~OBJECTIVE~

It is globally recognized that it is of utmost importance to further explore how to realize peace consolidation from a more comprehensive perspective and it is actively discussed how various groups engaged in peace consolidation should cooperate with each other. In the United Nations, the Peace-building Committee was established to coordinate peace support activities in post-conflict regions from a comprehensive and long-term point of view.

(©U NHCR / E. Cue)

To closely examine the current of international society and to think how Japan should contribute to international peace, the Ministry of Foreign Affairs and Osaka School of International Public Policy cohost this seminar.

We invite experts inside and outside from Japan. The programme will consist of keynote addresses, presentations, discussions, and questions and answers between panelists and the audience.
