The Chair's Statement of the MDGs Follow-up Meeting

3-3 Narrowing the Implementation Gap: National and Community-based Approaches

Issues to be highlighted

- Bottlenecks that thwart effective implementation and slow progress towards the MDGs and thus need to be addressed at national and local levels.
- Acceleration of the MDGs can take place through participatory analysis of bottlenecks with a partnership approach and implementation of focused plans of action that bring together the efforts of a range of stakeholders.

Key Elements

- ✓ Enhancement of partnership and cooperation among various stakeholders, multi-sectoral and comprehensive approach, protection and empowerment, and governance and capacity development
- ✓ Sound and evidence-based knowledge sharing
- ✓ Nationally-led scaled up implementation effort to remove bottlenecks at national and local levels
- ✓ Further coordination between bilateral and multilateral cooperation and diversification of Stakeholders
- ✓ A partner country led United Nations MDG Acceleration Framework
- ✓ People-centered approach
- ✓ Innovative approaches

The Chair's Statement of the MDGs Follow-up Meeting

3-4 Partnership for Sustained, Inclusive and Equitable Economic Growth

Issues to be highlighted

- The importance of sustained, inclusive and equitable economic growth and the significance of development cooperation in realizing it
- The need to strengthen the partnership among various development actors to use different resources effectively to maximize impact

Key Elements

- ✓ National ownership and leadership are of utmost importance in the development process.
- ✓ Catalytic role of development cooperation in achieving economic growth
- ✓ Vital role of development cooperation in building foundation to create opportunities for more people to participate in and benefit from the growth process
- ✓ Respect for ownership, focus on development results, incorporation of environmental and debt sustainability
- ✓ Strong, responsible, transparent and accountable partnership among various actors
- ✓ Productive capacity building as a development multiplier
- ✓ The importance of incorporating environmental sustainability in achieving sustained, inclusive and equitable economic growth.

Human Security

Issues to be highlighted

- The human security concept may contribute to the achievement of the MDGs.

Key Elements

- ✓ Comprehensive collaboration among stakeholders
- ✓ The participation of communities, particularly the poor and marginalized

Recent Activities: Loan- Conversion for Health

- ◆ New Joint Innovative Financing Program based on Public-Private Partnership on Polio Eradication
- ◆ Comprehensive partnership between the Bill & Melinda Gates Foundation and Japan through ODA loan (¥5 Billion)
- ◆ Support the polio campaign in Pakistan, only one country where polio incidence has been increasing, while working in partnership with the World Bank for co-financing.
