Excellency,

I have the honour to refer to Japan’s Law Regarding Special Measures Concerning Supply Assistance Activities in Support of Counter-Terrorism Maritime Interdiction Activities (Law No.1 of 2008, hereinafter referred to as “the Law”).

The purpose of the Law is to continue active and voluntary contributions to efforts by the international community for the prevention and eradication of international terrorism, and thereby contribute to ensuring peace and security of the international community including Japan, through activities related to the provision of supplies and services of the Self-Defense Forces of Japan (limited to activities that provide fuel for vessels or rotary wing aircraft carried on vessels and water) to vessels of the armed forces or other similar entities of foreign countries which are engaged in duties related to activities that contribute to the achievement of the purposes of the Charter of the United Nations by making efforts to eradicate the threat caused by the terrorist attacks in the United States of America on September 11, 2001, and to take such necessary measures as the inspection and verification of vessels sailing the Indian Ocean with a view to interdicting and deterring the movements of terrorists, weapons or other material under international cooperation (hereinafter referred to as "counter-terrorism maritime interdiction activities"), in order to assist in the smooth and effective implementation of counter-terrorism maritime interdiction activities.

I have further the honour to refer to the discussions that have taken place between our two Governments concerning supplies and services in the field of logistic support (hereinafter referred to as “the logistic support, supplies, and services”) contributed to the armed forces or other similar entities of the Federal Republic of Germany in accordance with the Law and to submit on behalf of the Government of Japan the following proposals as a result of those discussions:
1. The use of logistic support, supplies and services contributed to and accepted by the armed forces or other similar entities of the Federal Republic of Germany in accordance with the Law shall be consistent with the Charter of the United Nations.

2. The logistic support, supplies and services contributed to and accepted by the armed forces or other similar entities of the Federal Republic of Germany in accordance with the Law shall not be transferred, either temporarily or permanently, by any means to persons outside of the armed forces or other similar entities of the Federal Republic of Germany, without the prior consent of the Government of Japan.

3. The Government of Japan and the Government of the Federal Republic of Germany will consult with each other for the purpose of effective implementation of Paragraphs 1 and 2 above.

I have further the honour to propose that, if the proposals set out above are acceptable to the Government of the Federal Republic of Germany, this Note and Your Excellency’s Note in reply to that effect on behalf of the Government of the Federal Republic of Germany shall constitute an agreement between the two Governments in this matter, which shall enter into force on the date of Your Excellency’s Note in reply.

This Note is written in the Japanese, German and English languages, all three texts being authentic. In case of divergent interpretations of the Japanese and German texts, the English text shall prevail.

I avail myself of this opportunity to extend to Your Excellency the assurance of my highest consideration.
