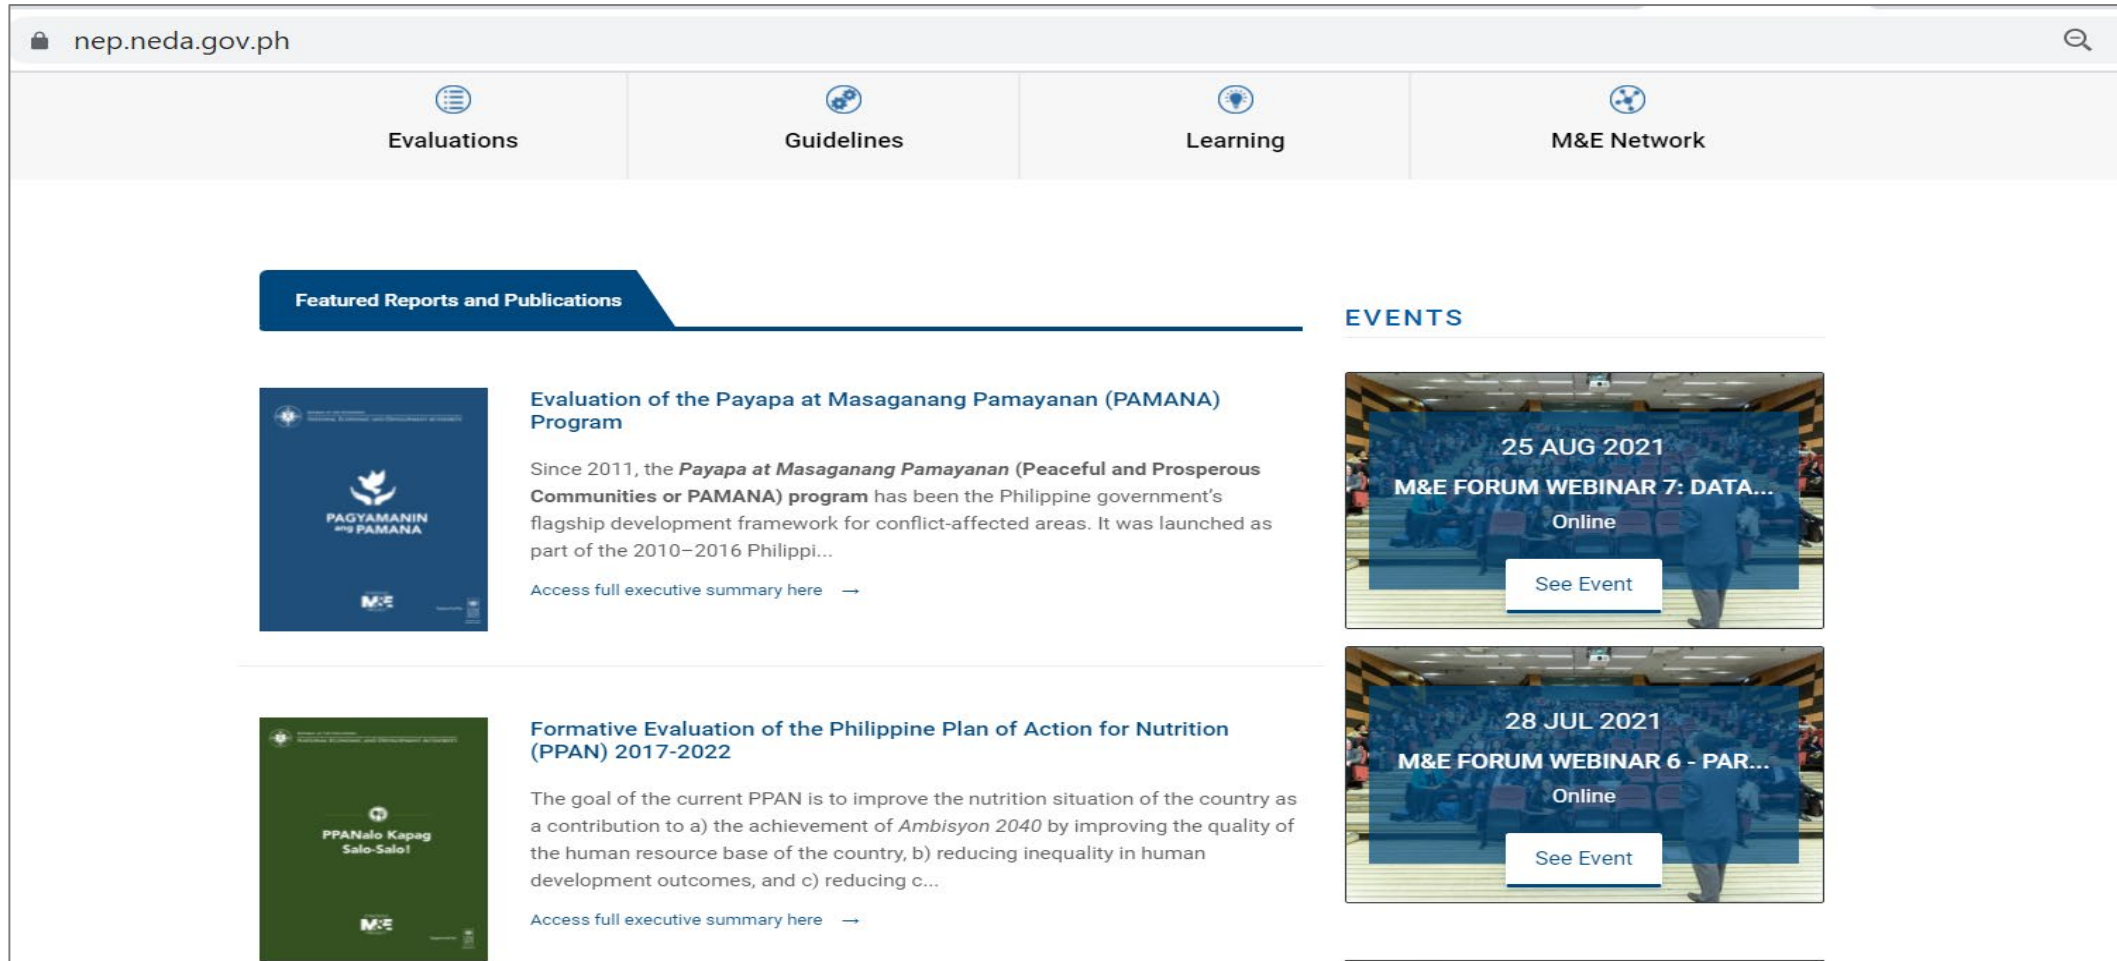

- ❑ Supported through Au\$2,800,000.00 (or US\$1.88 million); implemented from 2014 to 2020. PWP 1 Supported the evaluation of the following **priority programs**:
 - Special Program for the Employment of Students of the Department of Labor
 - Sustainable Livelihood Program of the Department of Social Welfare and Development
 - Small Claims Procedure and e-Court Program of the Supreme Court of the Philippines (SC)
 - Continuous Trial Program (SC)
- ❑ Under the program's **capacity-building component**, the ff. activities were carried out:
 - Training Course on Impact Evaluation or CLEAR IE
 - Joint NEDA-3ie Workshop on Conducting and Managing Real-World Evaluations
- ❑ Supported NEDA's participation in **high-level policy forum and participating in conferences**

PWP Phase Two (2020 to 2023)

Challenges encountered

Initiation

- Identification of appropriate stakeholders to be involved
- Ascertaining evaluability of the evaluation topic
- Consultation process during evaluation planning

Preparation

- Low capacity of end-users to design and manage evaluation studies
- Delays in procurement due to failed biddings, which is usually due to the thin market of evaluation consultants and training service providers
- Unavailability of baseline/data and reference documents which limited/changed the scope and adjusted evaluation design/ methodologies
- Difficulty in securing commitment from stakeholders (Implementing Agencies and NEDA Sector Staffs) with regard to ownership of evaluation efforts
- Immediately following the pandemic, procurement of activities has slowed down and/or suspended and not being able to immediately shift through virtual implementation and due to nonresponsive market during lockdown

Implementation

- Limited capacity/knowledge of end-users on contract management
- Thin industry for evaluation and poor performance of contractors/quality of outputs
- The design and implementation (e.g., online data collection, workshops, coordination meetings) of some sub-outputs could no longer proceed as originally planned because of mobility restrictions due to COVID
- Transitions/changes across project management teams and agency focals

Utilization

- Difficulty in securing stakeholder acceptance of evaluation findings and acknowledgement of the independence of the evaluation process, as well as commitment on follow-up actions
- Access and dissemination of evaluation findings
- Uncertainty in the utilization of evaluation results

Insights gained

M&E Fund activities supported NEDA's **mandated evaluation function**

Evaluation capacities were promoted through actual conduct and management of evaluations and participation to the capacity building activities

The **quality of evaluation studies** were improved through the creation of the Evaluation Reference Groups, Technical Working Groups, and Peer reviewers

Commissioning of studies and mounting of capacity building activities facilitated the identification of **M&E champions** in NGAs and Congress

The conduct of **annual M&E Network Forum and Monthly Webinar series** created venues for learning, knowledge sharing for sustained community of practice for M&E practitioners within and outside government

Crafting of the **NEPF Guidelines** provides guidance on the preparation, design, conduct, management, and utilization of evaluation studies, translating the NEPF into action

National Evaluation Portal developed for ease of access of evaluation findings and learning and development materials

Evaluability assessments helped assess the agencies' readiness to conduct proposed evaluation studies

The formulation of the **National Evaluation Agenda and its toolkit** to aid in the generation of the pipeline of evaluation studies consistent with the PDP

Prospects: Proposed Bills for National Evaluation Policy (NEP)

REPUBLIC OF THE PHILIPPINES
NATIONAL ECONOMIC AND
DEVELOPMENT AUTHORITY

Senate Bill No. 788: An Act Establishing a National Evaluation Policy

- Proposes the establishment of a **National Evaluation Policy** to strengthen the legal and institutional framework for the regular M&E of the results of public policies, programs and projects intended to promote sustainable development

SB No. 1885: An Act Establishing A Results-based National Evaluation Policy

- Aims to institutionalize and legalize a National Evaluation Policy that is interlinked with **Results- Based Management (RBM)** approaches and builds upon current and future integrated M&E systems.

House Bill Nos. 3293 and 8025: An Act Establishing a National Evaluation Policy

- **Supporting SBs No. 788 and 1885**, the HBs mandate the establishment of a NEP to strengthen regular evaluation of public policies, programs, and projects, **strengthening** evidence-based decision, ensuring program improvement, and promoting transparency and accountability in the public sector.

House Bill No. 10181: An Act Establishing a National Evaluation for Results Policy (NERP)

- The NERP aims to contribute to the achievement inclusive development and poverty reduction goals by **institutionalizing the legal framework for the regular conduct of M&E** for results of proposed, ongoing, and completed development interventions.

Further improve the capacity to manage evaluations at both the agency and individual levels

- Sustain evaluation capacity development efforts
- Continue to improve design, implementation, and management of evaluations
- Pilot agencies conduct their own evaluations

Enhance the quality of evaluation studies and promote the use of their results

- Secure commitment of stakeholders to ensure ownership of evaluation findings
- Ensure the utilization and application of evaluation recommendations
- Conduct of evaluability assessments prior to evaluations
- Employ quality assurance
- Continuously promote the utilization of the National Evaluation Portal across government

Enrich the enabling environment

- Pursue organizational reform initiative
- Support the passage at the legislative of the National Evaluation Policy
- 2023-2028 PDP shaped by evaluations and released with an evaluation agenda
- Tier 2 budget proposals & ICC project decisions backed by evaluations
