management measures. Other specific conservation and management measures for protecting the library, such as the development of an emergency plan for the library's security, will be discussed in a later section.

(c) What are the benefits of a strategic approach to participating in the library's activities and what policies are in place for ensuring the library's efficiency and effectiveness in managing the library's resources?

(d) What is the role of the library in promoting scientific and technological development at the university and how does it contribute to the university's mission.

(e) How will the library adapt to the changing needs of the university's community and what steps will be taken to ensure that the library's resources are available to all members of the community?

(f) How will the library collaborate with other libraries and institutions to improve its services and resources?

(g) What is the library's policy on the acquisition and management of special collections and how does it ensure the preservation of its historical and cultural heritage?
